RISK IN RELATION TO THE FIRST OFFER
This being the first issue of the issuer, there has been no formal market for the securities of the issuer. The face value of the Equity Shares is ₹10 each. The Floor Price, Cap Price and Offer Price determined by our Company, in consultation with the Book Running Lead Manager, on the basis of the assessment of market demand for the Equity Shares by way of the Book Building Process, as stated under “Basis for Offer Price” on page 111 should not be considered to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active or sustained trading in the Equity Shares nor regarding the price at which the Equity Shares will be traded after listing.

GENERAL RISKS
Investments in Equity and Equity-related securities involve a degree of risk and investors should not invest any funds in this Issue unless they can afford to take the risk of losing their entire investment. Investors are advised to read the risk factors carefully before taking an investment decision in the offer. For taking an investment decision, investors must rely on their own examination of our Company and the offer including the risks involved. The Equity Shares issued in the Offer have not been recommended or approved by the Securities and Exchange Board of India (“SEBI”), nor does SEBI guarantee the accuracy or adequacy of the Prospectus. Specific attention of the investors is invited to the section “Risk Factors” beginning on page 29 of this Prospectus.

CERTAIN CONVENTIONS, USE OF FINANCIAL INFORMATION AND MARKET DATA AND CURRENCY OF FINANCIAL PRESENTATION

Certain Conventions

All references in the Prospectus to “India” are to the Republic of India. All references in the Prospectus to the “U.S.”, “USA” or “United States” are to the United States of America.

In this Prospectus, unless the context otherwise requires, all references to one gender also refers to another gender and the word “Lac / Lakh” means “one hundred thousand”, the word “million (mn)” means “Ten Lac / Lakh”, the word “Crore” means “ten million” and the word “billion (bn)” means “one hundred crore”. In this Prospectus, any discrepancies in any table between total and the sum of the amounts listed are due to rounding-off. All figures in decimals have been rounded off to the second decimal and all percentage figures have been rounded off to two decimal places. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row.

Use of Financial Data

Unless stated otherwise, throughout this Prospectus, all figures have been expressed in Rupees and Lakh. Unless stated otherwise, the financial data in the Prospectus is derived from our restated financial information prepared for the period 6 months ended September 30, 2025 and financial years ended March 31, 2025, March 31, 2024 and March 31, 2023 in accordance with Indian GAAP, the Companies Act and SEBI (ICDR) Regulations, 2018 included under Section titled ***“Financial Information of the Company”*** beginning on page 221 of this Prospectus. Further, it may be noted that the half-yearly financial figures disclosed for the period from April 2025 to September 2025 in this Prospectus have not been annualized.

There are significant differences between Indian GAAP, the International Financial Reporting Standards (“IFRS”) and the Generally Accepted Accounting Principles in the United States of America (“U.S. GAAP”). Accordingly, the degree to which the Indian GAAP financial statements included in this Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practice and Indian GAAP. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Prospectus should accordingly be limited. We have not attempted to explain those differences or quantify their impact on the financial data included herein, and we urge you to consult your own advisors regarding such differences and their impact on our financial data.

Any percentage amounts, as set forth in ***“Risk Factors”***, ***“Our Business”***, ***“Management’s Discussion and Analysis of Financial Condition and Results of Operations”*** and elsewhere in the Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, 2018, as stated in the report of our Peer Review Auditor, set out in section titled ***“Financial Information of the Company”*** beginning on page 221 of this Prospectus. Our fiscal year commences on April 1 of every year and ends on March 31st of every next year.

For additional definitions used in this Prospectus, see the section ***“Definitions and Abbreviations”*** on page 1 of this Prospectus. In the section titled ***“Main Provisions of the Articles of Association”***, on page 405 of the Prospectus defined terms have the meaning given to such terms in the Articles of Association of our Company.

Use of Industry & Market Data

Unless otherwise indicated or unless the context requires otherwise, industry and market data used in this section have been derived from the industry report titled ***“Industry Report for India Scaffolding and Ladders Market***, dated August 11, 2025 (***“Mordor Report”***), prepared and issued by ***Mordor Intelligence Private Limited*** exclusively for the purpose of this offer, and commissioned and paid for by our Company. Mordor has stated in its consent letter that all information contained in the Report included in this Prospectus has been reproduced by the Company strictly on an ‘as-is’ or verbatim basis, without any modification, alteration or adjustment, and that the contents so reproduced reflect the information reviewed and approved by Mordor Intelligence Private Limited. Mordor has further clarified that authorship and source credit must be clearly attributed to Mordor Intelligence Private Limited wherever the Report or its extracts are used in this Offer Document. Mordor has also expressly disclaimed any responsibility or liability for the accuracy or completeness of such information or for any losses or damages arising from reliance on such Report, except where liability may arise due to breach of applicable laws.

As such, a blanket, generic use of the derived results or the methodology is not encouraged. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions vary widely among different industry sources. Further, such assumptions may change based on various factors. We cannot assure you that Mordor assumptions are correct or will not change and, accordingly, our position in the market may differ, favorably or unfavorably, from that presented in this Prospectus. Further, the commissioned report is not a recommendation to invest or disinvest in our Company. Prospective investors are advised not to unduly rely on the commissioned report or extracts thereof as included in this Prospectus, when making

their investment decisions. For risks in relation to commissioned reports, see “*Risk Factors –Internal Risks – Certain sections of this Prospectus disclose information from industry report commissioned and paid for by us and any reliance on such information for making an investment decision in the Issue is subject to inherent risks.*” on page 52 of this Prospectus.

In accordance with the SEBI (ICDR) Regulations, 2018 the section titled “*Basis for Offer Price*” on page 111 of the Prospectus includes information relating to our peer group companies. Such information has been derived from publicly available sources, and neither we, nor the BRLM, have independently verified such information.

Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed, and their reliability cannot be assured and accordingly, investment decisions should not be based on such information. Although the industry and market data used in this Prospectus is reliable, it has not been independently verified by us, the BRLM, or any of their respective affiliates or advisors. The data used in these sources may have been re-classified by us for the purposes of presentation.

Data from these sources may also not be comparable. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section ‘Risk Factors’ on page 29 of this Prospectus.

Accordingly, investors should not place undue reliance on, or base their investment decision on this information. The extent to which the market and industry data used in this Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which business of our Company is conducted, and methodologies and assumptions may vary widely among different industry sources.

Currency of Financial Presentation

All references to “Rupees” or “INR” or “₹” are to Indian Rupees, the official currency of the Republic of India. Except where specified, including in the section titled “**Industry Overview**” throughout the Prospectus all figures have been expressed in Lakhs.

Any percentage amounts, as set forth in “**Risk Factors**”, “**Our Business**”, “**Management's Discussion and Analysis of Financial Conditions and Results of Operations**” on page 29, 155 and 298 respectively of this Prospectus, unless otherwise indicated, have been calculated based on our restated financial statements prepared in accordance with Indian GAAP.

The Prospectus contains conversion of certain US Dollar and other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI (ICDR) Regulations, 2018. These conversions should not be construed as a representation that those US Dollar or other currency amounts could have been, or can be converted into Indian Rupees, at any particular rate.

FORWARD LOOKING STATEMENTS

This Prospectus includes certain “forward-looking statements”. We have included statements in the Prospectus which contain words or phrases such as “will”, “aim”, “is likely to result”, “believe”, “expect”, “will continue”, “anticipate”, “estimate”, “intend”, “plan”, “contemplate”, “seek to”, “future”, “objective”, “goal”, “project”, “should”, “will pursue” and similar expressions or variations of such expressions, that are “forward-looking statements”. Also, statements which describe our strategies, objectives, plans or goals are also forward looking statements.

All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Important factors that could cause actual results to differ materially from our expectations include but are not limited to:

1. General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
2. Changes in consumer demand;
3. Failure to successfully upgrade our service portfolio, from time to time;
4. Any change in government policies resulting in increases in taxes payable by us;
5. Our ability to retain our key managements persons and other employees;
6. Changes in laws and regulations that apply to the industries in which we operate.
7. Our failure to keep pace with rapid changes in technology;
8. Our ability to grow our business;
9. Our ability to make interest and principal payments on our existing debt obligations and satisfy the other covenants contained in our existing debt agreements;
10. general economic, political and other risks that are out of our control;
11. Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
12. Company’s ability to successfully implement its growth strategy and expansion plans;
13. failure to comply with regulations prescribed by authorities of the jurisdictions in which we operate;
14. inability to successfully obtain registrations in a timely manner or at all;
15. occurrence of Environmental Problems & Uninsured Losses;
16. conflicts of interest with affiliated companies, the promoter group and other related parties;
17. any adverse outcome in the legal proceedings in which we are involved;
18. Concentration of ownership among our Promoter;
19. The performance of the financial markets in India and globally;
20. Global distress due to pandemic, war or by any other reason.

For further discussion of factors that could cause our actual results to differ, see the Section titled **“Risk Factors”, “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations”** beginning on page 29, 155 and 298 respectively of the Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

There can be no assurance to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Neither our Company or our Directors or the Selling Shareholders or our Officers or Book Running Lead Manager or Underwriter nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company and the BRLM will ensure that investors in India are informed of material developments until such time as the grant of listing and trading permission by the Stock Exchange for the Equity Shares allotted pursuant to this Offer.

SECTION III: RISK FACTORS

*An investment in our Equity Shares involves a high degree of financial risk. Prospective investors should carefully consider all the information in the Prospectus, particularly the “**Financial Information of the Company**” and the related notes, “**Our Business**” and “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” on page 221, 155 and 298 respectively of this Prospectus and the risks and uncertainties described below, before making a decision to invest in our Equity Shares.*

The risk factors set forth below are not exhaustive and do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, individually or together, could adversely affect our business, financial condition, results of operations or prospects, which could result in a decline in the value of our Equity Shares and the loss of all or part of your investment in our Equity Shares. While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.

This Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the merits and the risks involved. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

Unless stated otherwise, industry and market data used in this section has been obtained or derived from publicly available information as well as industry publications, other sources and the report titled “India Scaffolding And Ladder Market” dated August 11, 2025 (the “Mordor Report”) prepared by Mordor Intelligence Private Limited and such report has been commissioned and paid for by our Company vide engagement letter dated July 21, 2025 exclusively in relation to the Issue. A copy of the Mordor Report is available on the website of our Company at <https://msafegroup.com/>. Unless otherwise indicated, all financial, operational, industry and other related information derived from the Mordor Report and included herein with respect to any particular year refers to such information for the relevant calendar year.

Materiality

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- 1. Some events may not be material individually but may be found material collectively.*
- 2. Some events may have material impact qualitatively instead of quantitatively.*
- 3. Some events may not be material at present but may be having material impact in future.*

Note:

The risk factors as envisaged by the management along with the proposals to address the risk if any. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section.

*In this Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. Any percentage amounts, as set forth in “**Risk Factors**” on page 29 and “**Management Discussion and Analysis of Financial Condition and Results of Operations**” on page 298 of this Prospectus unless otherwise indicated, has been calculated on the basis of the amount disclosed in the “**Restated Financial Statements**”.*

INTERNAL RISK FACTORS

- 1. Our business is significantly dependent on the performance of the construction and infrastructure sector, and any slowdown or adverse developments in these sectors may adversely affect our business, financial condition, results of operations and cash flows.**

Our product portfolio includes aluminium scaffoldings, mild steel (MS) scaffoldings, aluminium ladders and fibre reinforced plastic (FRP) ladders, which are primarily used across construction, maintenance, installation, repair and infrastructure development activities. Demand for these products, whether sold or rented, is largely dependent on activity levels in the construction and infrastructure sector. The performance of these sectors in India is influenced by several factors, including government policies and budgetary allocations, availability of finance and credit, interest rates, cost of raw materials, labour availability, regulatory clearances, and overall economic conditions.

Any slowdown, delay, or adverse development in these factors may result in reduced investments, cancellations or deferment of projects, which in turn could lower the demand for our products and services. Further, project-specific risks such as delays in land acquisition, legal disputes, shortage of skilled manpower and escalation in project costs may also impact the pace of execution of construction and infrastructure projects. In addition, reduced government spending, changes in applicable safety standards or adoption of alternative access equipment and technologies may adversely affect the demand for scaffoldings and ladders.

While we also cater to customers in industries such as facility management, HVAC solutions, MEP contracting, interior contracting, electrical contracting, warehousing and logistics, firefighting and safety systems, among others, a significant portion of our revenues continues to be derived from customers in the construction and infrastructure sector. Accordingly, any prolonged slowdown or adverse developments in these sectors may materially and adversely affect our business, financial condition, results of operations, cash flows and future growth prospects.

- 2. We derived a significant portion of our revenue from the sale and rental of our key product i.e. Aluminium Scaffolding. Any decline in the sale or rental services of our key offering could have an adverse effect on our business, results of operations and financial condition.**

We generate a significant portion of our revenue from our key product i.e. Aluminium Scaffolding. Revenue from the rental of aluminium scaffolding accounted for 39.64% for the six months period ended September 2025 and 48.87%, 50.50%, and 59.94% of our revenue from operations in Fiscal 2025, 2024, and 2023, respectively, while revenue from sale contributed 36.68%, 35.94%, 37.34%, and 26.17% during the corresponding periods. Accordingly, the aggregate contribution of aluminium scaffoldings (rental and sales combined) to our revenue from operations was 76.32%, 84.81%, 87.85% and 86.11% for the 6 months period ended Sept. '25 and Fiscal 2025, 2024 and 2023, respectively.

Aluminium scaffoldings are modular, lightweight structures made from high-grade aluminium, designed to provide safe and stable access to elevated work areas. They are widely used in construction, industrial maintenance, and interior fit-outs due to their portability, ease of assembly, and corrosion resistance. These are offered in various configurations such as stairway, narrow-width, extra reach, podium, cantilever, and bridge sections. For details on our products, please refer to section “Our Business – Product-wise revenue bifurcation” on page 156 of this Prospectus.

The following table sets forth information on our product mix in terms of revenue contribution in the periods indicated:

Any decline in the rental or sales of aluminium scaffoldings, whether due to increased competition, pricing pressures, supply chain disruptions, changes in safety standards, adoption of alternative access solutions, or evolving customer preferences, may adversely affect our revenues. We cannot assure that we will be able to maintain historical levels of sales or rentals of aluminium scaffoldings in the future. Any failure to anticipate and adapt to technological changes, industry developments or customer requirements could materially and adversely affect our business prospects, financial performance, and cash flows.

3. We do not have long-term agreements with our customers, and our revenues are dependent on purchase orders or work orders, which may not be renewed in the future.

Our business model for both sales and rental is primarily based on customer purchase orders and work orders, without long-term commitments from our customers. Most of our rental orders are for monthly, fortnightly or weekly tenures with extensions being made on a case-to-case basis, while product sales are also executed against specific purchase orders. Accordingly, we face the risk that our customers may not continue to place orders with us at historical levels, may reduce the volume of business, or may not renew rental arrangements upon expiry. Any reduction, cancellation, or delay in orders or rental renewals could lead to volatility in our revenue streams and may adversely affect our financial condition and results of operations.

Further, since our arrangements with customers are typically not backed by firm long-term commitments, we are dependent on maintaining strong relationships, timely execution, and competitive pricing to secure repeat orders. For details, in respect of repeat business, please refer to section “Our Business – Well diversified customer base spread across various industries & geography” on page 161 of this Prospectus. In certain cases, we may be required to extend favourable terms, such as credit facilities, flexible rental extensions, or customized equipment configurations, in order to retain customers. Such concessions may place constraints on our resources and margins.

We cannot assure you that our customers will continue to source products and rental equipment from us in the future, or that they will do so at levels consistent with past practice. Since our orders are not long-term in nature, our revenues remain exposed to fluctuations in customer demand, project execution cycles, and procurement preferences. Any material reduction in the level of repeat business from existing customers, or any failure to continuously generate new customer orders, could adversely affect our sales, rental income, cash flows and overall financial performance.

4. The object of the Offer relating to expansion of our rental segment is based on estimates and assumptions and the actual cost and implementation may vary from those disclosed.

One of the Objects of the Offer pertains to funding capital expenditure towards manufacturing of equipment for our rental business, aggregating to ₹600.00 lakhs. The object of the Offer relating to the expansion of our rental segment has been formulated based on management estimates and assumptions, supported by vendor quotations and duly certified cost report issued by the Cost Accountant, M/s. Shailesh Patel & Co., vide certificate dated January 21, 2026, and a certificate issued by the Chartered Accountant, M/s. Mohit Agarwal & Company, dated January 10, 2026, as considered appropriate at the time of preparation of the Report. Notwithstanding such certifications, the estimates remain subject to uncertainties and are dependent on factors such as changes in market conditions, input costs, specifications, availability of equipment, execution timelines and other operational considerations.

Accordingly, the actual expenditure incurred and the manner and timing of implementation of this object may differ from the estimates disclosed in this Prospectus. Any variation in the actual cost or delay in implementation may require the Company to re-allocate funds among the objects of the Offer or to fund such variations through internal accruals or borrowings. There can be no assurance that the Company will be able to implement this object within the estimated cost or timeframe or achieve the intended benefits from the expansion of the rental segment, which may adversely affect our business, financial condition, results of operations and cash flows.

5. A significant portion of our revenue is derived from our rental business, and any decline in rental demand, changes in customer preferences or adverse developments in our rental operations may adversely affect our business, financial condition, results of operations and cash flows.

We derive a substantial portion of our revenue from providing aluminium scaffoldings, MS scaffoldings and ladders (FRP and aluminium) on a rental basis across India. For the half year ended September 30, 2025 and in Fiscal 2025, 2024 and 2023, revenue from rental services accounted for 43.07%, 51.65%, 52.30% and 62.97% of our revenue from operations, respectively. Our business model involves offering equipment on monthly, fortnightly or weekly rental terms, with rentals commencing from dispatch until equipment is returned. Given this significant reliance on rental income, our performance is inherently dependent on sustaining and growing rental demand.

Demand for our rental services is closely linked to activity levels in construction, infrastructure and industrial projects. Any slowdown in these sectors due to factors such as reduced government spending, regulatory hurdles, delay in project execution, shortage of skilled labour, rising project costs or macro-economic conditions could adversely affect utilization of our rental equipment. Further, competition from other scaffolding rental providers, adoption of alternative access solutions, or a shift in customer preferences from renting to purchasing equipment could reduce demand for our rental services.

Additionally, our rental business is subject to operational complexities such as equipment dispatch, erection, dismantling, training, maintenance, and timely recovery of equipment. Delays or lapses in these processes could lead to customer dissatisfaction, disputes, or loss of repeat business. Any prolonged decline in rental demand or inability to effectively manage rental operations could materially and adversely affect our revenue, profitability, cash flows and future growth prospects.

6. Our products are used in elevated-work environments with inherent safety risks, and any accidents or safety incidents involving our scaffoldings or ladders could expose us to claims, litigation, regulatory action or reputational harm.

Our aluminium scaffoldings, MS scaffoldings and ladders are deployed at customer sites for activities such as building exterior works (including facade and cladding installation), painting and plastering, HVAC and MEP works, electrical cabling and fittings, ceiling and interior finishing, fire-fighting works and warehouse operations. These activities involve working at heights and other occupational safety hazards. Although our products are designed to meet industry standards and we provide safety guidelines & manuals to customers, the actual usage and assembly of equipment remains outside our control. Improper installation, failure to adhere to prescribed safety protocols, or overloading of equipment by customers or their workers could result in accidents or injuries. In such cases, even if our equipment is not at fault, we may face claims alleging defects, design issues or inadequate warnings.

Any accident or safety incident involving our products could expose us to compensation claims, insurance disputes, litigation or regulatory investigations, particularly if such incidents result in serious injury, loss of life, or damage to property. While we seek to limit liability through contractual terms and disclaimers, there can be no assurance that such measures will fully protect us from financial exposure. In addition, adverse findings in regulatory or judicial proceedings could result in penalties, restrictions, or mandatory recalls, thereby increasing our costs and impacting profitability.

Beyond financial liability, safety-related incidents could damage our brand reputation and customer trust. Given that repeat business and referrals are an important driver of our sales and rentals, any perception that our products are

unsafe or unreliable could materially affect demand. Negative publicity arising from safety failures may also impact our ability to secure new business, particularly with large institutional clients that place strong emphasis on vendor safety records. Accordingly, any accidents or safety incidents involving our products, whether or not attributable to us, could materially and adversely affect our business, financial condition, results of operations and prospects.

7. We have recently commenced in-house manufacturing of scaffoldings and ladders, and given our limited operating history in manufacturing, we may face challenges that could adversely affect our business, financial condition, results of operations and future growth prospects.

Until Fiscal 2022-23, our Company relied on third parties for the supply of aluminium scaffoldings, which were procured either through job work arrangements or direct purchases. In Fiscal 2023-24, we transitioned from such third-party sourcing to in-house manufacturing and expanded our product portfolio to include aluminium scaffoldings, ladders (FRP and aluminium) and MS scaffoldings. Prior to this, our product offerings primarily comprised aluminium scaffoldings and aerial work platform (AWP) scissor lifts.

As we have commenced in-house manufacturing in F.Y. 2023-24, we have limited operating history in the manufacturing line of business. We may face several challenges in scaling up our manufacturing operations, optimizing production processes, maintaining cost efficiency, ensuring uninterrupted supply of raw materials, achieving and maintaining quality standards, and meeting customer expectations. In addition, we are exposed to risks associated with capacity utilization, requirement of skilled manpower, compliance with applicable safety and regulatory standards, and efficient management of production facilities.

Further, we face competition from established players with longer track records, greater experience in large-scale manufacturing, wider distribution networks and stronger brand recognition. If we are unable to successfully manage our transition from reliance on third-party sourcing to in-house manufacturing, or if we fail to effectively address the associated risks and challenges, our business operations, financial condition, results of operations and future growth prospects may be adversely affected.

8. We are significantly dependent on a limited number of suppliers for procurement of our raw materials, with which we do not have any long term agreements and any disruption in supply or volatility in raw material prices may adversely affect our business, financial condition, results of operations and cash flows.

The manufacturing of our products, namely aluminium scaffoldings, mild steel (MS) scaffoldings and ladders (FRP and aluminium), requires raw materials such as aluminium extrusion, which we source from multiple vendors, primarily located in Haryana, Uttar Pradesh, Delhi and Punjab. Our cost of raw materials consumed for the half year ended September 30, 2025 and in Fiscal 2025, 2024 and 2023 was ₹1661.86 lakhs, ₹2017.82 lakhs, ₹1532.90 lakhs and ₹653.58 lakhs, respectively, representing 33.91%, 28.28%, 31.85% and 22.01% of our revenue from operations in the corresponding periods. For details in relation to our raw materials, please refer to section “Our Business – Raw Materials” on page 178 of this Prospectus.

Our purchases from our top 10 suppliers for the period ended September 30, 2025 and in Fiscal 2025, 2024 and 2023 aggregated to ₹1778.10 lakhs, ₹3,935.67 lakhs, ₹2,462.60 lakhs and ₹1,579.28 lakhs, respectively, constituting 75.12%, 86.38%, 89.60% and 95.33% of our total purchases for those periods.

This significant reliance on a limited number of suppliers exposes us to risks relating to availability, timely supply, quality, and pricing of raw materials. Any disruption in supply from one or more of these suppliers, whether due to operational, financial or other difficulties faced by them, may adversely affect our ability to manufacture and deliver products to our customers on time.

In addition, we do not have long-term agreements or contracts with our suppliers, and procurements are generally based on purchase orders. As a result, we are exposed to risks of price volatility, supply shortages and quality inconsistencies. Factors such as supply-demand imbalances, global commodity price trends, changes in trade policies, indirect taxes and import duties, transportation costs and fluctuations in foreign currency exchange rates may influence raw material prices. In case of a significant increase in raw material costs, there can be no assurance that we will be able to pass on such increases to our customers without affecting demand for our products. If we increase product prices to offset higher costs, customers may defer or reduce orders, adversely impacting our revenue and profitability. Conversely, if we are unable to increase product prices, our margins may be adversely affected.

Accordingly, our dependence on a concentrated group of suppliers, coupled with exposure to raw material price fluctuations, could materially and adversely affect our business operations, financial condition, results of operations and cash flows.

9. *There are outstanding legal proceedings involving our Company. Any adverse decisions could impact our cash flows and profit or loss to the extent of demand amount, interest and penalty, divert management time and attention and have an adverse effect on our business, prospects, results of operations and financial condition.*

There are outstanding legal proceedings involving our Company. For details, see “**Outstanding Litigation and Material Developments**” beginning on page 319 of this Prospectus.

Any adverse decisions in the above cases could impact our cashflows and profit or loss to the extent of demand amount, interest and penalty, divert management time and attention and have an adverse effect on our business, prospects, results of operations and financial condition.

10. Our business requires significant investment in equipments and inventories, and any under-utilisation of our rental equipments or inability to efficiently manage inventories could adversely affect our profitability, working capital and return on capital employed.

We invest substantial capital in procuring, fabricating and maintaining our scaffolding and ladder fleet for the rental business. For the period ended September 30, 2025, and for F.Y. ended March 31, 2025, rental services contributed 43.07% and 51.65% of our revenue from operations, reflecting the critical role of asset deployment in our business model. The viability of this segment depends on achieving optimum utilisation levels across equipment categories. However, utilisation is inherently subject to fluctuations in demand, seasonal variations in construction activity, delays in project execution, and competition from other providers. Periods of under-utilisation may result in inadequate recovery of fixed costs, including depreciation, warehousing, insurance and refurbishment expenses, leading to pressure on margins and reduced return on invested capital.

In addition, we are required to hold inventories of finished goods, work-in-progress and raw materials to service both sales and rental requirements. Our inventories represented approximately 36.18%, 27.86%, 17.98% and 7.49% of our current assets for the period ended September 30, 2025, and as of March 31, 2025, 2024 and 2023, respectively. Further, our inventory turnover days stood at approximately 196 days, 123 days, 58 days and 36 days in the same periods. Any mismatch between demand forecasts and actual offtake may result in excess stock, obsolescence, or higher carrying costs. Conversely, shortages or delays in inventory replenishment could disrupt timely execution of customer orders or rental commitments. Both excess inventory and under-utilized fleet assets tie up working capital, reduce asset turnover and may adversely impact our liquidity position.

Further, inventories and fixed assets is subject to market conditions, technological changes and customer preferences. For instance, if newer equipment designs or alternative access solutions gain acceptance, demand for our existing fleet and products may decline, necessitating write-downs or accelerated depreciation. Accordingly, any sustained under-utilisation of our rental assets or inefficiencies in managing inventories could materially and adversely affect our business, financial condition, results of operations and overall return on capital employed.

11. Our rental business exposes us to credit risks, collection delays and equipment recovery issues, which may adversely affect our cash flows and profitability.

Our rental arrangements typically require advance payment of rental and collection of security instruments such as security cheques, deposits or post-dated cheques. Despite these measures, we are exposed to risks of delayed payments, disputes with customers about billing or damage, and partial or non-recovery of charges. In certain cases, payment release is subject to site certification or approval from the client’s project manager, which may cause delays in raising invoices and realization of dues. Any delay in customer payments directly impacts on our working capital cycle and cash flows.

The process of equipment return involves inspection and verification of material quantity and physical condition. Disputes arise where customers contest damage assessments, shortage claims, or refurbishment costs. While we have defined penalties for component value for lost materials and for damaged items, recovery of such charges is not always assured. In cases where customers delay or refuse to settle dues, our security instruments may be insufficient to cover actual losses, thereby impacting on our profitability.

Further, our equipment undergoes refurbishment and quality checks after each rental cycle. Any increase in

refurbishment costs due to higher incidence of damage or misuse at client sites may further strain margins. If we are unable to effectively mitigate credit risks, ensure timely recovery of payments, and manage refurbishment and replacement costs, our business operations, profitability, cash flows and overall financial condition could be materially and adversely affected.

12. We are subject to stringent quality requirements, and any failure to meet prescribed standards may result in cancellation of orders, product recalls, warranty claims, liability exposure and reputational damage.

Our products, including aluminium scaffoldings, MS scaffoldings and ladders (aluminium and FRP), are used in elevated work environments where safety and reliability are critical. Accordingly, our manufacturing processes and finished products are subject to strict quality standards and customer specifications. Any failure to comply with prescribed quality standards, safety norms or order requirements could result in rejection of consignments, cancellation of purchase orders, non-renewal of rental contracts, or loss of business to competitors.

Defects in design, raw materials or workmanship, or improper assembly or usage by customers, could also give rise to allegations of product failure. Such instances may expose us to claims for damages, product liability proceedings or mandatory recalls. We may further be required to indemnify customers against losses caused by defective products, and reimburse them for administrative, repair or replacement costs. These events could result in financial liability, diversion of management attention and reputational harm.

Although we have not experienced product recalls or significant quality-related disputes in the last three financial years, there can be no assurance that such events will not occur in the future. Any significant lapse in quality compliance, or perception of product unreliability, could materially and adversely affect our business operations, financial condition, results of operations and cash flows.

13. All our offices (including registered office) are located on third party premises which are taken by us on rental basis. If these arrangements/agreements are terminated or not renewed on terms acceptable to us, it could have a material adverse effect on our business, financial condition and results of operations.

We operate from multiple premises, including our registered office, corporate office, manufacturing facilities and warehouses, all of which have been obtained on a rental basis except for one of the manufacturing facility. In addition, a majority of these agreements have been executed for a short tenure of 11 months. The short duration of such agreements exposes us to the risk of frequent renewals and possible non-renewal or termination by the counterparty. In the event of termination or non-renewal of such rental agreements, we may be required to vacate the premises concerned. Such an eventuality may lead to operational disruptions, relocation costs, interruptions in business continuity and administrative inconvenience, which could materially and adversely affect our business, financial condition, results of operations and growth prospects. For further details, see ‘Our Business – Property’ on page 181.”

Furthermore, certain of our lease agreements have not been duly registered as required under the Registration Act, 1908, and appropriate stamp duty has not been paid in accordance with the Indian Stamp Act, 1899. These irregularities may affect the enforceability of such lease agreements, potentially impacting our operations and financial condition.

There can be no assurance that we will, in the future, be able to renew the agreements for the existing locations on same or similar terms or will be able to find alternate locations for the offices on similar terms favourable to us, or at all. We may also fail to negotiate the renewal of our rent agreements for our premises, either on commercially acceptable terms or at all, which could result in increased rental rates for subsequent renewals or searching of new premises, affecting our financial condition and operations. In the event where the rent agreement is terminated or they are not renewed on commercially acceptable terms, we may suffer a disruption in our manufacturing operations which could materially and adversely affect our business, financial condition and results of operations.

14. Setting up of a new manufacturing facility requires substantial capital outlay before we realize any benefits or returns on investments.

We currently manufacture scaffolding systems at three of our facilities (Unit-I, Unit-II and Unit III) located at Gautam Buddha Nagar, Greater Noida, Uttar Pradesh. To drive revenue growth, expand production capabilities and capitalize on emerging market opportunities, we plan to establish a new manufacturing facility at A-3/B Kosi Kotwan Industrial Area, District: Mathura, Uttar Pradesh. For further details, please refer to chapter titled “Objects of the Offer - Funding of capital expenditure towards setup of new manufacturing facility” on page 90 of this Prospectus.

We expect our long-term capital requirements to increase significantly to fund our intended growth and we cannot assure that we shall efficiently be able to obtain sufficient capital resources for these expansion plans. Our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors, including general

economic and capital market conditions, credit availability from banks, investor confidence, the continued success of our operations and other laws that are conducive to our raising capital in this manner. Any downgrade in our credit ratings could increase our borrowing costs and adversely affect our access to capital. Further, in case we decide to raise additional funds through the issuance of equity or equity-linked instruments, the interests of our shareholders may be diluted. Further, if we decide to meet our capital requirements through debt financing, our interest obligations shall increase and we may be subject to additional restrictive covenants under our respective financing arrangements. If we are unable to raise adequate capital in a timely manner and on acceptable terms, or at all, our business, results of operations and financial condition could be adversely affected. Additionally, on account of such expansion, our finance cost, depreciation and other related expenses might increase in the near future which can adversely impact our results of operations, cash flows and financial condition.

Our expansion plans remain subject to the potential problems and uncertainties that construction projects face including timely allotment of project land by concerned authorities, cost overruns or delays, labour shortages, increased costs of equipment or manpower, inadequate performance of the equipment and machinery installed in our manufacturing facilities, delays in completion, defects in design or construction, the possibility of unanticipated future regulatory restrictions, delays in receiving governmental, statutory and other regulatory approvals, incremental pre-operating expenses, environment and ecology costs and other external factors which may not be within the control of our management. There can be no assurance that our budgeted costs may be sufficient to meet our proposed capital expenditure requirements. If our actual capital expenditures significantly exceed our budgets, or even if our budgets were sufficient to cover these projects, we may not be able to achieve the intended economic benefits of these projects, which in turn may materially and adversely affect our financial condition, results of operations, cash flows, and prospects.

The proposed expansion will require us to obtain various statutory approvals or amend existing statutory approvals, including consent to establish, consent to operate, factory license etc. There can be no assurance that we will be able to obtain these registrations and approvals including approvals in relations to power and water procurement in a timely manner or at all, which in turn may materially and adversely affect our growth prospects, financial condition, results of operations and cash flows.

Our expansion plans and business growth could also strain our managerial, operational and financial resources. Our ability to manage future growth will depend on our ability to continue to implement and improve operational, financial and management information systems on a timely basis and to attract, expand, train, motivate, retain and manage our workforce. We cannot assure you that our personnel, systems, procedures and controls will be adequate to support our future growth. Failure to effectively manage our expansion may lead to increased costs and reduced profitability and may adversely affect our growth prospects. Any of these factors may cause us to delay, modify or forego some or all aspects of our expansion plans.

Our return on our investment depends upon, among other things, successful implementation of our strategy, competition, demand of our products, government policies, interest rates and general economic conditions. If our return on investment does not meet our or market expectations, this could materially and adversely affect our business, cash flows, results of operations and financial condition.

15. Any disruptions or shutdown of our manufacturing operations at our existing facility could have an adverse effect on our business, financial condition and results of operations.

We conduct our manufacturing operations from our facility (Unit-I, Unit-II and Unit-III) located at Gautam Buddha Nagar, Greater Noida, Uttar Pradesh. Our business is dependent upon our ability to effectively manage our facility, which is subject to various operating risks, including those beyond our control, such as the machinery breakdown, failure of equipment or industrial accidents, labour disputes, severe weather conditions, fire, power interruption, natural disasters etc. While there have been no such instances during half year ended Sept.'25 and Fiscals 2025, 2024 and 2023, any significant malfunction or breakdown of our machinery, our equipment, our production setup, our IT systems or any other part of our manufacturing processes or systems may entail significant repair and maintenance costs and cause delays in our operations. If we are unable to repair or properly maintain manufacturing assets in a timely manner or at all, our operations may need to be suspended until we repair or replace them and there can be no assurance that the new manufacturing assets will be repaired, procured and/or integrated in a timely manner.

We also require substantial electricity for our facilities which is sourced from state electricity board. In case, the supply is not available for any reason, our production schedule may be hampered or if our electricity suppliers increase the price for electricity, our cost of production and profitability would be materially adversely affected. Further, natural disasters or adverse conditions may occur in the geographical areas in which we operate including severe weather,

tropical storms, floods, excessive rainfalls as well as other events beyond our control. If for any reason electricity is not available, we may need to shut down our plants until an adequate supply of electricity is restored. Interruptions of electricity supply can also result in production shutdowns; increased costs associated with restarting production and the loss of production in progress. While there have been no significant electricity disruptions during the half year ended Sept.'25 and Fiscals 2025, 2024 and 2023, however, we cannot assure you that there will not be any electricity disruption in the future.

Our customers rely significantly on the timely delivery of our products and our ability to provide an uninterrupted and timely supply of our products is critical to our business. While we seek to ensure a continuous supply of our products to our customers, our customer relationships, business and financial results may be adversely affected by any disruption of operations at our manufacturing facility due to any of the factors mentioned above.

16. Our Company has unsecured loans which are repayable on demand. Any demand from lenders for repayment of such unsecured loans may adversely affect our cash flows.

Our Company has availed unsecured loans which may be recalled by lenders at any time with or without the existence of an event of default, on short or no notice. As of September 30, 2025, and March 31, 2025, such loans amounted to ₹ ₹ 1780.72 lakhs and 1937.98 lakhs respectively. In the event that any lender seeks a repayment of any such loan, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. As a result, any such demand may materially affect our business, cash flows, financial condition and results of operations. For further details, please see the section entitled “Statement of Financial Indebtedness” on page 293 of this Prospectus

17. Our business operations are majorly concentrated in certain geographical regions and any adverse developments affecting our operations in these regions could have a significant impact on our revenue and results of operations.

Currently, our Company operates three manufacturing facilities located at Gautam Buddha Nagar, Greater Noida, Uttar Pradesh. For details, please refer to section “Our Business – Property” on page 181 of this Prospectus. Due to the geographical concentration of our manufacturing operations in Greater Noida, our operations are susceptible to local, regional and environmental factors, such as social and civil unrest, regional conflicts, civil disturbances, economic and weather conditions, natural disasters, demographic and population changes and other unforeseen events and circumstances. Such disruptions could result in the damage or destruction of a significant portion of our manufacturing abilities, significant delays in the transport of our products and raw materials, loss of key managerial personnel or senior management personnel and/or otherwise adversely affect our business, financial condition and results of operations. While there have been no such regional disruptions during the half year ended Sept.'25 and Fiscals 2025, 2024 and 2023, however, we cannot assure you that there will not be any such disruption in the future.

In addition, we generate major domestic sales through our customers situated in Maharashtra, Uttar Pradesh and Karnataka. Such geographical concentration of our business in these regions heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in these regions, which may adversely affect our business prospects, financial conditions and results of operations.

The following table sets forth the bifurcation of revenue (geography-wise) for the six months period ended September 30, 2025, and for the fiscal years 2025, 2024 and 2023.

18. *We require certain approvals, licenses, registrations and permits to operate our business, and failure to obtain or renew them in a timely manner or maintain the statutory and regulatory permits and approvals required to operate our business may adversely affect our operations and financial conditions.*

We require certain statutory and regulatory permits, licenses and approvals to operate our business. As mentioned in the chapter titled “**Government and Other Approvals**”, we believe that we have obtained requisite permits and licenses which are adequate to run our business, however we cannot assure that there is no other statutory/regulatory requirement which we are required to comply with. Further, some of these approvals are granted for fixed periods of time and need renewal from time to time. We are required to renew such permits, licenses and approvals. There can be no assurance that the relevant authorities will issue any of such permits or approvals in time or at all. Failure by us to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

As on the date of this Prospectus, we are yet to make an application for obtaining the Fire No Objection Certificate (NOC) for its Unit-I situated at G-103, Greater Noida, Gautam Buddha Nagar, Uttar Pradesh. Further, we are yet to make an application for the trade license in respect of our warehouse situated at Chennai, Tamil Nadu and Zirakpur, Punjab. Pursuant to the recent change in the registered office address of our Company, we are also required to make applications for updation of our registrations and approvals with the applicable statutory authorities to reflect the new address. In addition, while we have obtained registrations under the new name, “Msafe Equipments Limited”, for Permanent Account Number (PAN), Tax Deduction and Collection Account Number (TAN), Goods and Services Tax (GST) and Importer-Exporter Code (IEC), among others, we are yet to update the new name in all statutory records and registrations. For details regarding pending approvals, please refer to section titled “**Government and Other Approvals – Applications yet to apply**” beginning on page 350 of the Prospectus.

Further, we have also filed applications under the applicable Shops and Establishment Act in respect of our warehouses located at (i) Ground Floor, Industrial Plot No. 384–385, Block–Ecotech Extension–1, Sector Ecotech–1, Greater Noida, Noida, Gautam Buddh Nagar, Uttar Pradesh – 201310 and (ii) 0–1 Complex, Godown Area, Bhabat, Zirakpur, S.A.S. Nagar, Punjab – 140603. The approvals for these applications are currently pending. For details regarding pending approvals, please refer to section titled “**Government and Other Approvals – Applications made but pending approval**” beginning on page 349 of the Prospectus.

There can be no assurance that the relevant authorities will issue the approvals or licenses in a timely manner, or at all. Failure by us to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

We cannot assure you that the approvals, licenses, registrations and permits already issued to us will not be suspended or revoked in the event of non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any denial, suspension or revocation of the approvals, licenses, registrations and permits that has been or may be issued to us may affect our business and results of operations. For further details regarding the material approvals, licenses, registrations and permits, which have not been obtained by our Company or are pending to be obtained, see “Government and Other Approvals” on page 339 of this Prospectus.

19. *There have been certain delays in payment of statutory dues in the past. Any delay in payment of statutory dues in future, may result in the imposition of penalties and in turn may have an adverse effect on our business, financial condition, results of operation and cash flows.*

Our Company is required to pay certain statutory dues including employee provident fund contributions and employee state insurance contributions under the Employees’ Provident Funds and Miscellaneous Provisions Act, 1952 and the Employees’ State Insurance Act, 1948, respectively, GST and Professional Taxes. In compliance with the provisions of the Income-tax Act, we are also required to deduct taxes at source at prescribed rates.

There have been certain instances of delays in payment of statutory dues in the past by our Company, which have been belatedly paid by us with an additional fee or an interest. In particular, during the months of September 2024, December 2024, January 2025, April 2025 and May 2025 employee-related statutory filings were made for 115, 139, 134, 150 and 134 employees, respectively, during which there were minor delays in remittance of Provident Fund (PF) contributions. These delays have since been fully regularized, and all outstanding PF dues have been paid along with the applicable interest or late charges. The details of such delays are set out below:

EPF Returns:

Financial Year	Month	Number of Days Delay
2024-25	September-2024	25 Days
	December-2024	42 Days
	January-2025	11 Days

Financial Year	Month	Number of Days Delay
2025-26	April-2025	37 Days
	May-2025	11 Days

While our Company has subsequently made payment of all pending dues, we cannot assure you that there will not be any delays in the future. Any delay in payment of statutory dues in future, may result in the imposition of penalties and in turn may have an adverse effect on our business, financial condition, results of operation and cash flows.

20. We intend to utilize a portion of the Net Proceeds for funding our capital expenditure requirements. We have shortlisted vendors and obtained quotations from them, however, we are yet to place orders or enter into definitive agreements with the vendors in relation to such capital expenditure requirements.

As disclosed in the chapter titled **“Objects of the Offer”** of this Prospectus, we intend to utilize up to ₹ 3225.92 lakhs out of the Net Proceeds for funding capital expenditure requirements for the proposed set up of our new facility at A-3/B Kosi Kotwan Industrial Area, District: Mathura, Uttar Pradesh. Out of ₹ 3225.92 lakhs earmarked for funding capital expenditure requirements for the proposed facility, our Company has estimated the cost of land as ₹ 2100.58 lakhs, building construction cost as ₹ 867.97 lakhs, plant and machinery as ₹ 257.37 lakhs.

As of the date of Prospectus, towards the proposed acquisition of land, we have already issued a cheque aggregating approximately ₹300.00 lakhs to the seller in accordance with the terms of the proposed transaction. The said amount will be deployed from the internal accruals of the Company.

Our Management expects that the possession of land will be completed by March '26 subject to completion of the full payment in accordance with the agreed terms, however there can be no assurance that we will successfully acquire this land within the stipulated timeframe or at all. Potential delays in payment or the execution of definitive agreements may necessitate us to request an extension from the proposed sellers. In the event such extension is not granted, we may be required to identify and acquire alternative land for the proposed manufacturing facility, which could adversely impact the project implementation schedule and the utilization of the Net Proceeds.

Further, as possession of the proposed land has not yet been obtained, we have not applied for the requisite statutory and regulatory approvals in relation to the said land, including the Consent to Establish (“CTE”), Consent to Operate (“CTO”) and factory license. Any delay in acquisition of the land and obtaining such approvals may impact the commencement of operations at the proposed facility and the deployment of the Net Proceeds, as disclosed in the risk factor titled **“Any variation in the utilization of the Net Proceeds would be subject to certain compliance requirements, including prior shareholders’ approval”** on page 51 of this Prospectus.

21. Trade receivables form a major part of our current assets and net worth. Failure to manage our trade receivables could have an adverse effect on our net sales, profitability, cash flow and liquidity.

Trade receivables form a major part of our current assets and net worth. For the six months period ended September 30, 2025, and as on March 31, 2025, our trade receivables amounted to Rs. 2024.82 lakhs and Rs. 1623.33 lakhs respectively. We cannot assure that our Company will be able to effectively manage its trade receivables in future. Any such failure in management of trade receivables could result into bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. For details on cases/suits filed by us on various customers, please refer “Outstanding Litigation and Material Developments” on page 319 of this Prospectus. A liquidity crunch may also result in case of increased working capital borrowings and, consequently, higher finance cost which will adversely impact our profitability. We may be subject to working capital risks due to delays or defaults in payment by clients, which may restrict our ability to procure raw materials and make payments when due.

22. Our Group Companies forming part of the Promoter Group are engaged in a similar line of business. Any conflict of interest in the future may occur between the business of our Group Companies and us, which may adversely affect our business, prospects, results of operations and financial condition.

As on the date of this Prospectus, certain of our Group Companies are engaged in a similar line of business as ours. MSAFE Construction Equipment Trading L.L.C., Dubai, forming part of the Promoter Group and classified as a Group Company, is engaged in the trading of scaffolding and ladder equipment, which may be construed as a similar line of business to that of our Company. Further, the main objects of Mdeck Equipments Private Limited (“MEPL”), a Group Company, permit it to undertake manufacturing and trading of scaffolding and ladders, which is also similar to our business activities, although, as on the date of this Prospectus, MEPL is not engaged in such activities.

We have not entered into any non-compete agreement with any of our Group Companies or Promoter Group entities. While we will endeavour to take adequate steps to address any conflict of interest by adopting the necessary procedures and practices, as permitted under applicable law, we cannot assure you that our Promoters will not favour the interests of our Promoter Group entities or Group Companies over our interests in the future, or that we will be able to suitably resolve any such conflict without an adverse effect on our business or operations.

23. Under-utilization of our manufacturing capacities and an inability to effectively utilize our expanded manufacturing capacities could have an adverse effect on our business, future prospects and future financial performance.

Our ability to achieve optimal capacity utilization is contingent upon a number of internal and external factors, including uninterrupted manufacturing operations at our facilities, timely and adequate availability of raw materials at competitive prices, sustained demand for our products in the market and availability of skilled manpower. As of the date of this Prospectus, we operate from three manufacturing facilities (Unit-I, Unit-II and Unit-III) located at Greater Noida, Gautam Buddha Nagar, Uttar Pradesh with an installed capacity of with installed capacities of 7,20,000 Kg, 7,92,000 Kg and 32,85,000 Kg, respectively. However, our actual capacity utilization levels have varied across different periods on account of factors such as fluctuations in market demand, availability of raw materials, scheduling of maintenance activities, and other operational considerations and there can be no we cannot assure that we will be able to operate at such capacity levels in the future.

Further, as we expand or upgrade our manufacturing facilities, we may not be able to immediately achieve optimal utilization on account of factors such as ramp-up delays, workforce constraints or prevailing market conditions. Sub-optimal capacity utilization may lead to higher fixed costs per unit, lower operating efficiency and reduced profitability.

Prolonged underutilization of our manufacturing assets may affect our return on investment and cash flows and could limit our ability to fund future expansions or meet financial commitments.

The installed capacity and capacity utilization for these units for the six months period ended September 30, 2025, and for the Fiscals 2025, 2024 and 2023, as certified by the Chartered Engineer, are set out below:

<i>Capacity utilization (in %)*</i>	-	-	-	<i>80.62%</i>

As certified by Mr. Rajul Garg, Chartered Engineer, through certificate dated January 10, 2026

**Unit-III commenced manufacturing operations in May 2025. Accordingly, no installed capacity, actual production, or capacity utilization figures are available for F.Y. 2022-23, 2023-24 and 2024-25.*

Unit III has an existing installed capacity of 32,85,000 kg p.a. for the production of MS Scaffolding.

**The installed capacity has been derived based on certain assumptions. For details, please refer to risk factor "Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Prospectus is based on certain assumptions and has been subjected to rounding off, and future production and capacity utilization may vary." on page 51 of this Prospectus.*

Our capacity utilization levels are dependent on our ability to carry out uninterrupted operations at manufacturing facility, the availability of raw materials, industry/ market conditions, product demand and procurement practice followed by our customers. In the event we face prolonged disruptions at our facility including due to interruptions in the supply of power or as a result of labour unrest, or are unable to procure sufficient raw materials, we would not be able to achieve full capacity utilization of our current manufacturing facility, resulting in operational inefficiencies which could have a material adverse effect on our business and financial condition.

24. Any negative publicity regarding our Company, brand or products, whether substantiated or not, including concerns about product quality, misbranding or customer service issues, could adversely impact our reputation, consumer trust and market position, which may materially affect our business, financial condition and results of operations.

Our business and financial performance heavily depend on our brand reputation, consumer trust and the perceived quality of our products. Any negative publicity, whether valid or not, regarding our company, brand or products could significantly impact our market position, revenue and growth prospects. Issues related to product quality, misbranding, vendor inconsistencies or operational failures could lead to widespread dissatisfaction and harm our credibility. Additionally, negative consumer feedback, particularly on social media and e-commerce platforms, can spread rapidly, further amplifying reputational risks. If our products are perceived as substandard, defective or unsafe, consumer confidence may decline, leading to reduced demand and loss of market share. Allegations of misleading claims or misbranding could also result in legal actions or financial penalties. Moreover, any quality-related issues from our suppliers or vendors could affect our product performance, leading to potential recalls or warranty claims. Operational inefficiencies, such as delayed deliveries, inadequate customer support or after-sales service concerns, may further contribute to negative sentiment. Persistent negative publicity could not only damage our brand value but also deter potential customers, impact investor confidence and strain relationships with business partners and suppliers. Additionally, legal actions or compliance failures could impose significant financial liabilities on the company. While we have implemented stringent quality control measures, we cannot entirely eliminate the possibility of adverse publicity. Any such event could materially affect our operations, financial stability and long-term sustainability. Further, while there has not been any such instance in the last three fiscal years, we cannot assure that such events will not occur in the future.

25. Our failure to identify and adapt to evolving industry trends, technological developments and customer preferences may materially and adversely affect our business.

Our ability to remain competitive depends on anticipating technological developments, evolving safety requirements, and changing customer preferences, and upgrading our product portfolio accordingly. However, there can be no assurance that we will be able to acquire or develop the necessary technical expertise, whether through in-house capability, collaborations, or other arrangements, in a timely and cost-effective manner. If we are unable to introduce

new or enhanced products that meet evolving customer demands or comply with updated standards, our existing solutions could face reduced acceptance or obsolescence. Further, new product development carries inherent risks such as delays in design and fabrication, higher costs, or lower than expected customer acceptance. Any such challenges may limit our ability to respond to industry changes and adversely affect our business operations, financial condition, results of operations and future growth prospects.

26. *We are dependent upon the experience and skill of our Promoters, Key Managerial Personnel and Senior Management Personnel for conducting our business and undertaking our day to day operations. The loss of or our inability to retain, such persons could materially and adversely affect our business performance. In addition, excess rate of attrition amongst the personnel engaged by our Company may have an adverse impact on our business operations.*

Our business is dependent upon our Promoters, Key Managerial Personnel, and Senior Management Personnel, who oversee and supervise our day-to-day operations, strategy and growth of our business. For details pertaining to the profile of our Directors please refer to heading titled ‘Brief Profile of our Directors’ in chapter ‘Our Management’ on page 197 of this Red Herring Prospectus and for details pertaining to the Key Management Personnel and Senior Management Personnel of our Company and their respective functions, please refer to chapter ‘Our Management’ on page 206 and 207 respectively of this Prospectus.

In the event, any of our Promoters or one or more members of our Key Managerial Personnel and Senior Management Personnel are unable or unwilling to continue in their present positions, it would be challenging for us to replace such person in a timely and cost-effective manner or at all. There can be no assurance that we will be able to retain or replace these personnel. The loss of any of such personnel or our inability to replace them may restrict our growth prospects, affect our ability to make strategic decisions and to manage the overall running of our operations, which would have a material adverse impact on our business, results of operations, financial position and cash flows.

In addition, our attrition rate has been consistently high over the past few years, exceeding 50% in both FY22-23 and FY24-25. This elevated level of employee turnover can impact our productivity by increasing training costs and disrupting operational efficiency. Furthermore, replacing skilled personnel can be time-consuming and expensive, potentially hindering our ability to execute our business strategy effectively. These factors could ultimately have an adverse impact on our business, results of operations and overall financial condition.

The following table outlines the attrition rate of employees for the specified periods:

Particulars	F.Y. 2022-23	F.Y. 2023-24	F.Y. 2024-25	30-09-2025
Attrition rate*	52.46%	15.33%	70.64%	39.03%

* Calculated as the number of employees who left during the period divided by the average of employee strength at the beginning of April and at the end of month of the respective financial year/period.

27. *The Promoters (including Promoter Group) and Directors hold 100.00% of the Equity Shares of our Company and are therefore interested in the Company's performance in addition to their remuneration and reimbursement of expenses.*

Our Promoters and Directors are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company or their relatives, dividend entitlement, properties given by them on lease/rental basis or loans advanced by them to the Company, and benefits deriving from the directorship in our Company. There can be no assurance that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. For further information, please refer to the chapters/section titled “Our Business”, “Our Promoters and Promoter Group” and “Annexure-30 - Related Party Transactions”, beginning on pages 155, 212 and 279 respectively of this Prospectus.

28. *We operate in a competitive industry and increased competition may lead to a reduction in our revenues, reduced profit margins or a loss of market share.*

The access and height-safety equipment industry in India is highly fragmented, with competition from regional unorganised players as well as established organised players. Local unorganised vendors often operate with lower overheads and may offer products or rental services at aggressive price points, which can exert pressure on our pricing

and margins. Larger organised players may also benefit from economies of scale, wider product portfolios, stronger brand recognition and established distribution networks, which may give them a competitive advantage.

Further, some of our current and potential competitors include large entities that have longer operating histories, better name recognition, greater ability to influence industry standards, access to larger customer bases and significantly greater financial, sales and marketing, etc. Some of our significant competitors in the organized segment includes Technocraft Industries India Limited, Y-Access Manufacturing Private Limited, Mtandt Rentals Ltd and Sagar Asia Private Limited.

A number of our competitors are larger than we are, and some competitors have greater financial and other resources than we do and other economic advantages as compared to our business, such as patents, existing underutilized capacity, lower labor costs, lower health care costs, lower tax rates and, in some cases, export or raw materials subsidies. Among other things, our competitors may:

- have presence, or expand their presence, in higher number of geographic markets than we are present in;
- reduce, or offer discounts on, their prices for similar products as ours; while we may respond by matching their prices, by offering comparable or more attractive commercial terms or by increasing our advertising and promotions in order to retain or attract customers, it may increase our costs and limit our ability to maintain our operating margins or growth rate;
- target the same products or applications as us or develop different products that compete with our current solutions;
- attract or retain a key managerial or sales personnel with relationships with a key customer or confidential information regarding our future product pipeline and growth plans;
- be able to source raw materials at more competitive prices;
- harness better process or improved process yield and respond more quickly and effectively than we do to new or changing opportunities, applications, standards, or customer requirements;
- benefit from a wider range of products and services and a broader customer base needed to bring competitive solutions to the market;
- possess greater economies of scale if they are larger than us and operating efficiencies such as higher production capacities; or
- possess greater financial resources than we do, and may be able to devote greater resources to pricing and promotional programs.

If any or a combination of the foregoing factors occur, we may not be able to maintain our growth rate and our revenues and operating margins may decline. We cannot assure you that we will continue to effectively compete with our competitors in the future, and our inability to compete effectively could affect our ability to retain our existing customers or attract new customers, which may in turn materially and adversely affect our business, financial condition, results of operations and prospects.

29. Our international sales expose us to various risks, including foreign currency fluctuations, regulatory changes, and geopolitical uncertainties, which could adversely affect our revenues, margins and financial condition.

Although our contribution from exports has been limited in recent years (₹133.09 lakhs or 2.72% of Revenue for the period ended September 30, 2025, ₹159.37 lakhs or 2.23% of revenue in Fiscal 2025, ₹6.86 lakhs in Fiscal 2024 and nil in Fiscal 2023), we remain exposed to risks associated with international operations. These include demand volatility in overseas markets, competitive pressures from established global players, and challenges in building sustainable customer relationships in regions where competitors may have greater experience, stronger networks and early access to opportunities.

International business is inherently subject to risks beyond our control, including adverse social, economic and political developments, geopolitical tensions, civil disturbances, natural disasters, terrorism, war or other military conflicts. Any such events may disrupt our ability to supply products to customers, impact customer demand or impair the safety of our assets and operations in affected regions. Further, changes in environmental, health, safety, labour, trade, import/export or tax laws, tariffs, duties and policies in foreign jurisdictions may adversely affect our ability to operate or increase the cost of compliance. The inability to effectively enforce contractual or legal rights in certain jurisdictions could further add to the risks of operating internationally.

In addition, our export revenues are denominated in foreign currencies, while most of our costs are incurred in Indian Rupees. Consequently, fluctuations in foreign exchange rates directly impact the Rupee realisation of our export earnings and profitability. An appreciation of the Rupee against foreign currencies could reduce the competitiveness of our products in overseas markets, while a depreciation may increase the cost of imports, if any, including raw materials or components sourced internationally. Since we do not follow a formal hedging policy, our ability to

mitigate the impact of such movements is limited, and our margins and cash flows may be affected by significant volatility in exchange rates.

Accordingly, even though our present exposure to overseas sales is limited, the risks associated with international operations and foreign currency fluctuations could adversely impact our revenues, profitability and overall financial condition, particularly if export volumes increase in the future.

30. We have in the past entered into related party transactions and may continue to do so in the future.

Our Company has entered into various transactions with our Directors, Promoters and Promoter Group members/entities. These transactions, inter-alia includes, rent, sales, purchase, remuneration, loans and advances etc. For details, please refer to Annexure 30 - Related Party Transactions” under Section titled “***Financial Information of the Company***” and Chapter titled “***Capital Structure***” beginning on page 221 and 74 respectively of this Prospectus.

While our Company trust that all such transactions have been conducted on an arm’s length basis and are accounted as per AS 18 and are in compliance with the provisions of the Companies Act, 2013 and other applicable laws, however there can be no assurance that we could not have achieved more favorable terms had such transactions not been entered into with related parties. Our Company has entered into such transactions due to easy proximity and quick execution.

Although all related-party transactions that we may enter into in the future are subject to approval by Board or shareholders, as required under the Companies Act, we cannot assure you that such future transactions or any other future transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favorable terms if such transactions are not entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. Any future transactions with our related parties could potentially involve conflicts of interest. Accordingly, there can be no assurance that such transactions, individually or in the aggregate, will not have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

31. Our operations and the work force are exposed to a variety of occupational and operational hazards, which may adversely affect our business, financial condition and results of operations.

We conduct site evaluations and implement safety measures to identify potential risks in our operations; however, unanticipated or unforeseen hazards may still arise due to adverse weather and geological conditions such as storms, lightning, floods, landslides, or earthquakes. In addition, our operations are inherently subject to occupational risks such as equipment failure, collisions, worksite accidents, fire or explosion, which may result in injury or loss of life, damage to property and equipment, and environmental harm. Any such incidents, particularly those involving fatalities, could adversely affect our reputation, lead to fines or investigations by regulatory authorities, and expose us to litigation claims from injured workers or their dependents.

While our workers have not faced any loss of life or severe injuries in the six months period ended Sept. ’25, Financial Years 2025, 2024 and 2023 at our project sites, if any one of such hazards or other hazards were to occur involving our workforce, customers and/or third parties on project sites, our business, financial condition and results of operations may be adversely affected. Further, we may incur additional costs for repair or replacement of our equipment, facilities or rental assets damaged by such hazards which may not be covered adequately or at all by the insurance coverage we maintain, and this may adversely affect our business, financial condition and results of operations.

32. Dependence upon transportation services for supply and transportation of our products are subject to various uncertainties and risks, and delays in delivery may result in rejection of products by customer.

We do not have an in-house transportation facility and engage transport service providers on a need basis, without having entered into any long-term or definitive agreements with them. The transportation services in the markets in which we operate are typically fragmented and availability may not always be assured. Any delay, disruption or deficiency in such services may result in delay in delivery of our products, which in turn could lead to rejection of orders by customers, loss of business and reputational impact. Further, the value of our products being transported is significantly higher than the freight consideration paid, making it difficult for us to recover adequate compensation in case of damage, delay or loss during transit. Any such event could materially and adversely affect our business, results of operations and financial condition.

33. If we are not able to successfully manage our growth, our business and results of operations may be adversely affected.

Continued growth of our business and customer base requires us to expand our product portfolio, strengthen our product quality, expand and enhance our sales channels, better manage our supply chain, upgrade our information systems and technologies and devote other resources to our business expansions, among others. As we continue to grow, managing our business will become more complicated as we develop a wider product mix, some of which we may have less experience in. In addition, as we increase our product offerings, we will need to work with a larger number of clientele and maintain and expand mutually beneficial relationships with our existing and new clientele. Our inability to manage the expansion of our products range, customer base and manufacturing capacities, and execute our growth strategy in a timely manner or within budget estimates, or our inability to meet the expectations to track the changing preferences of our customers or other stakeholders could have an adverse effect on our business, results of operations and financial condition. For details in respect of our business strategies, please refer to section “Business – Strategies” on page 163 of this Prospectus.

We cannot assure you that we will be able to effectively manage our growth, that our current personnel, infrastructure, systems, procedures and controls or any measures to enhance them will be adequate and successful to support our expanding operations or that our strategies and new business initiatives will be executed successfully. Our failure to manage our anticipated growth effectively could reduce our ability to execute our business strategies, recruit and retain personnel, innovate, and manage costs, all of which could adversely affect our business, results of operations, cash flows and financial condition.

34. We may be subject to third-party claims, indemnification obligations or invocation of guarantees arising from defects, accidents or damages related to our scaffoldings and ladders. Any such claims or liabilities could adversely impact our business operations, cash flows, financial condition, results of operations and reputation.

As part of our business, we manufacture and rent scaffoldings and ladders which are used at construction sites, industrial facilities and other high-risk environments. Given the nature of our products, we are exposed to potential third-party liability claims arising from accidents, injuries, property damage or equipment malfunction during the use of our products. In the rental segment in particular, any improper use of our equipment by customers or their workforce may result in accidents or damages, for which liability claims could be raised against our Company. Further, we may be required to indemnify customers for any losses or damages caused by defects in products supplied or rented by us.

Any such claims, disputes or proceedings could result in significant financial outflows, disruption of operations, diversion of management time and resources, and reputational harm. Any of these events could materially and adversely affect our business, financial condition, results of operations and growth prospects.

35. Our operations are subject to high working capital requirements. Our inability to maintain an optimal level of working capital required for our business may impact our operations adversely.

Our business operation requires significant working capital specifically for raw materials, work in progress and finished goods to undertake manufacturing operations. The working capital requirements of our Company are as under:

(Rs. in lakhs)				
Particulars	For the period ended September 30, 2025	Fiscal 2025	Fiscal 2024	Fiscal 2023
Current Assets (excluding cash and cash equivalents)	4236.46	3218.04	1899.71	1031.08
Current Liabilities (excluding short-term borrowings)	1299.91	1,472.77	929.66	686.75
Working Capital	2936.55	1,745.28	970.05	344.33

Our growing scale and expansion may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of funding, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations.

36. We may be unable to adequately protect our intellectual property rights, and any actual or alleged infringement or misappropriation may adversely affect our business, financial condition and reputation.

As on the date of Prospectus, the Company has six (6) registered trademarks in India in respect of its brands and logos, registered with the Registrar of Trademarks. We cannot assure that our existing registered trademarks or any other intellectual property rights will be renewed upon expiry or will continue to provide meaningful protection.

While the Company has not experienced any instances of misappropriation, infringement or related claims concerning its intellectual property rights during the past three Financial Years, there can be no assurance that such claims will not arise in the future. Any failure to protect, enforce or defend our intellectual property rights, whether through registration, contractual arrangements or otherwise, may adversely impact our competitive position.

Further, we cannot assure that our intellectual property rights will not be challenged, invalidated, circumvented or infringed by third parties, or that any legal remedies available to us would be adequate or effective. Any actual or alleged infringement or misappropriation claims, whether asserted by us or against us, could result in significant costs, diversion of management time, litigation expenses and reputational harm.

Such risks may increase as we expand our product offerings, enhance our branding initiatives and enter new geographical markets. Any of the foregoing could have a material adverse effect on our business, financial condition, results of operations and reputation.

37. The average cost of acquisition of Equity Shares by our Promoters could be lower than the Offer price.

Our Promoters' average cost of acquisition of Equity Shares in our Company may be lower than the Offer Price as may be decided by the Company in consultation with the Book Running Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer to the chapters "Risk Factors" and "Capital Structure" beginning on page 29 and 74 respectively of this Prospectus.

38. Our industry is labour intensive, and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.

We believe that the industry in which we operate faces competitive pressures in recruiting and retaining skilled and unskilled labour. Our industry being labour intensive, is highly dependent on labour force for carrying out its manufacturing operations. Shortage of skilled / unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. We have not experienced any major disruptions in our business operations due to disputes or other problems with our work force in the past, however there can be no assurance that we will not experience any such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs.

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating employees and work permits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

39. Our insurance coverage may not be adequate to protect us against certain operating hazards, and this may have a material adverse effect on our business.

Our operations are subject to risks inherent in manufacturing facilities such as risk of equipment failure, work accidents, fire, earthquakes, flood and other force majeure events, acts of terrorism and explosions including hazards that may cause injury and loss of life, severe damage to and the destruction of property and equipment and environmental damage. Our significant insurance policies consist of, among others, property and asset insurance, complete fire insurance, marine inland open declaration policies, burglary insurance, flexi property protector policy, contractors plant and machinery insurance (covering accidental and unforeseen physical damage to construction and industrial equipment, whether at work, at rest or during maintenance) and group personal accident insurance. For further details, please refer to section titled "Our Business – Insurance" on page 184 of the Prospectus. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks such as machinery breakdown, goods in transit, public liability

insurance and others. Failure to effectively cover ourselves against the associated risks may potentially lead to material losses. There can be no assurance that our insurance policies will be adequate to cover the losses/ damages suffered or that such insurance coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim. If we suffer a significant uninsured loss or if insurance claim in respect of the subject matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected. Our Company has not filed any insurance claim for six months period ended September'25 and Fiscals 2025, 2024 and 2023.

40. We engage contract labour for carrying out certain operations, and we may be held responsible for the payment of wages and other obligations of such workers if the independent contractors through whom they are engaged default on their obligations. Any such liability imposed on us could increase our costs and may have an adverse effect on our business, financial condition, results of operations and prospects.

In order to retain flexibility and control costs, our Company engages independent contractors, who in turn appoint contract labour for carrying out certain operations at our manufacturing facilities. Although such labourers are not directly engaged by us, our Company may be held responsible for wage payments in the event of any default by the independent contractors. Any such liability may increase our costs and adversely impact our results of operations and financial condition. Further, any non-compliance with applicable labour laws, including the Contract Labour (Regulation and Abolition) Act, 1970, as amended, may expose us to penalties or regulatory actions. Any adverse order from a regulatory authority or court in this regard may materially affect our business, results of operations and financial condition.

41. We have incurred significant indebtedness which exposes us to various risks which may have an adverse-effect on our business and results of operations.

Our ability to borrow and the terms of our borrowings will depend on our financial condition, the stability of our cash flows, general market conditions, economic and political conditions in the markets where we operate and our capacity to service debt. As on December 31, 2025, our total outstanding indebtedness was ₹ 4035.58 lakhs.

Our significant indebtedness in future may result in a substantial amount of debt service obligations which could lead to:

1. increasing our vulnerability to general adverse economic, industry and competitive conditions;
2. limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
3. affecting our credit rating;
4. limiting our ability to borrow more money both now and in the future; and
5. increasing our interest expenditure and adversely affecting our profitability.

The occurrence of these events may have an adverse effect on our cash flow and financial conditions of the company. For further details regarding our indebtedness, see “**Statement of Financial Indebtedness**” on page 293 of this Prospectus.

42. Loans availed by our Company has been secured on personal guarantees of our Promoters. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected in case of invocation of any personal guarantees provided by our Promoters.

Our Promoters and Directors, Mr. Pradeep Aggarwal, Mr. Rushil Agarwal, Mr. Ajay Kumar Kanoi & Mrs. Rajani Ajay Kanoi has provided personal guarantee to secure a significant portion of our existing borrowings taken from the banks and may continue to provide such guarantees and other security post listing. In case of a default under our loan agreements, any of the personal guarantees provided by the aforesaid may be invoked which could negatively impact their reputation and net worth. Also, we may face certain impediments in taking decisions in relation to our Company, which in turn would result in a material adverse effect on our financial condition, business, results of operations and prospects and would negatively impact our reputation. We may also not be successful in procuring alternate guarantees/ alternate security satisfactory to the lenders, as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows. For further details regarding loans availed by our Company, please refer “**Statement of Financial Indebtedness**” on page 293 of this Prospectus.

43. *Fraud, theft, employee negligence or similar incidents may adversely affect our results of operations and financial condition.*

Our operations may be subject to incidents of theft or damage to inventory. The business may also encounter some inventory part/components loss on account of employee theft, vendor fraud and general administrative error. While we have not experienced any such instance in the recent past, there can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse or similar incidents in the future, which could adversely affect our results of operations and financial condition. Though we have insurance losses due to theft, fire, breakage or damage caused by other casualties, could adversely affect our results of operations and financial condition.

44. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected. While we have not experienced any such instance in the recent past, there can be no assurance that we will not experience any such adverse event in future.

45. *We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Offer proceeds may delay the implementation schedule.*

The proposed fund requirement for capital expenditure and working capital requirements, as detailed in the section titled "**Objects of the Offer**", is to be funded from the proceeds of this Offer. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Offer proceeds may delay the implementation schedule. We therefore cannot assure that we would be able to execute our future plans/strategy within the given timeframe. For details, please refer to the section "**Objects of the Offer-Details of Utilization of Net Proceeds**" beginning on page 90 of this Prospectus.

46. *We are subject to the restrictive covenants of banks in respect of the Loans/ Credit Limits and other banking facilities availed from them.*

Our financing arrangements contain restrictive covenants whereby we are required to obtain approval from our lender, regarding, among other things such as major changes in share capital, management, changes in fixed assets, creation of any other charge, undertake any guarantee obligation etc. There can be no assurance that such consents will be granted or that we will be able to comply with the financial covenants under our financing arrangements. In the event we breach any financial or other covenants contained in any of our financing arrangements, we may be required under the terms of such financing arrangements to immediately repay our borrowings either in whole or in part, together with any related costs. This may adversely impact our results of operations and cash flows. For further details on the Cash Credit Limits and other banking facilities, please see "**Statement of Financial Indebtedness**" on page 293 of the Prospectus.

47. *Our Company will not receive any proceeds from the Offer for Sale portion of the Offer.*

The Offer includes an Offer for Sale of up to 10,00,000 Equity Shares of face value ₹ 10 each, in the aggregate, by the Selling Shareholders. Our Company will not receive any proceeds of the Offer for Sale by the Selling Shareholders. However, in the event that the Offer is withdrawn or not completed for any reason whatsoever, all the Offer related expenses will be exclusively borne by our Company. The expenses of the Selling Shareholder will, at the outset, be borne by our Company and each Selling Shareholder will reimburse our Company for such expenses incurred by our Company on behalf of such Selling Shareholder, in relation to the Offer, upon successful completion of the Offer in the manner as prescribed under applicable law and agreed amongst the Company and the Selling Shareholder. See chapter titled "**Objects of the Offer**" on page 89.

48. *The Objects of the Offer for which funds are being raised, are based on our management estimates and have not been appraised by any bank or financial institution or any independent agency.*

The deployment of funds will be entirely at our discretion, based on the parameters as mentioned in the chapter titled "**Objects of the Offer**". The fund requirement and deployment, as mentioned in the "**Objects of the Offer**" on page 89

of this Prospectus is based on the estimates of our management and has not been appraised by any bank or financial institution or any other independent agency. These fund requirements are based on our current business plan. We cannot assure that the current business plan will be implemented in its entirety or at all. In view of the highly competitive and dynamic nature of our business, we may have to revise our business plan from time to time and consequently these fund requirements. The deployment of the funds as stated under chapter “Objects of the Offer” is at the discretion of our Board of Directors and is not subject to monitoring by any external independent agency. Further, we cannot assure that the actual costs or schedule of implementation as stated under chapter “Objects of the Offer” will not vary from the estimated costs or schedule of implementation. Any such variance may be on account of one or more factors, some of which may be beyond our control. Occurrence of any such event may delay our business plans and/or may have an adverse bearing on our expected revenues and earnings.

49. Any variation in the utilization of the Net Proceeds would be subject to certain compliance requirements, including prior shareholders’ approval.

We intend to use Net offer proceeds towards (a) setting up of a new manufacturing facility; (b) manufacturing of equipments for rental purpose; (c) working capital requirements and (d) general corporate purposes. For further details of the proposed objects of the Offer, see “Objects of the Offer - Details of Utilization of Net Proceeds” on page 90. At this stage, we cannot determine with any certainty if we would require Net Proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Section 13(8) and 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds without obtaining the shareholders’ approval by way of a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders’ approval may adversely affect our business or operations.

Further, our Promoters would be required to provide an exit opportunity to the Shareholders who do not agree with our proposal to change the objects of the Offer or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoters or controlling shareholders to provide an exit opportunity to such dissenting shareholders may deter the Promoters or controlling shareholders from agreeing to the variation of the proposed utilization of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI.

In light of these factors, we may not be able to undertake variation of objects of the Offer to use any unutilized proceeds of the Offer, if any, or vary the terms of any contract referred to in this Prospectus, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of operations.

50. Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Prospectus is based on certain assumptions and has been subjected to rounding off, and future production and capacity utilization may vary.

Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Prospectus is based on various assumptions and estimates of our management, including proposed operations, assumptions relating to nature of products to be manufactured and assumptions relating to operational efficiencies. Thus, actual utilization rates may differ significantly from the estimated production capacities or historical estimated capacity utilization information of our facility. Undue reliance should therefore not be placed on our production capacity or historical estimated capacity utilization information for our existing facility included in this Prospectus. For further information, see the section titled “Our Business - Installed Capacity & Capacity Utilizations” on page 175 of this Prospectus.

51. Our ability to pay any dividends will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may

largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our Dividend history refer to the Section “**Dividend Policy**” on page 220 of the Prospectus.

52. *Certain key performance indicators for certain listed industry peers included in this Prospectus have been sourced from public sources and there is no assurance that such financial and other industry information is complete*

Pursuant to the requirements of the SEBI ICDR Regulations, we have included certain key performance indicators, comprising financial and operational information, for certain listed industry peers, in the “**Basis for Offer Price**” beginning on page 111 of the Prospectus. Although this information is sourced from and relied upon on the consolidated audited financial statements of the relevant listed industry peers as available on the websites of the Stock Exchanges, including the annual reports of the respective companies submitted to Stock Exchanges, there is no assurance that this information with respect to industry peers is either complete. There may be different methodologies and formulas used to compute various ratios.

53. *Our Promoter and the Promoter Group will jointly continue to retain majority shareholding in our Company after the Offer, which will allow them to determine the outcome of the matters requiring the approval of shareholders.*

Our promoter along with the promoter group will continue to hold collectively 72.84 % of the Equity share capital of the company. As a result of the same, they will be able to exercise significant influence over the control of the outcome of the matter that requires approval of the majority shareholder’s vote. Such a concentration of the ownership may also have the effect of delaying, preventing or deterring any change in the control of our company. In addition to the above, our promoter will continue to have the ability to take actions that are not in, or may conflict with our interest or the interest of some or all of our minority shareholders, and there is no assurance that such action will not have any adverse effect on our future financials or results of operations.

54. *There is no guarantee that the Equity Shares of our Company will be listed on the Stock Exchanges in a timely manner or at all*

In accordance with applicable Indian law and practice, permission for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Offer and until the Allotment of Equity Shares pursuant to this Offer. In accordance with current regulations and circulars issued of SEBI, our Equity Shares are required to be listed on the Stock Exchanges within such time as mandated under UPI Circulars, subject to any change in the prescribed timeline in this regard. However, we cannot assure you that the trading in our Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining final listing and trading approvals may restrict your ability to dispose of your Equity Shares.

55. *Certain sections of this Prospectus disclose information from industry report commissioned and paid for by us and any reliance on such information for making an investment decision in the Issue is subject to inherent risks.*

This Prospectus includes industry-related information that is derived from the industry report titled “India Scaffolding and Ladder Market” issued on August 11, 2025 (“the Mordor Report”), prepared and issued by Mordor Intelligence Private Limited, appointed by our Company exclusively for the purpose of the Issue. We commissioned and paid for this report for the purpose of confirming our understanding of the industry exclusively for the purpose of the Offer. The Mordor Report shall be available on the website of our Company at <https://msafegroup.com/> compliance with applicable laws. Our Company, our Promoters, and our directors are not related to Mordor Intelligence Private Limited in any manner whatsoever.

Mordor Intelligence has prepared this study in an independent and objective manner, and it has taken all reasonable care to ensure its accuracy and completeness. We believe that this study presents a true and fair view of the industry within the limitations of, among others, secondary statistics, and research, and it does not purport to be exhaustive. The results that can be or are derived from these findings are based on certain assumptions and parameters/conditions. As such, a blanket, generic use of the derived results or the methodology is not encouraged. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed, and their reliability cannot be assured and accordingly, investment decisions should not be based on such information. Although the industry and market data used in this Prospectus is reliable, it has not been independently verified by us, the BRLM, or any of their respective affiliates. The data used in these sources may have been re-classified by us for the purposes

of presentation. Data from these sources may also not be comparable. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section '**Risk Factors**' on page 29.

Accordingly, investors should not place undue reliance on or base their investment decision on this information. The extent to which the market and industry data used in this Prospectus is meaningful depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which business of our Company is conducted, and methodologies and assumptions may vary widely among different industry sources.

EXTERNAL RISK FACTORS

56. A slowdown in economic growth in India could have a negative impact on cause our business, results of operations and financial conditions to suffer.

The economy and securities markets in India are influenced by economic developments and volatility in securities markets in other nations across the globe. Investors' responses to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India. Negative developments in the economy, such as increase in trade deficits, decline in India's foreign exchange reserves or a default on national debt, in other emerging countries may also affect investor confidence and cause increase in volatility in Indian securities markets and affect the Indian economy in general. Any financial instability across the globe may also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India and may adversely affect our business, financial performance and the price of our Equity Shares. Any other global economic developments or the probability of their occurrence may continue to have an adverse effect on global economic conditions and the stability of financial markets across the globe and may significantly reduce global market liquidity and restrict the ability of key market participants to operate in certain financial markets. Any of these factors could decrease economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition and results of operations and reduce the price of our equity shares. Any financial disruption could have an adverse effect on our business, cash flows, future financial performance, shareholders' equity and the price of our Equity Shares.

57. Natural disasters, acts of war, terrorist attacks and other events could materially and adversely affect our business and profitability.

Natural disasters (such as earthquakes, fire, typhoons, cyclones, hurricanes and floods), pandemics, epidemics, strikes, civil unrest, terrorist attacks and other events, which are beyond our control, may lead to global or regional economic instability, which may in turn materially and adversely affect our business, financial condition, cash flows and results of operations. Any of these occurrences could cause severe disruptions to our daily operations and may warrant a temporary closure of our Devarapalli Facility. Such closures may disrupt our business operations and adversely affect our results of operations. Such an outbreak or epidemic may significantly interrupt our business operations as health or governmental authorities may impose quarantine and inspection measures on us or our clients.

Moreover, certain regions in India have witnessed terrorist attacks and civil disturbances and it is possible that future terrorist attacks or civil unrest, as well as other adverse social, economic and political events in India could have a negative effect on us. Transportation facilities, including vehicles, can be targets of terrorist attacks, which could lead to, among other things, increased insurance and security costs. Regional and global political or military tensions or conflicts strained or altered foreign relations, protectionism and acts of war or the potential for war could also cause damage and disruption to our business, which could materially and adversely affect our business, financial condition, cash flows and results of operations. Such incidents could create the perception that investments in Indian companies involve a higher degree of risk, and such perception could adversely affect our business and the price of the Equity Shares.

Developments in the ongoing conflict between Russia and Ukraine, between Israel and Hamas, Hezbollah and Iran and between Houthi rebels and certain western countries, have resulted in and may continue to result in a period of sustained instability across global financial markets, induce volatility in commodity prices, adversely impact availability of natural gas, increase in supply chain, logistics times and costs, increase borrowing costs, cause outflow of capital from emerging markets and may lead to overall slowdown in economic activity in India.

If we are unable to successfully anticipate and respond to changing economic and market conditions, our business, results of operations and financial condition may be adversely affected.

58. Any future issuance of Equity Shares may dilute your shareholdings and sale of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.

Any future equity issuance by our Company may lead to the dilution of investors' shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Offer, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

59. Financial instability in other countries may cause increased volatility in Indian and other financial markets.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in South - East Asian countries. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in South East Asia. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

60. The Equity Shares have never been publicly traded and, after the Offer, the Equity Shares may experience price and volume fluctuations and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile and you may be unable to resell the Equity Shares at or above the Offer Price, or at all.

Prior to the Offer, there has been no public market for the Equity Shares and an active trading market on the Stock Exchanges may not develop or be sustained after the Offer. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Offer Price of the Equity Shares is proposed to be determined through the book building process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications and changes in economic, legal and other regulatory factors.

61. Our business is substantially affected by prevailing economic, political and other prevailing conditions in emerging markets.

Political, economic or other factors that are beyond our control may have an adverse effect on our business, financial condition, results of operations and cash flows.

The Indian economy and capital markets are influenced by economic, political and market conditions in India and globally. We are incorporated in and currently functioning only in India and, as a result, are dependent on prevailing economic conditions in India. Our results of operations are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy and hence our results of operations, may include:

- the macroeconomic climate, including any increase in Indian interest rates or inflation;
- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;

- any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- volatility in and actual or perceived trends in trading activity on, India's principal stock exchanges;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighboring countries;
- ongoing conflict between Russia and Ukraine, between Israel and Hamas, Hezbollah and Iran and between Houthis rebels and certain western countries
- occurrence of natural or man-made disasters (such as hurricanes, typhoons, floods, earthquakes, tsunamis and fires) which may cause us to suspend our operations;
- civil unrest, acts of violence, terrorist attacks, regional conflicts or situations or war may adversely affect the Indian markets as well as result in a loss of business confidence in Indian companies;
- epidemics, pandemics or any other public health concerns in India or in countries in the region or globally, including in India's various neighboring countries, such as the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine and more recently, the COVID-19 pandemic;
- any downgrading of India's debt rating by a domestic or international rating agency;
- international business practices that may conflict with other customs or legal requirements to which we are subject, including anti-bribery and anti-corruption laws;
- protectionist and other adverse public policies, including local content requirements, import/export tariffs,
- increased regulations or capital investment requirements; and
- being subject to the jurisdiction of foreign courts, including uncertainty of judicial processes and difficulty enforcing contractual agreements or judgments in foreign legal systems or incurring additional costs to do so.

While our results of operations may not necessarily track India's economic growth figures, the Indian economy's performance nonetheless affects the environment in which we operate. Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely affect our business, financial condition and results of operations and the price of the Equity Shares.

62. Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations, financial condition, cash flows and future prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. Adverse modifications to, or changes in interpretations of, existing policies, laws, rules or regulations, or the introduction of new statutes, rules or regulations (including those related to foreign investment and stamp duty) that govern our business activities could lead to our operations being considered as non-compliant or adversely affect our business, prospects and operating results. For example, regulatory authorities in India and abroad may introduce new rules or policies, or pass new legislations that impact EVs or the broader automotive sector. Such circumstances could result in additional compliance obligations, necessitating us to secure further approvals and licences from relevant government and regulatory agencies, who may impose stringent conditions. It could also cause uncertainty in our business practices, potentially disrupting our operations. Adapting to such changes could result in higher costs and additional demands on our management and resources. Any lapses in compliance could negatively impact our business operations, financial performance, cash flow and growth prospects.

Additionally, the Government of India has introduced (a) the Code on Wages, 2019 ("Wages Code"); (b) the Code on Social Security, 2020 ("Social Security Code"); (c) the Occupational Safety, Health and Working Conditions Code, 2020; and (d) the Industrial Relations Code, 2020 (collectively, the "Labour Codes") which consolidate, subsume and replace numerous existing central labour legislations. The Government of India has postponed the enactment of the respective Labour Codes and they shall come into force from such dates as may be notified. It is possible that different provisions within the Labour Codes may come into effect at various times. While the rules for implementation under these codes have not been notified in its entirety, as an immediate consequence, their introduction could potentially increase our company's financial obligations, negatively affecting our profit margins. We have not yet fully assessed the impact that these or similar laws might have on our business operations, which could potentially limit our ability to expand in the future. For instance, the Social Security Code is designed to standardise social security benefits for employees, which were previously divided under various acts with differing scopes and coverage. Additionally, the Wages Code restricts the portion of wages that can be excluded from calculations for employment benefits (such as gratuity and maternity benefits) to a maximum of 50% of the total

wages paid to employees. The enforcement of these laws could lead to higher employee and labour costs, which in turn could have a detrimental effect on our operational results, cash flow, business and overall financial health.

Further, pursuant to the Finance (No.2) Act of 2024, notified on August 16, 2024, the Government of India has introduced new income tax slabs, an increase in standard deduction and an increase in the deduction available in respect of private sector employer's contribution to National Pension Scheme from 10% to 14% of the salary of the concerned employees. There is no certainty on the impact of the full union budget on tax laws or other regulations, which may adversely affect our business, financial condition, results of operations or on the industry in which we operate.

63. Increase in Indian inflation may lead to increased costs and a decline in profits.

We may experience inflation volatility in India and continue to face historically persistent high inflation rates. Escalating inflation may increase interest rates and operational costs, including transportation, salaries and other business-related expenses, negatively impacting our financial health. Inflationary pressures could also complicate cost estimation and management. Should operating expenses rise due to inflation, our inability to fully transfer these costs to customers could adversely affect our profitability and financial standing. Moreover, inflation-induced interest rate rises could slow economic growth and credit expansion, further straining our financial performance. Our future success depends on our ability to increase revenue to counterbalance inflation-related cost hikes, failing which our business prospects, financial condition, operational results and cash flow could suffer. Although the Government of India has implemented measures to mitigate inflation, there can be no assurance that these measures remain effective.

64. Volatile conditions in the Indian securities market may affect the price or liquidity of the Equity Shares.

The Indian securities markets have experienced significant volatility from time to time. The regulation and monitoring of the Indian securities market and the activities of investors, brokers and other participants differ, in some cases significantly, from those in the United States, Europe and certain economies in Asia. Instability in the global financial markets has negatively affected the Indian economy in the past and may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy, financial sector and business in the future. For instance, recent concerns relating to the United States and China trade tensions have led to increased volatility in the global capital markets. In addition, the United States, the United Kingdom and Europe are some of India's major trading partners and there are rising concerns of a possible slowdown in these economies.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to improve the stability of the global financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts is uncertain and they may not have had the intended stabilising effects. Adverse economic developments overseas in countries where we have operations or other significant financial disruptions could have a material adverse effect on our business, future financial performance and the trading price of the Equity Shares.

The SEBI (ICDR) Regulations have permitted the Issue of securities to the public through the Book Building Process, wherein allocation to the public has been made as per Regulation 253 of the SEBI ICDR Regulations.

The Offer is being made through the Book Building Process wherein not more than 50% of the Net Offer shall be available for allocation on a proportionate basis to QIBs, provided that our Company, in consultation with the BRLM allocate upto 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI (ICDR) Regulations (the “Anchor Investor Portion”), out of which 33.33% of the Anchor Investor Portion, shall be reserved, for domestic Mutual Funds and 6.67% for Life Insurance Companies and Pension Funds (aggregating to 40%) , subject to valid Bids being received from them at or above the Anchor Investor Allocation Price in accordance with the SEBI ICDR Regulations. In the event of undersubscription in Life Insurance Companies and Pension Funds portion the same may be allocated to domestic Mutual Funds. In case of under-subscription or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. 5% of the QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not less than 15% of the Net Offer shall be available for allocation on a proportionate basis to Non-Institutional Bidders out of which (a) one third of the portion available to non-institutional investors shall be reserved for applicants with application size of more than two lots and up to such lots equivalent to not more than ₹10 lakhs and (b) two third of the portion available to non-institutional investors shall be reserved for applicants with application size of more than ₹10 lakhs, Provided that the unsubscribed portion in either of the sub-categories specified in clauses (a) or (b), may be allocated to applicants in the other sub-category of non-institutional investors and not less than 35% of the Net Offer shall be available for allocation to individual investors who applies for minimum application size, in accordance with the SEBI Regulations, subject to valid Bids being received at or above the Offer Price. All potential Bidders may participate in the Offer through an ASBA process by providing details of their respective bank account which will be blocked by the SCSBs. All Bidders are mandatorily required to utilize the ASBA process to participate in the Offer. Under subscription if any, in any category, except in the QIB Category, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company in consultation with the BRLM and the Designated Stock Exchange.

All Bidders, except Anchor Investors, are mandatorily required to use the ASBA process for participating in the Offer. In accordance with the SEBI ICDR Regulations, none of the bidders/investors are allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Further, Anchor Investors cannot withdraw their Bids after the Anchor Investor Bid/Offer Period. Allocation to the Anchor Investors will be on a discretionary basis.

In terms of SEBI ICDR Regulations, QIBs and Non-Institutional Investors were not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of number of Equity Shares or the Bid Amount) at any stage. RIIs Bidding could revise their Bid(s) during Bid/ Issue Period and withdraw their Bid(s) until Bid/ Issue Closing date. Allocation in the issue will be made on a proportionate basis.

In terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors (except Anchor Investors) applying in a public Issue shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, individual investors who applies for minimum application size applying in public Issue may use either Application Supported by Blocked Amount (ASBA) facility for making application or also can use UPI as a payment mechanism with Application Supported by Blocked Amount for making application. For details in this regards, specific attention are invited to the chapter titled “*Offer Procedure*” beginning on page 380 of Prospectus.

The process of Book Building under the SEBI ICDR Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to making a Bid or application in the Offer.

For further details on the method and procedure for Bidding, please see section entitled “*Offer Procedure*” on page 380 of this Prospectus.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Offer Price are valid Bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

- Check eligibility for making a Bid (see section titled “Offer Procedure” on page 380 of this Prospectus);
- Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
- Ensure correctness of your PAN, DP ID and Client ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Offer will obtain the Demographic Details of the Bidders from the Depositories.
- Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depository Participant’s verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims.
- Ensure that the Bid cum Application Form is duly completed as per instructions given in this Prospectus and in the Bid cum Application Form;

Bid/Offer Program:

Event	Indicative Dates
Bid/Offer Opened On ⁽¹⁾	January 28, 2026
Bid/Offer Closed On ⁽²⁾	January 30, 2026
Finalization of Basis of Allotment with the Designated Stock Exchange	February 02, 2026

The time for applying for individual investors who applies for minimum application size on Bid/Offer Closing Date maybe extended in consultation with the BRLM, RTA and BSE taking into account the total number of applications received up to the closure of timings.

Due to the limitation of time available for uploading the Bid Cum Application Forms on the Bid/Offer Closing Date, Bidders are advised to submit their applications one (1) day prior to the Bid/ Offer Closing Date and, in any case, not later than 3.00 P.M. (IST) on the Bid/ Offer Closing Date. Any time mentioned in this Prospectus is IST. Bidders are cautioned that, in the event a large number of Bid Cum Application Forms are received on the Bid/Offer Closing Date, as is typically experienced in

public Offer, some Bid Cum Application Forms may not get uploaded due to the lack of sufficient time. Such Bid Cum Application Forms that cannot be uploaded will not be considered for allocation under this Offer. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the BRLM is liable for any failure in uploading the Bid Cum Application Forms due to faults in any software/hardware system or otherwise.

In accordance with SEBI (ICDR) Regulations, none of the bidders/investors are allowed to withdraw or lower the size of their Application (in terms of the quantity of the Equity Shares or the Application amount) at any stage. Allocation to individual investors who applied for minimum application size, in this offer was on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid Cum Application Form, for a particular Bidder, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid Cum Application Form, for a particular ASBA Bidder, the Registrar to the Offer shall ask the relevant SCSBs/ RTAs / DPs / stock brokers, as the case may be, for the rectified data.

Withdrawal of the Offer

Our Company in consultation with the Book Running Lead Manager, reserve the right to not to proceed with the Issue anytime after the Bid/ Issue Opening Date but before the allotment of Equity Shares, and in such case a public notice within 2 (two) working days of the Bid/ Issue Closing Date, providing reasons for not proceeding with the Issue shall be issued by our Company. The notice of withdrawal will be issued in the same newspapers where the pre- Issue advertisements have appeared and the Stock Exchange will also be informed promptly. The BRLM, through the Registrar to the Issue, will instruct the SCSBs to unblock the ASBA Accounts within 1 (one) working Day from the day of receipt of such instruction

If our Company and Selling Shareholders withdraws the Offer after the Bid/ Offer Closing Date and subsequently decides to proceed with an Issue of the Equity Shares, our Company will have to file a fresh Draft Red Herring Prospectus with the stock exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Offer is subject to obtaining (i) the final listing and trading approvals of the Stock Exchange with respect to the Equity Shares issued through the Prospectus, which our Company will apply for only after Allotment; and (ii) the registration of Red Herring Prospectus/ Prospectus with RoC.

Details of the Market Making arrangement for this Offer

Our Company and the BRLM has entered into Market Making Agreement dated December 01, 2025 and addendum thereon dated January 10, 2026 with the following Market Maker, to fulfill the obligations of Market Making for this Offer:

Name	Evermore Share Broking Private Limited
Correspondence Address	Unit-1-A, 15 th Floor, Tower-1, Gandhinagar, GIFT City, Gujarat, India, 382050
Tel No.	+91-9967783160
E-mail	naman@evermore.in
Website	www.evermore.in
Contact Person	Naman Bothra
SEBI Registration No.	INZ000022431

In accordance with Regulation 261 of the SEBI (ICDR) Regulations, we have entered into an agreement with the Book Running Lead Manager and the Market Maker (duly registered with BSE to fulfill the obligations of Market Making) dated December 01, 2025 and addendum thereon dated January 10, 2026 to ensure compulsory Market Making for a minimum period of three years from the date of listing of equity shares offered in this Issuer.

Evermore Share Broking Private Limited registered with BSE act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI (ICDR) Regulations.

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI ICDR Regulations, as amended from time to time and the circulars issued by BSE and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market making arrangement:

- The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the stock exchange. Further, the Market Maker(s) shall inform the exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
- The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of the BSE SME and SEBI from time to time.
- The investors with holdings less than the minimum lot size shall be allowed to Issue their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
- The Market Maker shall not sell in lots less than the minimum contract size allowed for trading on the SME platform of BSE (in this case currently the minimum trading lot size is 1000 equity shares; however the same may be changed by the SME platform of BSE from time to time).
- After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our company reaches to 25% of Issue Size. Any Equity Shares allotted to Market Maker under this Issue over and above 25% of Issue Size would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduces to 24% of Issue Size, the Market Maker will resume providing 2 way quotes.
- There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, BSE may intimate the same to SEBI after due verification.
- Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
- There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
- On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.
- The Market maker may also be present in the opening call auction, but there is no obligation on him to do so.

- There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market-for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while *force-majeure* will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
- The Market Maker(s) shall have the right to terminate said arrangement by giving a six months' notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker(s) and execute a fresh arrangement.

In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the BRLM to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations, 2018, as amended. Further our Company and the BRLM reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our office from 10.00 a.m. to 5.00 p.m. on working days.

- **Risk containment measures and monitoring for Market Makers:** BSE SME will have all margins, which are applicable on BSE main board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. BSE can impose any other margins as deemed necessary from time-to-time.
- **Punitive Action in case of default by Market Makers:** BSE will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties/ fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties/ fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/ fines/ suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.
- **Price Band and Spreads:** The SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Issue size up to Rs. 250 crores, the applicable price bands for the first day shall be:
 - i. In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
 - ii. In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Issue price.

Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading. The price band shall be 20% and the market maker spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.

The following spread will be applicable on the SME platform:

S. No.	Market Price Slab (in Rs.) Proposed Spread (in % to sale price)	Market Price Slab (in Rs.) Proposed Spread (in % to sale price)
1.	Up to 50	9
2.	50 to 75	8
3.	75 to 100	6
4.	Above 100	5

- Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for market makers during market making process has been made applicable, based on the Issue size and as follows:

Issue Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to ₹20 Crore	25%	24%
₹20 to ₹50 Crore	20%	19%
₹50 to ₹80 Crore	15%	14%
Above ₹80 Crore	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and/or norms issued by SEBI/ BSE from time to time.

All the above mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

Means of Finance

(i) Funding of capital expenditure towards setup of a new manufacturing facility –

The fund requirements for the capital expenditure towards setup of a new manufacturing facility is proposed to be entirely funded from the Net Proceeds and internal accruals and hence, no amount is proposed to be raised through any other means of finance. Accordingly, we confirm that there are no requirements to make firm arrangements of finance under Regulation 230(1)(e) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the Fresh Issue and existing identifiable internal accruals.

(ii) Funding of Capital expenditure for manufacturing of equipments for Rental purpose-

The fund requirements for the capital expenditure towards setup of a new manufacturing facility is proposed to be entirely funded from the Net Proceeds and internal accruals and hence, no amount is proposed to be raised through any other means of finance. Accordingly, we confirm that there are no requirements to make firm arrangements of finance under Regulation 230(1)(e) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the Fresh Issue and existing identifiable internal accruals.

(iii) Funding of Working Capital Requirements–

The fund requirements for the working capital requirements are proposed to be entirely funded from the Net Proceeds, existing sanctioned bank borrowings and internal accruals and hence, no amount is proposed to be raised through any other means of finance. Accordingly, we confirm that there are no requirements to make firm arrangements of finance 81 under Regulation 230 (1)(e) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the Fresh Issue and existing identifiable internal accruals.

In case of any increase in the actual utilization of funds earmarked for the Objects, such additional funds for a particular activity will be met by way of means available to our Company, including from internal accruals. If the actual utilization towards any of the Objects is lower than the proposed deployment such balance will be used for future growth opportunities including funding existing objects, if required. In case of delays in raising funds from the Issue, our Company may deploy certain amounts towards any of the above-mentioned Objects through a combination of Internal Accruals or Unsecured Loans (Bridge Financing) and in such case the Funds raised shall be utilized towards repayment of such unsecured Loans or recouping of Internal Accruals. However, we confirm that no bridge financing has been availed as on date, which is subject to being repaid from the Offer Proceeds.

As we operate in competitive environment, our Company may have to revise its business plan from time to time and consequently our fund requirements may also change. Our Company's historical expenditure may not be reflective of our future expenditure plans. Our Company may have to revise its estimated costs, fund allocation and fund requirements owing to various factors such as economic and business conditions, increased competition and other external factors which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of the Company's management. For further details on the risks involved in our business plans and executing our business strategies, please see the section titled "Risk Factors" beginning on page 29 of this Prospectus.

Details of Utilization of Net Proceeds

The details of utilization of the Net Proceeds are set forth herein below:

1. Funding of capital expenditure towards setup of a new manufacturing facility –

We are engaged in the business of manufacturing, sales and rental of access and height-safety equipments, primarily used to facilitate safe working at heights. Our product portfolio includes aluminium scaffoldings, mild steel (MS)

scaffoldings, aluminium ladders and fibre reinforced plastic (FRP) ladders, which are designed to meet varied operational and safety requirements across construction, maintenance, installation, repair and infrastructure development activities. The manufacturing operations are carried out from Unit I, Unit II and Unit III, located at Gautam Buddha Nagar, Greater Noida, Uttar Pradesh, based on land area admeasuring 1,541.85 sq. mt., 500 sq. mt. and 1,000 sq. mt., respectively. These facilities have an aggregate installed capacity of 32,85,000 kg of MS Scaffolding and 15,12,000 kg of aluminium scaffolding and ladders. (Source: Chartered Engineer's Report dated January 10, 2026), issued by Rajul Garg, Chartered Engineer, Garg and Associates). For details of capacity utilization, please refer to "*Our Business – Installed Capacity and Capacity Utilization*" on page 175 of this Prospectus.

As a part of our growth strategy, we are focused on addressing the rising demand from our existing and new clients in the construction and infrastructure sector, while also expanding our presence in the access equipment and scaffolding industry. In line with industry trends, we intend to expand into the hanging scaffolding segment, which is increasingly being adopted in high-rise construction, metro projects, bridges, industrial maintenance, facade and glazing works. According to the Mordor Report, the increasing focus on urban maintenance and renovation in India is driving demand for suspended scaffolding. Tasks like facade cleaning, repainting, joint sealing, and structural repairs in high-rise and mid-rise buildings have made suspended access systems indispensable. A 2024 market summary highlights that growing refurbishment activities are fueling repeated use of hanging platforms. The flexibility these systems offer, along with their long-term compliance benefits, is anticipated to be a significant driver of this trend. (Source: Mordor Report)

Further, we aim to enhance our presence in the ladders segment also, which as per the Mordor Report, will continue to witness steady demand across diverse sectors such as industrial, transportation, construction & infrastructure, electrical and telecommunications, driven by enhanced workplace safety standards and the shift towards durable, lightweight, and user-friendly solutions.

The India Scaffolding Market studied was valued at INR 7208.97 crores in 2024 and is expected to reach INR 12811.78 crores in 2030, registering a CAGR of 10.06% for the forecast period (2024-2030). The scaffolding industry is witnessing significant advancements, driven by large-scale infrastructure projects and evolving contractor needs. Scaffolding demand is on the rise for projects including metro rails, highway flyovers, airport terminals, smart city zones, and affordable housing. Industrial access solutions, particularly aluminum towers, are emerging as a lucrative sub-segment with substantial rental income potential. (Source: Mordor Report)

To support our growth objectives and strengthen our presence in the access equipment and scaffolding market, our Company proposes to set up a new manufacturing facility at A-3/B, Kosi Kotwan Industrial Area, District: Mathura, Uttar Pradesh. Upon completion of the proposed facility, the aggregate installed capacity across all units, including the proposed unit is expected to be 62,85,000 kg per annum for MS Scaffoldings and 25,12,000 kg per annum for Aluminum Scaffoldings and Ladders. (Source: *Project Report dated January 14, 2026, issued by Rajul Garg, Chartered Engineer, Garg and Associates*). The proposed project entails investment in acquisition of land, civil construction, purchase and installation of plant and machinery, and related infrastructure. We intend to utilize a portion of the Net Offer Proceeds, aggregating to ₹3225.92 lakhs, towards funding the capital expenditure for the establishment of this facility, including acquisition of land, civil construction and procurement of plant and machinery. The total estimated cost of the project is ₹3702.22 lakhs, of which ₹3225.92 lakhs is proposed to be financed from the Net Proceeds of the Offer and the balance from internal accruals.

Estimated Proposed Project Cost

The total estimated cost of the proposed manufacturing facility is ₹ 3702.22 lakhs, as per the Project Report dated January 14, 2026, obtained by our Company from Garg & Associates, Chartered Engineers & Government Approved Valuers ("*Project Report*"). Pursuant to the Board Resolution dated January 12, 2026, , our Company proposes to utilize an amount of up to ₹ 3225.92 lakhs from the Net Proceeds for funding capital expenditure requirements of our Company towards setting up the Proposed Facility.

The fund requirements, the deployment of funds and the intended use of the Net Proceeds for the Proposed Project as described herein are based on our current business plan, management estimates, current and valid quotations from suppliers. However, such total estimated cost and related fund requirements have not been appraised by any bank or financial institution.

The total estimated cost for setting up the Proposed Facility comprises the following:

(Rs. in lakhs)

S. No	Particulars	Estimated Cost	Funds Deployed from Internal Accruals	Funds to be deployed from Internal Accruals	To be met from Offer Proceeds
1.	Land	2400.58	-	300.00*	2100.58
2.	Civil Construction Work	867.97	-	-	867.97
3.	Plant & Machinery	257.37	-	-	257.37
4.	Contingency**	176.30	-	176.30	-
	Total Cost	3702.22	-	476.30	3225.92

* For the purpose of acquisition of the proposed land, we have already issued a cheque aggregating approximately ₹300.00 lakhs to the seller in accordance with the terms of the proposed transaction. The said amount will be deployed from the internal accruals of the Company towards completion of the other formalities

** Our Company has allocated a contingency amount of 5% of the project cost i.e. ₹ 176.30 Lakhs from the net proceeds to cover potential expenses arising from increases in machinery costs (if any), land development charges and obtaining permissions, associated transportation & installation charges and expense related to furniture and fixtures and other utilities which will be borne through internal accruals.

Break - up of the estimated cost

Land

The proposed manufacturing facility is proposed to be established on a land parcel situated at A-3/B, Kosi Kotwan Industrial Area, District: Mathura, Uttar Pradesh admeasuring 13,979 sq mtrs. The said land has been recently purchased by us from its previous owner namely, M/s Frisco Fab Dying and Printing (P) Ltd. pursuant to an agreement to sell dated November 19, 2025 for an aggregate base consideration of ₹2,175.00 lakhs. The transaction has been undertaken on an arm's length basis and does not constitute a related party transaction..

For the purpose of acquisition of the proposed land, we have already issued a cheque aggregating approximately ₹300.00 lakhs to the seller in accordance with the terms of the proposed transaction. The said amount will be deployed from the internal accruals of the Company. Based on the agreed terms, the total estimated cost of the land, including transfer memorandum charges, stamp duty and other incidental charges, aggregates to ₹2,400.58 lakhs, out of which ₹300.00 lakhs is proposed to be funded from internal accruals and the balance amount of ₹2,100.58 lakhs is proposed to be met out of the Net Proceeds of the Offer.

Further, a land valuation report dated November 08, 2025, issued by Garg and Associates, Chartered Engineers, has assessed the fair market value of the aforesaid land at ₹2,187.07 lakhs.

The break-up of the cost of land is given below:

(Rs. In Lakhs)

S. No	Particulars	Estimated Cost	Funds Deployed from Internal Accruals	Funds to be deployed from Internal Accruals	To be met from Offer Proceeds
1.	Base Consideration	2175.00		300.00	1875.00
2.	TM Charges	51.58	-	-	51.58
3.	Stamp duty (7% of total consideration)	152.25	-	-	152.25
4.	Other Charges (1% of total consideration)	21.75	-	-	21.75
	Total	2400.58	-	300.00	2100.58

Notes:

- For the purpose of acquisition of the proposed land, we have already issued a cheque aggregating approximately ₹300.00 lakhs to the seller in accordance with the terms of the proposed transaction. The said amount will be deployed from the internal accruals of the Company towards completion of the other formalities towards fulfilment of the remaining advance obligations. These payments collectively form part of the total consideration payable for the acquisition of the land.
- Pursuant to the agreement to sell entered into by the Company, the possession of the land is expected to be handed over by the end of March 2026, subject to completion of all payments as stipulated thereunder. In line with the utilization plan, a sum of ₹2100.58 lakhs from the Net Offer Proceeds is proposed to be deployed towards the balance land acquisition cost and applicable TM charges, stamp duty and other charges. Any additional or incidental charges, including registration fees, mutation charges, documentation expenses, or other statutory levies pertaining to the land acquisition, shall be met from internal accruals.
- TM Charges (The Transfer of Memorandum Charges) have been calculated on the following basis:

Transfer memorandum charges refer to the statutory charges payable for recording the transfer of land in the revenue and registration records pursuant to the execution of the conveyance deed.

= Plot Area x Applicable Circle Rate x 10% = 13,979 Sqm x ₹ 3,690/-** per Sqm x 10%

= ₹ 51.58 Lakh

** FY 2024-25 Circle Rate for Kosi- Kotwan Industrial Area has been considered (refer UPSIDSA Office Order Ref No: 2347-2351/SIDA/ IA/ Rates- 2015-16 Dated 18.09.2024.)

- Stamp Duty Calculations:
= Land Consideration x 7% Stamp Duty
= ₹ 2,175/- Lakh x 7% Stamp Duty
= ₹ 152.25/- Lakh.
Source: <https://igrsup.gov.in/igrsup/stampFeesCalculator.action>
- Other Charges Calculations:
= Land Consideration x 1% Registration Charges
= ₹ 2,175/- Lakh x 1% Registration Charges
= ₹ 21.75/- Lakh

Civil Construction work

Based on the technical proposal submitted by Willus Infrastructure Pvt. Ltd., the land parcel measures 13,979 sq. metres, of which 10,080 sq. metres has been earmarked for construction. The civil construction cost comprises.

Set out below is a break-up of the estimated cost towards civil construction work:

(Rs. In Lakhs)

S. No	Particulars	Quotation Details	Area (Sq. ft)	Unit	Amount

1.	Design & Supply of Pre-Engineered Building	Quotation dated November 20, 2025, from Willus Infrastructure Pvt. Ltd, Ghaziabad, U.P. (valid for 90 days from the date of quotation)	10,080	Rs. / Sqft	660.51
2.	Erection of Pre-Engineered Building				75.06
Total					735.57
GST @18%					132.40
Grand Total					867.97

Notes:

- The above project cost has been derived from the quotation dated November 20, 2025, obtained from Willus Infrastructure Pvt. Ltd. . The quotation has a validity of 90 days period.
- We have considered the above quotation for the budgetary estimate purpose and have not placed orders for them. The actual cost of procurement and actual supplier may vary. Further, the estimated cost and related fund requirements have not been appraised by any bank or financial institution. In case of any shortfall of funds, the same shall be met through internal accruals/borrowings.
- The GST component has been included in the quotation for civil construction works since input tax credit (ITC) on construction of immovable property is not available under the provisions of Section 17(5)(c) and (d) of the Central Goods and Services Tax Act, 2017.

As the civil construction pertains to the development of factory buildings and related immovable structures, the GST paid thereon becomes a cost to the Company and cannot be claimed as credit against output tax liability. Accordingly, the GST has been rightly included in the total project cost to reflect the actual expenditure to be incurred by the Company for execution of the construction work.

The above quotation received from the vendor is valid as on the date of Prospectus. However, we have not entered into any definitive agreements with such vendor and there can be no assurance that the same vendor would be engaged to eventually initiate the civil construction work.

Plant and Machinery

A detailed breakup of estimated cost of plant and machineries which are proposed to be funded from the net offer proceeds is set forth below:

Landing cost of the machinery proposed to be imported from China, has been certified by Chartered Accountant, Mr. Mohit Aggarwal through certificate dated January 14, 2026. The landed cost has been computed based on an exchange rate of 1 USD = ₹90.2677 as on January 13, 2026 as per RBI website. Any variation in the exchange rate at the time of actual import may result in a corresponding change in the landed cost of such machinery. s

Machineries to be purchased from Domestic Vendors:

Summary of machineries to be purchased from imported and domestic vendors:-

S. No	Particulars	Total Amount (inc. all taxes) (Rs. in lakhs)
1.	Imported machineries	210.83
2.	Domestic machineries	46.54
Grand Total		257.37

Notes:

a) We have considered the above quotations for the budgetary estimate purpose and have not placed orders for them. The actual cost of procurement and actual supplier/dealer may vary. Further, the estimated cost and related fund requirements have not been appraised by any bank or financial institution. In case of any shortfall of funds, the same shall be met through internal accruals/borrowings.

b) All quotations received from the vendors mentioned above are valid as on the date of this Prospectus. However, we have not entered into any definitive agreements with any of these vendors and there can be no assurance that the same vendors would be engaged to eventually supply the machineries/ equipment or at the same cost.

c) We are not acquiring any second-hand machinery.

d) The quotations relied upon by us in arriving at the above cost are valid for a specific period of time and may lapse after the expiry of the said period. Consequent upon which, there could be a possible escalation in the cost of machineries proposed to be acquired by us at the actual time of purchase, resulting in increase in the estimated cost. Further, cost will be escalated on account of Packing & Forwarding, Transportation, Transit Insurance, Octroi / Entry tax if any etc. will be met through internal accruals.

e) The inclusion of GST in the project cost has been considered as it represents an actual cash outflow at the time of procurement of goods and services related to the project. While we may be eligible to claim input tax credit against

the GST paid, such credit will be realized only over a period of time, depending upon the commencement of commercial operations and the nature of set-off available under applicable GST laws.

Accordingly, for the purpose of presenting the total project cost, GST has been included to reflect the gross cash outlay required for execution of the project, ensuring a realistic depiction of funding requirements

f) The aforementioned quotations received from the vendors are valid as on the date of Prospectus. However, we have not entered into any definitive agreement with any vendor, and there can be no assurance that the same vendor will be engaged for the proposed procurement. Further, we may procure machineries of varying configurations, makes and models depending upon system and technology requirements, timing of procurement and operational needs prevailing at the relevant time.

Means of finance of the project

The total estimated cost for the proposed manufacturing unit is ₹ 3702.22 lakhs. We intend to fund the cost of the project as follows:

(Rs. In Lakhs)

S. No	Particulars	Estimated Cost	Funds Deployed from Internal Accruals	Funds to be deployed from Internal Accruals	To be met from Offer Proceeds
1.	Land*	2400.58	-	300.00*	2100.58
2.	Civil Construction Work	867.97	-	-	867.97
3.	Plant & Machinery	257.37	-	-	257.37
	Contingency**	176.30	-	176.30	-
	Total Cost	3702.22	-	476.30	3225.92

* For the purpose of acquisition of the proposed land, we have already issued a cheque aggregating approximately ₹300.00 lakhs to the seller in accordance with the terms of the proposed transaction. The said amount will be deployed from the internal accruals of the Company towards completion of the other formalities.

** Our Company has allocated a contingency amount of 5% of the project cost i.e. ₹ 176.30 Lakhs from the net proceeds to cover potential expenses arising from increases in machinery costs (if any), land development charges and obtaining permissions, associated transportation & installation charges and expense related to furniture and fixtures and other utilities which will be borne through internal accruals.

Proposed schedule of implementation of the Proposed Project

The proposed schedule of activities in respect of the Proposed Project are as follows:

Particulars	Estimated Date of Commencement	Estimated date of completion
Procurement of the land, land development work and obtaining of pre-construction approvals	February'2026	March'2026
Civil & Construction Work (including obtaining necessary approvals)	April'2026	February'2027
Plant and Machinery Installation	February'2027	March'2027
Trial run & Commencement of Commercial Production	April'2027	April'2027
Commercial operation	May'2027 onwards	

Government approvals

In relation to the proposed project, we will require to apply and obtain certain approvals as provided in the table below.

S. No	List of Major Approvals*	Stage at which approvals are required*
1.	Completion of land allotment process by YEIDA	Prior commencement of construction

2.	Approval for the building plans for the proposed factory	Prior commencement of construction
3.	Approval of the factory layout from Directorate of Industrial Safety and Health	Prior commencement of construction
4.	Electricity Board Connection from State Electricity Board	Prior commencement of construction
5.	CTE (Consent to Establishment) from State Pollution Control Board	Prior commencement of construction
6.	Fire NOC from Regional Development Authority	Before the installation and commissioning of the machines
7.	Consolidated Consent to operate and authorization from Maharashtra Pollution Control Board	Before the commissioning of the factory operations
8.	Factory License from Directorate of Industrial Safety and Health	Before the commissioning of the factory operations

As per the Project Report dated September 04, 2025, issued by Garg & Associates, Chartered Engineers and Government-Approved Valuers.

Power and water - The requirements for the power shall be met from the local state electricity board and the requirement for water shall be met from external sources.

2. Funding of Capital expenditure for manufacturing of equipments for Rental purpose –

Our revenues are derived from two primary sources – sale of products and rental services. Over the last three fiscal years, the rental model has consistently contributed a higher share to our revenues, accounting for 51.65% in FY 2024-25, 52.30% in FY 2023-24, and 62.97% in FY 2022-23. Under the rental model, we provide aluminium scaffoldings, ladders and MS scaffoldings on weekly, fortnightly or monthly terms to customers across India. This model enables customers to access scaffolding systems without upfront capital investment, while providing us with recurring revenue streams.

The products deployed for rental purposes are not treated as inventory but are recognized and capitalized under ‘Fixed Assets’ in our financial statements. These assets are subsequently utilized over multiple rental cycles, enabling us to generate recurring revenue while ensuring optimum utilization of our product portfolio. The rental business, therefore, complements our manufacturing and sales operations and forms an integral part of our growth strategy.

The sales and rental data presented below illustrates our business mix and operational model:

(Rs. in lakhs)								
Particulars	For the period Ended September 30, 2025	% of Revenue from operations	FY 2024-25	% of Revenue from operations	FY 2023-24	% of Revenue from operations	FY 2022-23	% of Revenue from operations
Sale of Products	2348.83	47.92%	2,779.45	38.96%	1,815.24	37.71%	787.26	26.51%
Rental Services	2110.82	43.07%	3,684.48	51.65%	2,517.04	52.30%	1,870.10	62.97%
Total	4459.65	90.99%	6,463.93	90.61%	4,332.28	90.01%	2,657.36	89.48%

For details, please refer to “Our Business - Product-wise revenue bifurcation” on page 156 of this Prospectus.

According to the Mordor Report, the ladder and scaffolding market in India are experiencing significant growth, driven by the expansion of organized rental networks. These networks are providing cost-effective and flexible solutions, particularly for businesses with infrequent or project-based needs. This trend is further supported by the construction boom, rapid urbanization, and a growing preference for renting over purchasing across various industries.

Organized rental networks are boosting the ladder and scaffolding market in India through the following factors:

Cost-Effectiveness: Renting eliminates the high upfront costs associated with purchasing ladders and scaffolding, making it a budget-friendly option for businesses, especially startups and those with limited capital.

Convenience: Rental services offer access to a wide range of equipment without the burden of maintenance, storage, or eventual disposal. This is particularly appealing to businesses with short-term projects or fluctuating needs.

Access to Advanced Equipment: Rental networks provide a variety of specialized ladders and scaffolding, including those with advanced features. This allows businesses to utilize the right equipment for specific tasks without significant investment.

To achieve our growth objectives, we propose to expand into the rental segment by leveraging our existing portfolio of aluminum and steel scaffoldings and ladders. The expansion of this segment will involve capital expenditure towards in-house manufacturing of additional equipments specifically for rental purposes, rather than acquisition from third parties. These products will be manufactured in-house, thereby allowing us to maintain strict control over quality standards, specifications, and cost efficiencies. Once manufactured, these products will be capitalized under 'Fixed Assets' in our financial statements and will be deployed across multiple projects for rental use. This approach enables us to generate recurring revenues from the same assets over their useful life, optimize asset utilization, and strengthen our rental business.

The estimated expenditure for such manufacturing has been duly assessed and certified by the Cost Accountant and forms part of the overall project cost proposed to be funded from the Net Offer Proceeds.

Pursuant to the Board Resolution dated January 12, 2026, our Company has approved a capital expenditure of ₹600 lakhs over a period of two financial years i.e. F.Y. 2025-26 & 2026-27, for carrying in-house manufacturing of equipments for expansion in the rental segment. The estimated cost of such manufacturing has been duly certified by Shailesh Patel & Co., Cost Accountants, through a Certificate on Cost Analysis dated January 21, 2026. The entire capital expenditure is proposed to be funded from the Net Offer Proceeds.

Break-up of proposed capital expenditure in terms of product and Cost Component:

(₹ in lakhs)

(As certified by Shailesh Patel & Co., Cost Accountants, through a Certificate on Cost Analysis dated January 21, 2026)

Notes:

- The total proposed investment of ₹600lakhs has been allocated as follows: ₹210 lakhs towards Aluminium Scaffolding, ₹60 lakhs towards Aluminium Ladders, ₹270 lakhs towards Steel (MS) Scaffolding, and ₹60 lakhs towards FRP Ladders. The Company has allocated a higher portion of the proceeds towards aluminium scaffolding and MS scaffolding, as a higher proportion of the Company's revenue has been derived from aluminium scaffolding during the last three financial years and the six-month period ended September 30, 2025, and accordingly, an amount of ₹210.00 lakhs has been proposed to be allocated towards aluminium scaffolding. Further, considering the future demand potential of MS scaffolding, including its wider applicability across

infrastructure, construction and industrial projects, the Company has proposed to allocate a higher amount of ₹270.00 lakhs from the proceeds towards MS scaffolding, in order to align the utilisation of funds with the Company's growth strategy and operational requirements. In respect of other products, namely aluminium ladders and FRP ladders, a comparatively lower allocation of ₹60.00 lakhs each has been proposed, considering their respective demand profile and historical revenue contribution.

- ii. The projected production has been calculated by dividing the total projected investment by the cost per unit of respective product .
- iii. The cost allocated to each expense item from the fund has been calculated by multiplying the projected production volume by the cost per piece of each item of each product.
- iv. The allocation of Freight & Cartage, Job Work charges, Power & Fuel and Manpower costs has been carried out on the basis of production volumes (in kilograms) for the period from April 2025 to September 2025. Accordingly, such common costs have been apportioned to the respective product categories in proportion to the actual production achieved, measured in kilograms and corresponding number of units (pieces), during the said period .
- v. The cost of materials has been ascertained with reference to the most recent quotations obtained from multiple approved vendors. These source documents have been duly examined and relied upon for the purpose of verifying and substantiating the pricing adopted in the report

Amount (in Lakhs)

Particulars	Aluminium Scaffolding	Aluminium Ladder	FRP Ladder	MS Scaffolding	Total
2025-26	42.00	12.00	12.00	54.00	120.00
2026-27	168.00	48.00	48.00	216.00	480.00
Grand Total	210.00	60.00	60.00	270.00	600.00

Note: The proposed investment has been phased over a period of five quarters, based on the assumption that the proceeds from the Offer are received in February 2026. Accordingly, the utilization schedule includes one quarter in FY 2025-26 and the balance four quarters in FY 2026-27.

Note: Based on the existing production capacity and prevailing market demand, the proposed allocation has been distributed as follows: aluminium scaffolding at ₹210.00 lakhs, Aluminium ladders at ₹60.00 lakhs, FRP products at ₹60.00 lakhs, and MS scaffolding at ₹270.00 lakhs

Projected Projection out of the Proposed Investment:

Projected Production (In Kgs)	Aluminium Scaffolding	Aluminium Ladder	FRP Ladder	MS Scaffolding
2025-26	10,404	3,400	4,000	1,31,675
2026-27	41,922	13,622	16,028	5,27,720
Grand Total (Prod in Kg)	52,326	17,022	20,028	6,59,395
Cost Per Pcs	61,286.96	8,870.62	8,551.60	20,818.27

Note : The projected production has also been considered based on the proposed investment being allocated over a five-quarter period, assuming IPO funds are received in February 2026, with one quarter falling in FY 2025–26 and the remaining four quarters in FY 2026–27.

Note: Formula for calculation of projected production (in kg):

Projected production (in kg) = Number of units produced (in pieces) × Weight per unit (in kg) for the respective product

Projected Projection out of the Proposed Investment:

Projected Production (in Pcs)	Aluminium Scaffolding	Aluminium Ladder	FRP Ladder	MS Scaffolding

2025-26	68	135	140	259
2026-27	274	541	561	1038
Grand Total	342	676	701	1297

Note: The projected production (in kilograms), when divided by the standard weight of the respective product, results in the projected number of units (in pieces).

Details of Material Consumed and its computation for each of the product:

Aluminum Scaffolding:

Particulars	Material to be Produce (K.G.)	Total Cost of Material(₹)
Material Cost	153.00	52,787.81
Freight And Cartage		312.12
Job Work Charges		384.03
Power & Fuel		260.10
Manpower Cost		7,542.90
Total	153.00	61,286.96

Notes:

- The total material cost of **₹52,787.81** comprises the following components: Aluminium Cost – ₹36,644.81, Plywood Cost – ₹1,935.00, Wheel Cost – ₹5,600.00, and Other Material Cost per piece – ₹8,608.00.
- The allocation basis for Freight & Cartage, Job Work charges, Power & Fuel & Man power cost is based on actual production in Kg. for the period April to September 2025 (*refer Annexure C*).
- The weight of 153 kg has been considered based on the standard weight of the respective scaffolding product, as determined in accordance with the Company's standard product specifications and industry norms. This standard weight is consistently used by the Company for production planning.

Note: The above expenses represent actual expenditures incurred during the period from April to September 2025 and have been allocated based on the actual production levels achieved during the same period.

For example: Freight and cartage expenses relating to aluminium scaffolding have been allocated in proportion to the actual production of aluminium scaffolding during the said period.

Note: Allocated expenses =

(Total expenses of Units I & II ÷ Total production of Units I & II) × Actual production of aluminium scaffolding

Calculation:

$$\begin{aligned} & ₹9,84,199 \div (4,41,399 + 13,811 + 26,325) \times 4,41,399 \\ & = ₹9,02,165.90 \end{aligned}$$

COST ALLOCATION PER KG- PRODUCT WISE (APR. 25-SEPT. 25)				
Product Name	Aluminium Scaffolding	Aluminium Ladder	FRP Ladder	MS Scaffolding

Note: The table sets out the per-kilogram allocation of common manufacturing expenses across various product categories for the period from April 2025 to September 2025. Such common expenses have been allocated in a systematic and reasonable manner based on the respective production volumes (in kilograms) to ensure consistent cost attribution.

3. Utilization towards Working Capital requirements-

With the expansion of the business company will be in the need of additional working capital requirements. We fund a majority of our working capital requirements in the ordinary course of business from banking facilities and internal accruals. Our Company requires additional working capital for funding its incremental working capital requirements.

Our Company proposes to utilize ₹ 1500.00 lakhs of the Net Proceeds towards our Company's working capital requirements (as per detail given below). The balance portion of our Company working capital requirement shall be met from the working capital facilities availed from the banks and internal accruals. The incremental and proposed working capital requirements and key assumptions with respect to the determination of the same are mentioned below:

Assumptions for working capital requirements

The following table sets forth the details of the holding period (with days rounded to the nearest whole number) considered for the period ended September '25 and for the financial years ended March 31, 2025, March 31, 2024 and March 31, 2023, as well as projections for financial year ended March 31, 2026 and March 31, 2027

(number of days)

Particulars	Unit	March 31, 2023	March 31, 2024	March 31, 2025	For the period ended September 30, 2025	March 31, 2026	March 31, 2027
		Restated Financials				Projections	Projections
Inventories	Days	36	58	123	196	120	120
Debtors	Days	75	72	72	68	72	72
Creditors	Days	280	99	83	52	90	90

Justification:

Inventories	The Company's inventory days increased from 36 days in FY 2022-23 to 123 days in FY 2024-25 and are projected to remain at approximately 120 days in FY 2025-26 and FY 2026-27. Manufacturing operations commenced in FY 2023-24 and became operational in FY 2024-25, resulting in higher inventory levels to support operations and sales. For the period ended September 2025, inventory days increased to 196 days due to inventory procurement in advance of production and project execution and timing differences between inventory procurement and revenue recognition during the interim period. From FY 2025-26 onwards, inventory days are expected to stabilize at around 120 days, reflecting inventory levels in line with the scale of operations.
Debtors	Debtors days have remained broadly stable between 72 and 75 days across FY23 to FY25. This indicates that the company has maintained a consistent credit policy with customers, in line with the standard industry range of two to three months. For the period ended September 2025, debtor days reduced to 68 days, reflecting collections during the interim period. The projection for FY26 and FY27 assumes the same trend of 72 days, ensuring continuity of working capital planning.
Creditors	Creditor days declined from 280 days in FY 2022-23 to a range of 83 to 99 days from FY 2023-24 onwards. The higher creditor days in FY 2022-23 were due to extended supplier credit during the initial phase of operations. For the period ended September 2025, creditor days reduced to 52 days, reflecting settlements during the interim period. From FY 2025-26 onwards, creditor days are projected at approximately 90 days in FY 2025-26 and FY 2026-27, in line with supplier credit terms and working capital planning.

The total working capital requirement has increased from ₹1,745.28 lakhs in FY 2024-25 to ₹2,390.65 lakhs in FY 2025-26, mainly due to:

1. Increase in trade receivables from ₹1,623.33 lakhs to ₹2,368.82 lakhs, corresponding to the higher projected turnover for FY 2025-26.
2. Higher inventory levels (₹911.59 lakhs to ₹1,005.21 lakhs) planned to support expanded order volumes and ensure uninterrupted supply. For the purpose of projections, the inventory has been considered on an average

aggregate basis, and no separate bifurcation among raw materials, work-in-progress and finished goods has been undertaken. Accordingly, the total inventory value has been considered for determining stock levels for the projected periods.

3. The increase in short-term loans and advances and other current assets is in line with business growth. Short-term loans and advances primarily comprise advances to employees, advances to suppliers, security deposits for rented premises and prepaid expenses, while other current assets mainly include balances with government authorities and accrued interest on fixed deposits. For the purpose of projections, these items have been estimated on an average basis and considered in proportion to the projected turnover for the relevant periods.
4. Trade payables and other current liabilities have also increased; however, the rise is relatively lower compared to the growth in current assets, leading to an overall increase in the net working capital requirement.

Accordingly, the increase in working capital gap is attributable to scale-up in business operations and higher current asset requirements to support projected revenue growth for FY 2025-26.

The increase in the total working capital requirement from ₹2,390.65 lakhs in FY 2025-26 to ₹2,718.21 lakhs in FY 2026-27 is attributable to further growth in the scale of operations and projected increase in revenues.

The working capital requirement for FY 2026-27 has increased primarily due to the following:

1. Increase in inventories from ₹1,005.21 lakhs to ₹1,348.82 lakhs, reflecting higher stock levels planned to support increased order volumes, expanded operations, and continuity of supply. For the purpose of projections, the inventory has been considered on an average aggregate basis, and no separate bifurcation among raw materials, work-in-progress and finished goods has been undertaken. Accordingly, the total inventory value has been considered for determining stock levels for the projected periods.
2. Increase in trade receivables from ₹2,368.82 lakhs to ₹2,939.51 lakhs, corresponding to the projected increase in turnover for FY 2026-27 while maintaining consistent credit terms with customers.
3. Increase in short-term loans and advances and other current assets from ₹735.66 lakhs to ₹849.05 lakhs, in line with the expanded scale of operations and higher advances to suppliers and statutory balances. Short-term loans and advances primarily comprise advances to employees, advances to suppliers, security deposits for rented premises and prepaid expenses, while other current assets mainly include balances with government authorities and accrued interest on fixed deposits. For the purpose of projections, these items have been estimated on an average basis and considered in proportion to the projected turnover for the relevant periods.
4. Increase in current liabilities, with total current liabilities rising from ₹1,719.04 lakhs to ₹2,419.16 lakhs, primarily on account of higher trade payables and short-term provisions; however, the increase in current liabilities is proportionately lower than the increase in current assets, resulting in a higher net working capital requirement.

Accordingly, the increase in the working capital gap for FY 2026-27 is attributable to the increase in current asset requirements in line with projected operations.

Note 1: As per audited financials for the period ended September 30, 2025, the Company has recorded revenue from services amounting to ₹2,110.82 lakhs and revenue from sale of goods amounting to Rs.2,348.83 lakhs.

Note 2: The Company does not maintain an order book for sale of products, as sales are executed based on quotations and recorded upon delivery. Order records are maintained only in respect of rental income, and as on September 30, 2025, the outstanding monthly rental order value stood at Rs. 370.83 lakhs.

4. General Corporate Purpose-

Our management, in accordance with the policies of our Board, will have flexibility in utilizing the proceeds earmarked for general corporate purposes. We intend to deploy the balance Fresh Issue proceeds aggregating ₹ 176.31 Lakhs towards the general corporate purposes to drive our business growth. In accordance with the policies set up by our Board, we have flexibility in applying the remaining Net Proceeds, for general corporate purpose including but not restricted to, meeting operating expenses, initial development costs for projects other than the identified projects, and the strengthening of our business development and marketing capabilities, meeting exigencies, which the Company in the ordinary course of business may not foresee or any other purposes as approved by our Board of Directors, subject to compliance with the necessary provisions of the Companies Act, 2013.

We confirm that any issue related expenses shall not be considered as a part of General Corporate Purpose. Further in case, our actual issue expenses turn to be lesser than the estimated issue expenses of ₹ 747.68 lakhs, such surplus amount shall be utilized for General Corporate Purpose in such a manner that the amount for general corporate purposes, as mentioned in the Prospectus, shall not exceed 15% of the amount raised by our Company through this Issue or Rs. 10 crores, whichever is less.

4.	General corporate purpose	176.31	-
	Total	2696.89	2105.34

Appraisal

The fund requirements, deployment of funds and the intended use of the Net Proceeds as described in the Prospectus and the Prospectus are based on our current business plan, management estimates, prevailing market conditions and other commercial considerations. However, such fund requirements and deployment of funds have not been appraised by any external agency or any bank or financial institution or any other independent agency.

We may have to revise our funding requirements and deployment on account of a variety of factors such as our financial and market condition, our business and growth strategies, competitive landscape, general factors affecting our results of operations, financial condition and access to capital and other external factors such as changes in the business environment or regulatory climate and interest or exchange rate fluctuations, which may not be within the control of our management. This may entail reviewing the proposed utilisation of the Net Proceeds and changing the

allocation of funds from its planned allocation at the discretion of our management, subject to compliance with applicable law.

Shortfall of Funds

Any shortfall in meeting the fund requirements will be met by way of internal accruals and or unsecured Loans.

Bridge Financing Facilities

As on the date of the Prospectus, we have not raised any bridge loans which are proposed to be repaid from the Net Proceeds.

Interim Use of Proceeds

Pending utilization of the Offer proceeds of the Issue for the purposes described above, our Company will deposit the Net Proceeds with scheduled commercial banks included in schedule II of the RBI Act.

Our Company confirms that it shall not use the Net Proceeds for buying, trading or otherwise dealing in shares of any listed company or for any investment in the equity markets or investing in any real estate product or real estate linked products.

Variation in Objects

In accordance with Section 27 of the Companies Act, 2013, our Company shall not vary the Objects of the Offer without our Company being authorized to do so by the Shareholders by way of a Special Resolution. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution shall specify the prescribed details as required under the Companies Act and shall be published in accordance with the Companies Act and the rules there under. As per the current provisions of the Companies Act, our Promoter or controlling Shareholders would be required to provide an exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

Other confirmations

There are no material existing or anticipated transactions with our Promoter, our Directors, our Company's key Managerial personnel or Senior Management Personnel or Selling Shareholders in relation to the utilization of the Net Proceeds. No part of the Net Proceeds will be paid by us as consideration to our Promoter, our directors or key managerial personnel or Senior Management Personnel or Selling Shareholders except in the normal course of business and in compliance with the applicable laws.

Monitoring of Funds and Utilization of net proceeds:

Seren Capital Private Limited, as BRLM to the Issue and Msafe Equipments Limited (herein after referred to as "**Issuer Company**") and/ or "**Company**") hereby undertake that a separate bank account ("**Special Bank Account**") be opened, and the Net Proceeds being raised from the IPO will be transferred immediately to such Special Bank Account from escrow account upon listing of the company. This account shall be utilized only for the 'Objects of the Offer' as disclosed in this Prospectus and as may be mentioned and disclosed in the corresponding page numbers of the section 'Objects of the Offer' as would be mentioned in the Prospectus and the Prospectus ("**Objects of the Offer**") as a whole.

The said Bank account will be required to be monitored by an independent Monitoring Agency. Further, the Issuer Company to ensure that all the payments towards the objects as mentioned in the section 'Objects of the Offer' will be made from this Special Bank Account.

Issuer Company to submit 'Utilization Certificate' w.r.t utilization of funds towards the Objects of the Offer with the Exchange, on quarterly basis.

Change in Objects: If the company decides to deviate from the Objects as disclosed in the 'Objects of the Offer' to any new Object by way of addition/ deletion.

In all or any of the above cases, the company will have to observe strict compliance with the Provisions of Section 27(2) of the Companies Act, 2013 read with Schedule XX of SEBI (ICDR) Regulations, 2018 and any other applicable

laws not limited to obtaining shareholders approval via Special Resolution as required under the SEBI (ICDR) Regulations, 2018 and respective provisions of Companies Act, 2013 read with the Companies Rules w.r.t variation in objects of the issue. The notice issued to the Shareholders in relation to the passing of such special resolution shall specify the prescribed details as required under the Companies Act. The Company to also agree to provide exit opportunity to dissenting shareholders in terms of the provisions of Law, as applicable.

- a) Multi-Model Source of Revenue through Product Sales and Rental Services.
- b) In-House Manufacturing facilities supported by quality certifications.
- c) Well diversified customer base spread across various industries & geography.
- d) Experienced Promoters and management team having domain knowledge.

For a detailed discussion on the qualitative factors which form the basis for computing the price, please refer to sections titled “Our Business” beginning on page 155 of this Prospectus.

QUANTITATIVE FACTORS

The information presented below relating to our Company is based on the Restated Financial Statements. For details, please refer section titled “Financial Information of the Company” on page 221 of this Prospectus.

Some of the quantitative factors which may form the basis for calculating the Offer Price are as follows:

1. Basic & Diluted Earnings per share (EPS) (Face value of ₹ 10 each):

As per the Restated Financial Statements:

Sr. No	F.Y.	Basis & Diluted (₹)	Weights
1.	Financial Year ending March 31, 2025	8.13	3
2.	Financial Year ending March 31, 2024	4.09	2
3.	Financial Year ending March 31, 2023	2.28	1
	Weighted Average	5.81	6
	For six Months Period Ended September 30, 2025	6.56	

Notes:

- i. The figures disclosed above are based on the Restated Financial Statements of the Company.
- ii. The face value of each Equity Share is ₹10.00.
- iii. Earnings per Share has been calculated in accordance with **Accounting Standard 20 – “Earnings per Share”** issued by the Institute of Chartered Accountants of India.
- iv. The above statement should be read with Significant Accounting Policies and the Notes to the Restated Financial Statements as appearing in Annexure 4.
- v. Basic Earnings per Share = Net Profit/(Loss) after tax, as restated attributable to equity shareholders / Weighted average number of equity shares outstanding during the year/ period after considering issue of bonus shares.
- vi. Diluted Earnings per Share = Net Profit/(Loss) after tax, as restated attributable to equity shareholders / Weighted average number of diluted potential equity shares outstanding during the year/ period.

2. Price Earning (P/E) Ratio in relation to the Issue Price of ₹ 123 per Equity Share* of Face Value of ₹ 10/- each fully paid up:

Particulars	(P/E) Ratio at the Issue Price (Rs. 123/-)*
P/E ratio based on the Basic & Diluted EPS, as restated for Fiscal 2025	15.13
P/E ratio based on the Weighted Average EPS, as restated.	21.17

**Subject to basis of allotment*

Industry P/E Ratio*	(P/E) Ratio
Highest	19.90
Lowest	19.90
Industry Average	19.90

**We have mentioned listed peer which falls in the similar line of business as of our Company for broad comparison purpose, however there is a distinction in the product portfolio between our company and those of our selected peer i.e. Techno Craft Industries Limited.*

Note:

- i) The P/E ratio of peers has been computed by dividing Market price as on December 30, 2025 with EPS for the F.Y. 2024-25.

3. Return on Net worth (RoNW)

Sr. No	Period	RONW	Weights
1.	Period ending March 31, 2025	50.73%	3
2.	Period ending March 31, 2024	51.85%	2
3.	Period ending March 31, 2023	59.94%	1
	Weighted Average	52.64%	6
	For six Months Period Ended September 30, 2025 (not annualized)	29.05%	

Note:

- i. The figures disclosed above are based on the Restated Financial Statements of the Company.
ii. The RoNW has been computed by dividing restated net profit after tax (excluding exceptional items) with restated Net worth as at the end of the year
iii. Weighted average = Aggregate of year-wise weighted RoNW divided by the aggregate of weights i.e. (RoNW x Weight) for each year/Total of weights.

4. Net Asset Value (NAV) per Equity Share:

Sr. No	NAV Per Equity Share	(Amount in ₹)
1.	As at March 31, 2023	3.80
2.	As at March 31, 2024	7.90
3.	As at March 31, 2025	16.03
4.	As at September 30, 2025	22.59
5.	NAV per Equity Share after the Issue	44.25
6.	Issue Price	123

**The above NAV has been calculated based on weighted number of shares outstanding at the end of the respective year.*

Notes:

- i. The figures disclosed above are based on the Restated Financial Statements of the Company.
- ii. NAV per share=Restated Net worth at the end of the year divided by weighted average number of equity shares outstanding at the end of the year
- iii. Net worth is computed as the sum of the aggregate of paid-up equity share capital, all reserves created out of the profits, securities premium account received in respect of equity shares and debit or credit balance of profit and loss account.
- iv. Issue Price per Equity Share will be determined by our Company in consultation with the Book Running Lead Manager.

5. Comparison of Accounting Ratios with Industry Peers

Name of Company	**Current Market Price (₹)	Face Value	EPS(Basic/Diluted)	PE	RoNW (%)	Book Value (₹)	Total Revenue (₹ In lakhs)
Msafe Equipments Limited	123	10.00	8.13	15.13	50.73%	16.03	7,134.07

Re: Statement of Possible Special Tax Benefit (‘the Statement’) available to Msafe Equipments Limited (‘the company’), and its shareholders prepared in accordance with the requirements under Schedule VI-Clause 9L of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended (the ‘Regulations’)

Dear Sirs,

We hereby confirm that the enclosed annexure, prepared by **Msafe Equipments Limited (‘the company’)** states the possible special tax benefits available to the Company and the shareholders of the Company under the Income Tax Act, 1961 (‘Act’) as amended from time to time, presently in force in India. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Act. Hence, the ability of the Company or its shareholders to derive the tax benefits depends upon fulfilling such conditions, which are based on the business imperatives the company may or may not choose to fulfill.

The benefits discussed in the enclosed Annexure cover only special tax benefits available to the Company and its Shareholders and do not cover any general tax benefits. Further, these benefits are neither exhaustive nor conclusive and the preparation of the contents stated is the responsibility of the Company’s management. We are informed that this statement is only intended to provide general information to the investors and hence it is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences, the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the issue. We are neither suggesting nor advising the investor whether to invest money or not to invest money based on this statement.

Our views are based on the existing provisions of the Act and its interpretations, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions. Any such change, which could also be retroactive, could have an effect on the validity of our views stated herein. We assume no obligation to update this statement on any event subsequent to its issue, which may have a material effect on the discussions herein.

We do not express any opinion or provide any assurance as to whether:

- the Company or its Shareholders will continue to obtain these benefits in future; or
- the conditions prescribed for availing of the benefits, where applicable have been/would be met.

The contents of this annexure are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company and the provisions of the tax laws.

No assurance is given that the revenue authorities / courts will concur with the views expressed herein. The views are

based on the existing provisions of law and its interpretation, which are subject to change from time to time. We would not assume responsibility to update the view, consequence to such change.

We shall not be liable to the Company for any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith of intentional misconduct. The enclosed Annexure is intended solely for your information and for inclusion in Prospectus/Prospectus or any other issue related material in connection with the proposed issue of equity shares and is not to be used, referred to or distributed for any other purpose without our prior written consent. Signed in terms of our separate report of even date.

Annexure to the statement of possible Tax Benefits

Outlined below are the possible Special tax benefits available to the Company and its shareholders under the Income Tax Act, 1961, presently forced in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have different interpretation on the benefits, which an investor can avail.

YOU SHOULD CONSULT YOUR OWN TAX ADVISORS CONCERNING THE INDIAN TAX IMPLICATIONS AND CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF EQUITY SHARES IN YOUR PARTICULAR SITUATION.

1. Special Tax Benefits available to the Company under the Act:

The Company is eligible to claim deduction under Section 80JJAA of the Income-tax Act, 1961 in respect of additional employee cost, subject to fulfillment of the conditions prescribed thereunder. The deduction is allowable at the rate of 30% of such additional employee cost for three consecutive assessment years, commencing from the assessment year relevant to the financial year in which employment is provided.

The computation of deduction under Section 80JJAA of the Income-tax Act, 1961 for the financial year 2025–26 shall be carried out at the end of the financial year based on eligible employees and in accordance with the provisions of the Income-tax Act, 1961 and the rules made thereunder.

2. Special Tax Benefits available to the shareholders of the Company

The Shareholders of the company are not entitled to any Special tax benefits under the Act.

Notes:

1. All the above benefits are as per the current tax laws and will be available only to the sole / first name holder where the shares are held by joint holders.
2. The above statement covers only certain relevant direct tax law benefits and does not cover any indirect tax law benefits or benefit under any other law.

No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to updating the views consequent to such changes. We do not assume responsibility to updating the views consequent to such changes. We shall not be liable to any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith or intentional misconduct. We will not be liable to any other person in respect of this statement.

Signed in terms of our separate report of even date.

Restriction on Use:

This certificate is issued on the request of the Company for the purpose of SME - Initial Public Offer for submission to the concerned authorities and should not be used for any other purpose. Accordingly we do not accept or assume any liability or duty in case the certificate is used for any other purpose or into whose hands it may come without our prior consent in writing.

GLOBAL OVERVIEW

The global economic landscape is experiencing rapid changes amid significant geopolitical uncertainties. The intensification of military conflicts in West Asia, specifically between Israel, Iran, and the United States, has amplified international tensions.

This conflict generated concerns regarding maritime economic activities in the Strait of Hormuz, a vital passage in the Persian Gulf that channels approximately 20% of global oil and liquefied natural gas transportation. Market fears of a broader conflict and potential Iranian blockade of the strait drove Brent crude futures up by nearly 20% month-over-month.

Subsequently, a ceasefire announcement led to oil prices falling to USD 67 per barrel on 24 June 2025, negating previous increases. Though immediate blockade concerns have diminished, the sustainability of peace remains uncertain.

According to the World Bank's Global Economic Prospects - June 2025, global gross domestic product (GDP) growth is projected at 2.3% for 2025 and 2.4% for 2026, reduced from its January 2025 forecasts of 2.7 % for both years. The organization anticipates global trade growth to decline from 3.4% in 2024 to 1.8% in 2025, with the 2025 projection adjusted downward by 0.4 percentage points compared to January 2025.

Global Inflation Trends and Projections

Global headline consumer price inflation has remained elevated above pre-pandemic levels throughout 2024, with a slight increase in some advanced economies in early 2025. The persistent tightness in labor markets has maintained core inflation at elevated levels across numerous economies. In Emerging Markets and Developing Economies (EMDEs), headline inflation showed volatility in early 2025, while core inflation increased due to rising services prices and wage pressures. The global inflation outlook has become more uncertain since 2024 due to multiple economic shocks.

The implementation of substantial tariff increases is expected to drive up consumer inflation in key economies through higher prices for imported consumer goods and production inputs. This situation is further complicated by the redirection of demand toward domestic production, which shows limited elasticity in the short term. Short-term inflation expectations have increased in 2025, particularly in major economies, reflecting the anticipated impact of tariff hikes on consumer prices, despite trade tensions negatively affecting economic activity and commodity prices.

Inflation Expectations and Future Projections

The combination of underlying inflationary pressures and the effects of rising tariffs and trade protectionist measures is expected to slow the normalization of global inflation toward target levels. Global inflation, on a GDP-weighted

basis, is projected to maintain an average of 2.9 percent in both 2025 and 2026, before decreasing to 2.5 percent in 2027, aligning with the average inflation target. However, inflation projections vary significantly across regions. EMDEs are expected to experience slightly lower inflation in 2025 due to weakened demand for traded goods, while advanced economies, particularly the United States, face significantly higher inflation projections.

Global Financial Outlook and Implications

The current financial landscape reflects a complex interplay between global trade tensions, monetary policy decisions, and market responses. While advanced economies navigate divergent policy paths, EMDEs face unique challenges in maintaining financial stability. The combination of elevated debt levels, potential trade disruptions, and market volatility suggests a period of continued careful policy management will be necessary across all economies. Success will depend on balancing growth objectives with risk mitigation strategies while maintaining sufficient flexibility to respond to evolving global conditions.

INDIAN ECONOMY

India's economic growth has been remarkable, positioning it as one of the fastest-growing major economies in the world. Currently ranked as the fourth-largest economy globally, India is expected to become the third-largest by the fiscal year 2030-31, with a projected GDP of USD 7.3 trillion.

This advancement is the result of a decade of targeted governance, structural reforms, and strengthened global positioning. Robust domestic demand, favorable demographics, and consistent policy reforms have enabled India to expand its global footprint in trade, investment, and innovation.

Over the last decade, India's GDP has grown significantly, increasing from USD 1.23 trillion in FY15 to an estimated USD 3.82 trillion in FY25, effectively tripling in ten years. In FY25, nominal GDP rose by 9.9%, while real GDP grew by 6.5%. Similar growth patterns are anticipated in FY26, indicating sustained economic momentum.

This progress is supported by macroeconomic stability, a resilient external sector, a narrowing fiscal deficit, easing inflation, and strong consumption expenditure. Furthermore, improving employment opportunities and the government's emphasis on long-term structural reforms are expected to maintain this growth trajectory.

India's export performance has also seen remarkable growth over the past decade, reflecting the increasing global demand and credibility of Indian products. Total exports rose from USD 468 billion in FY14 to USD 825 billion in FY25, marking a significant 76% increase.

At the same time, India's share in global merchandise exports improved from 1.66% to 1.81%, elevating the country's global ranking from 20th to 17th. India's demographic transition, characterized by declining infant mortality rates and rising literacy levels, further enhances its competitive position.

With more equitable income distribution, higher employment rates, and globally competitive social amenities, India's per capita GDP is expected to grow over the next 25 years, replicating the progress achieved in the past 75 years.

In the Union Budget for 2025-26, the Indian government allocated Rs. 11.21 lakh crore (USD 129 billion) for capital expenditure, representing a 10.1% increase from the revised estimate of Rs. 10.18 lakh crore (USD 117.2 billion) in FY25.

In FY25, key indicators showcased notable improvements:

- Private Final Consumption Expenditure (PFCE) is set to rise by 7.2% in FY25, up from a 5.6% growth in FY24.
- June 2025 saw a CPI – Combined inflation of 2.10%, a drop from 5.08% in June 2024
- Services PMI rose to 61.1 in July 2025, up from 60.4 in June 2025
- India's Index of Industrial Production (IIP) for May 2025 was recorded at 156.6, an increase from 154.7 in May 2024.
- The combined index of eight core industries was 166.7 for FY26 (April-June), up from 164.5 for FY25 (April-June). In June 2025, it was slightly lower at 166.5.
- Major ports handled cargo traffic of 220.04 million tonnes (MMT) in FY26 (April-June).
- In June 2025, saw e-way bills surge to 11.94 crore, marking a 19.3% increase from June 2024
- June 2025's gross GST (Goods and Services Tax) revenue collection was INR 1,84,597 crore (USD 21.38 billion).
- May 2025 recorded Unified Payments Interface (UPI) transactions at 14,006.48 million, totaling INR 18,41,801 crore (USD 213.27 billion).
- Merchandise exports for June 2025 were valued at INR 3,03,469 crore (USD 35.14 billion).
- June 2025 merchandise imports reached INR 4,65,653 crore (USD 53.92 billion).
- As of July 11, 2025, India's foreign exchange reserves were INR 59,78,149 crore (USD 692.56 billion).
- On July 23, 2025, the rupee was valued at INR 86.37/USD.
- In FY25 (January-March 2025), India attracted a total foreign direct investment (FDI) equity inflow of USD 17.47 billion.
- According to the Reserve Bank of India (RBI):
 - As of June 27, 2025, bank credit was INR 1,84,83,098 crore (USD 2.14 trillion).

- Non-food industries received credit amounting to INR 1,84,18,709 crore (USD 2.13 trillion) as of June 27, 2025.

India's Inflation Reaches Multi-Year Low as Job Market Shows Recovery

- India's headline annual retail inflation decreased from 2.82% in May to 2.10% in June 2025, reaching its lowest level since January 2019. This decline was primarily due to food prices turning negative at -1.06%. The job market showed improvement in May 2025, with an 8.9% increase in job listings after eight consecutive months of decline. Key sectors driving this growth included childcare (27%), personal care and home health (25%), education (24%), and manufacturing (22%), according to Indeed.
- Private equity (PE) and venture capital (VC) investments in June 2025 totaled INR 14,681 crore (USD 1.7 billion). For Q2 2025 (April-June), these investments reached INR 45,771 crore (USD 5.3 billion) across 248 deals.
- The Economic Survey 2024-25 reported an 8.2% increase in government capital expenditure from July to November 2024. Defense, railways, and road transport sectors accounted for 75% of the total capital outlay.
- Service activity-maintained growth momentum with consistent Purchasing Managers' Index (PMI) levels from October 2024 to June 2025, supported by output growth and favorable demand conditions. Rail freight, port traffic, and domestic aviation sectors showed positive trends. Additional indicators of healthy demand included strong fuel consumption, domestic vehicle sales, and high Unified Payments Interface (UPI) transactions

External Trade and Fiscal Outlook

The reduction in merchandise trade deficit and increasing net services receipts are expected to improve India's current account deficit.

Union Budget 2025-26 Priorities:

The Union Budget 2025-26, under the theme "Sabka Vikas," aims for balanced regional growth. It focuses on agriculture, Micro, Small and Medium Enterprises (MSMEs), investment, and exports as growth drivers. Key initiatives include the Prime Minister Dhan-Dhaanya Krishi Yojana for agriculture, support for first-time entrepreneurs, and domestic manufacturing promotion through customs duty rationalization. The budget allocates resources for education and healthcare, including plans for 50,000 Atal Tinkering Labs and new medical colleges.

IMPACT OF GLOBAL TRENDS ON CONSTRUCTION/INFRASTRUCTURE SECTORS

INVESTMENT IN ENERGY TRANSITION AND RENEWABLE ENERGY MOMENTUM

Industry Association estimates suggest that to meet the emissions targets set by the Paris Agreement, an annual investment of USD 5 trillion in energy transition infrastructure is essential from 2023 to 2050.

In 2024, fundraising for renewable energy constituted a significant 69% of the total infrastructure capital, highlighting the sector's robust momentum. Additionally, Alter Domus Infrastructure is emerging as a favored choice for long-term investors, being viewed as a natural hedge against inflation amidst prevailing macroeconomic uncertainties.

KEY RISKS: INFLATION, SUPPLY CHAIN, REGULATIONS

GLOBAL INFLATION EASES, PAVING THE WAY FOR ECONOMIC STABILITY

Global inflation is projected to decline steadily, starting from approximately 5.9% in 2024, decreasing to 4.2% in 2025, and further dropping to 3.6% in 2026. This trend aligns inflation rates more closely with central bank targets in many regions.

The downward movement, driven by improved supply conditions and moderating commodity prices, provides policymakers with the opportunity to gradually implement more supportive monetary policies. The goal is to stimulate economic growth while mitigating the risk of market volatility. Although inflation remains elevated in the U.S., evidence suggests a tapering trend. This may enable the Federal Reserve to consider rate relief by late 2025 or during the first

GLOBAL TRADE AGREEMENTS BOOST CONFIDENCE AMID GEOPOLITICAL TENSIONS

In the face of geopolitical tensions and occasional shifts in tariff policies, new trade agreements—such as those forged between the U.S., EU, UK, Japan, and ASEAN—along with selective tariff exemptions, are steadily restoring faith in global trade frameworks.

Central banks around the globe are enjoying robust support for their independence and policy credibility. This backing is vital for stabilizing inflation expectations and ensuring financial stability. Thanks to this solid foundation, advanced economies have managed to navigate a "soft landing" scenario, despite lingering trade frictions.

GLOBAL CONSTRUCTION GROWTH AND INVESTMENT FLOWS

GLOBAL CONSTRUCTION SET TO FLOURISH, LED BY CHINA, U.S., AND INDIA

China, the U.S., and India are set to spearhead a surge in global construction activity, primarily fueled by infrastructure investments that resonate with green energy and digital transformation objectives. This anticipated growth finds its roots in escalating investments, bolstered by initiatives such as the U.S. Inflation Reduction Act, China's projected rebound post-2025, and India's swift modernization drive.

GLOBAL CONSTRUCTION SET TO SURGE, OVERCOMING SHORT-TERM HURDLES

Despite encountering short-term hurdles, the global construction sector stands poised for substantial expansion. After a minor setback in 2025, output is projected to rebound in 2026, largely fueled by infrastructure and civil engineering endeavors. These sectors foresee a growth of roughly 3% in 2025, with a surge to approximately 4–5% in 2026, propelled by the momentum of significant stimulus initiatives.

Governments are increasingly focusing on green infrastructure and clean energy initiatives. Notably, civil engineering now accounts for nearly one-third of the global construction value, bolstering growth even as residential and commercial sectors show signs of softness.

GLOBAL TRADE AGREEMENTS BOOST CONFIDENCE AMID GEOPOLITICAL TENSIONS

Infrastructure & Public-Private Partnerships (PPPs): Governments worldwide are collaborating with private investors to develop roads, ports, energy grids, and clean energy initiatives. Europe has committed a substantial EUR 800 billion (approximately USD 833.24 billion) under its Next Generation EU initiative. Meanwhile, both the US and India are rapidly advancing their large-scale infrastructure projects.

Technology & Sustainability Integration: Digital innovations—such as AI, Building Information Modeling (BIM), cloud platforms, and modular and 3D printing—are revolutionizing the construction sector. These tools not only boost efficiency but also minimize waste and reduce costs. Many companies are leveraging AI for enhanced planning, predictive maintenance, and optimized workflows. Furthermore, green building practices are gaining traction, driven by policy incentives and a surge in capital allocation focused on Environmental, Social, and Governance (ESG) criteria.

Cross-Border Investments & Emerging Market Capital: India, leading the charge, has positioned the Asia-Pacific region as a magnet for global real estate and development investments. As of June 2025, India proudly stands as the 7th top global destination for land and development projects. Bolstered by robust fundamentals and a maturing real estate landscape, India is solidifying its status as a premier investment hub in the Asia-Pacific. Concurrently, Africa is witnessing a surge in urban developments, highlighted by the emergence of private startup cities. Nations such as Kenya, Ghana, and Nigeria are capturing the spotlight, enticing both institutional and impact investors.

SCAFFOLDING INDUSTRY

Scaffolding, a temporary elevated structure, supports workers, tools, and materials during the construction, maintenance, or repair of buildings, bridges, and other artificial structures. Typically crafted from steel, iron, or bamboo, scaffolding can be either modular (prefabricated) or custom-built on-site.

SIGNIFICANCE OF SCAFFOLDING

1. Ensures Worker Safety

By providing a stable platform at height, scaffolding minimizes the risk of falls and accidents. It facilitates secure movement for workers engaged in tasks like plastering, welding, or painting.

With India's heightened enforcement of occupational safety standards, scaffolding has become pivotal in ensuring job site compliance, which is critical for companies aiming to establish a strong reputation in the market.

2. Improves Accessibility and Efficiency

Scaffolding provides access to challenging areas, especially on tall or irregular structures. By offering ergonomic positions and simplifying the transport of tools and materials, scaffolding accelerates work speed and boosts productivity, a key factor for companies looking to enhance operational efficiency and meet investor expectations. Example: In projects like metro rail construction or airport terminals, scaffolding allows for concurrent multi-level work, drastically cutting down project timelines and showcasing the ability to handle large-scale operations effectively.

3. Supports Structural Stability During Work

Scaffolding serves as a supportive framework, holding up sections, slabs, or walls under assembly or curing. This reliability underscores the importance of scaffolding in maintaining project quality, a critical aspect for companies.

4. Integral to India's Urban Infrastructure Boom

With India's ambitious infrastructure initiatives, such as PM Gati Shakti, there's a heightened demand for safe, modular, and compliant scaffolding—especially in large-scale urban, industrial, and real estate endeavors.

Companies entering the public market can leverage this demand to highlight their role in supporting the nation's infrastructure growth.

5. Encourages Standardization and Industrial Best Practices

Modern scaffolding systems, including aluminum stairway towers and ring locks, offer rapid assembly, modular scalability, and adherence to global safety standards like EN 12811, ANSI, and OSHA.

Indian companies are swiftly adopting these systems to align with both domestic and international quality standards, a move that positions them as reliable and forward-thinking entities in the eyes of potential investors.

SCAFFOLDING: A PILLAR OF SUPPORT ACROSS KEY SECTORS (Construction, Maintenance & Restoration, and Industrial)

Scaffolding is indispensable in sectors demanding elevated access, structural integrity, and worker safety. Here are the three primary domains of its application:

Building Construction

Purpose: Ensures safe access to every level of a building, from foundation to rooftop.

Key Applications:

- High-rise residential and commercial developments
- Support for concrete formwork
- Elevated masonry and brickwork
- External plastering, cladding, and facade treatments

- Installation of windows, electrical conduits, and plumbing

Example (India):

- Projects such as Mumbai's Coastal Road, Smart City townships, and urban redevelopment zones leverage modular scaffolding systems (like cup lock and aluminum towers) for enhanced speed and safety.
- These projects highlight the growing demand for advanced scaffolding solutions, presenting significant opportunities for companies entering the market.

Building Maintenance & Restoration

Purpose: Enables routine repairs, upgrades, and treatments on existing buildings.

Key Applications:

- Painting, waterproofing, and facade cleaning
- Roof repairs and Heating, Ventilation, and Air Conditioning (HVAC) installations
- Structural inspections and retrofitting
- Glass replacements and signage setups

Example:

In cities like Jaipur and Kolkata, scaffolding aids in maintaining heritage structures, while in Bengaluru and Gurugram, it is pivotal for glass facades on IT and commercial towers. The increasing focus on infrastructure maintenance and restoration underscores the potential for scalable growth in this segment

Industrial & Infrastructure Applications

Purpose: Offers safe platforms in factories and infrastructure sites for constructing or servicing complex systems.

Key Applications:

- Refineries, petrochemical facilities, and thermal power stations
- Steel manufacturing plants and shipyards
- Bridge and flyover constructions
- Interiors of metro rail and airport terminals
- Maintenance of wind and solar plants

Example:

India's industrial corridors, such as the Delhi-Mumbai Industrial Corridor (DMIC), and its defense and aerospace hubs, heavily utilize mobile scaffolding towers for tasks like equipment assembly, ductwork, and large-scale metal fabrication. The robust industrial and infrastructure development pipeline in India offers a lucrative growth avenue for companies poised to capitalize on this demand.

TYPES OF SCAFFOLDING

Scaffolding has advanced from traditional bamboo frameworks to modern, engineered systems, supporting diverse applications in construction, infrastructure, and industrial projects. Below are key scaffolding types and their uses.

- Single Scaffolding
- Double Scaffolding
- Suspended Scaffolding
- Cantilever Scaffolding
- Trestle Scaffolding
- Steel Scaffolding
- Patented Scaffolding
- Bamboo Scaffolding
- Kwik Stage Scaffolding

- Independent Scaffolding

INDIA SCAFFOLDING MARKET, VALUE IN INR CRORES, 2019-2030

The India Scaffolding Market studied was valued at INR 7208.97 crores in 2024 and is expected to reach INR 12811.78 crores in 2030, registering a CAGR of 10.06% for the forecast period (2024-2030).

HISTORICAL PERFORMANCE (2019–2024)

From 2019 to 2024, India's scaffolding market saw consistent mid-single-digit annual growth, driven by an unprecedented push in infrastructure. Major public initiatives—primarily under the National Infrastructure Pipeline, Smart Cities Mission, and housing schemes like Pradhan Mantri Awas Yojana (PMAY)—spurred a surge in demand for modular steel and aluminum scaffolding systems.

These systems, known for their quicker setup and enhanced safety, outperformed traditional tube-and-clamp and bamboo alternatives. At the same time, the emergence of rental business models and service-oriented offerings enabled organized players to secure a larger project share. However, they faced challenges from raw-material price fluctuations and a fragmented, unorganized sector, which squeezed margins and caused execution delays.

FORECAST PROJECTIONS (2025–2030)

This market expansion is anticipated to be driven by a new wave of highway expansions, metro-rail corridors, and industrial-park developments. The integration of digital technologies—like IoT-enabled load monitoring and QR-based asset tracking—coupled with a stricter enforcement of Bureau of Indian Standards/Indian Standards (BIS/IS) safety standards, is likely to steer demand more towards premium modular scaffolding systems and all-encompassing servitization contracts. Despite challenges from raw-material cost swings and a shortage of skilled labor, the market is poised for robust growth through 2030. This optimism is bolstered by government incentives, new urban infrastructure projects, and a rising focus on eco-friendly scaffolding solutions aligned with ESG principles.

SCAFFOLDING INDUSTRY - BUSINESS MODELS

The scaffolding industry is witnessing significant advancements, driven by large-scale infrastructure projects and evolving contractor needs.

Infrastructure projects demand uninterrupted access to critical areas. To meet this requirement, Engineering, Procurement, and Construction (EPC) firms involved in the Mumbai Coastal Road Project and the Delhi-Meerut Expressway opted to purchase aluminum stairway towers outright. This approach ensures asset availability throughout the project duration, eliminating reliance on rentals during critical phases.

The Mumbai Metro Line 3 project has driven innovation in construction practices. Contractors adopted Bureau of Indian Standards (BIS)-compliant modular towers with quick-lock systems for efficiency. Extended-warranty packages enabled on-site reconfigurations for diverse project needs. Manufacturers responded with hybrid buy-back schemes, training programs, and digital tools like 3D layout previews, enhancing precision and workforce readiness.

Mid-sized builders in Tier 2 cities face cost barriers in adopting standard aluminum tower sets, priced above INR 1 lakh (USD 1,200). Builders in cities like Indore and Bhubaneswar often rely on rentals or lower-grade steel towers.

due to high capital expenditure (CapEx) requirements. Additional costs for maintenance, storage, and compliance inspections further strain small and medium enterprises (SMEs).

Despite a broader industry trend leaning towards ownership, the rental model remains pivotal in the scaffolding sector, especially for select market segments.

In Tier 2 cities, mid-sized builders often turn to rentals or opt for lower-grade steel towers instead of investing in standard aluminum tower sets.

This choice stems from the hefty capital expenditure (CapEx) tied to buying scaffolding equipment. With standard aluminum tower sets costing over INR 1 lakh (USD 1,200), the price tag poses a considerable financial hurdle for these builders.

Moreover, added expenses like maintenance, storage, and compliance inspections further burden small and medium enterprises (SMEs), making rentals a more attractive financial solution.

While rentals are available, major Engineering, Procurement, and Construction (EPC) firms, engaged in significant projects such as the Mumbai Coastal Road and the Delhi-Meerut Expressway, have chosen to buy aluminum stairway towers outright.

This choice aims to eliminate rental dependencies during crucial project phases, ensuring consistent access and asset availability over the project's multi-year span. Such a move underscores the potential drawbacks of the rental model for long-term, critical projects.

SUMMARY OF RENTAL MODEL ROLE

The rental model emerges as a vital solution for mid-sized builders and SMEs grappling with capital expenditure challenges. It offers them essential equipment access without the burdens of hefty upfront investments and ongoing ownership costs. Conversely, for large-scale infrastructure endeavors, the preference leans towards outright purchases, emphasizing strategic asset control and minimizing rental-related disruptions.

KEY GROWTH TRENDS IN THE INDIAN SCAFFOLDING MARKET

1. Government Infrastructure Push Fuels Scaffolding Demand

India's National Infrastructure Pipeline (NIP) and PM Gati Shakti are set to invest over INR 143 lakh crore (USD 1,711 billion) by 2030, targeting sectors like transport, logistics, housing, and energy.

Application Impact: Scaffolding demand is on the rise for projects including metro rails, highway flyovers, airport terminals, smart city zones, and affordable housing.

Growth Insight: As projects grow in volume and duration, there's a marked shift towards modular and safety-certified systems, moving away from traditional bamboo or steel tube setups. This trend presents a significant opportunity for companies to align their offerings with evolving market needs, ensuring scalability and compliance.

2. Transition to Modular, Lightweight & Compliant Systems

There's a clear shift from using bamboo and basic mild steel pipes to advanced systems like cup lock, ring lock, and aluminum stairway towers.

This transition is largely driven by the adoption of standards such as EN 12811, EN 131, American National Standards Institute (ANSI), and Occupational Safety and Health Administration (OSHA), especially among private developers, Engineering, Procurement, and Construction (EPC) contractors, and Multinational Corporation (MNC)-owned sites.

Growth Insight: In Tier 1 & Tier 2 construction markets, modular scaffolding and aluminum access systems are projected to grow in the coming years. Companies entering the market can capitalize on this growth by offering innovative, compliant solutions tailored to these segments.

3. Surge in Industrial Maintenance and Plant Access Needs

Industries like refineries, chemical plants, and pharma factories are increasingly relying on mobile scaffolding for swift maintenance, inspections, and upgrades.

There's a notable demand in locations like Bhiwandi, Sanand, and Pune for rental-based mobile access platforms, especially during shutdowns and Annual Maintenance Contract (AMC) projects.

Growth Insight: Industrial access solutions, particularly aluminum towers, are emerging as a lucrative sub-segment with substantial rental income potential. Companies with a focus on industrial scaffolding can leverage this demand to establish a strong foothold in the market.

4. Rising Popularity of the Rental Model

Capex-sensitive Micro, Small & Medium Enterprises (MSMEs), Tier 2 contractors, and industrial clients are leaning towards rentals for their short-term or rotating project needs.

Organized rental players, such as Msafe Group, are capturing market share from unorganized fabricators, thanks to their quicker service, safety compliance, and thorough documentation.

Growth Insight: By 2030, rentals are anticipated to account for a major share of the industry's revenue, with a pronounced emphasis on infrastructure and industrial sectors. Companies entering the rental market can benefit from this shift by offering competitive, safety-compliant rental solutions.

ALUMINUM SCAFFOLDING MARKET

USE CASES:

- High-Rise Construction & Fast-Track Residential Towers
- Industrial & Manufacturing Maintenance
- Infrastructure & Rail Bridges
- Commercial Interiors, Malls & Airports

KEY TRENDS

MODULAR, CONSUMABLE ALUMINUM SYSTEMS GAIN GROUND

In early 2024, India's construction sector saw a notable shift toward modular aluminum scaffolding systems, such as ring-lock and cuplock architectures. These systems, designed for repeated reuse, enable quick assembly and easy transportation. Their demand has risen, particularly in metro rail and civil infrastructure projects, where standardized layouts allow frequent component reuse, improving efficiency and material utilization.

For instance, tenders for metro rail corridors in major cities emphasized the need for “standardized, reusable aluminum scaffolding solutions.” This approach has helped meet tight project timelines while ensuring consistent build quality. Additionally, between late 2024 and early 2025, the government introduced a BIS Quality Control Order (QCO), setting Indian standards (IS) for aluminum alloy products like tubing and structural rods. Effective from March 2024 and extended in 2025, the order mandates ISI certification for infrastructure components, ensuring traceable quality marks.

In conclusion, the growing adoption of modular aluminum scaffolding systems reflects the sector's focus on efficiency and standardization. Regulatory measures like the BIS QCO have further supported this trend, ensuring quality compliance. As infrastructure projects expand, demand for these systems is expected to grow, driving innovation and improved practices in the construction sector.

PRIORITIZING LIGHTWEIGHT ERGONOMIC DESIGN TO CUT COSTS AND RISKS

In 2024, India revised its scaffolding system selection criteria for industrial and construction projects, focusing on workforce safety, quick deployment, and strict quality compliance. This shift was driven by the Ministry of Commerce

and Industry's phased implementation of Quality Control Orders (QCOs) in October 2023, April 2024, and July 2025, mandating BIS standards for aluminum and aluminum alloy products.

The QCOs impacted raw materials like extrusions, rods, and bars used in aluminum scaffolding. Manufacturers and contractors adopted certified, lighter aluminum systems that are easier to handle and meet safety standards. Aluminum scaffolds, being 30–35% lighter than steel, simplify transport, assembly, and disassembly, which is crucial for sites requiring mobility and fast turnarounds.

India's airport expansions and metro rail projects in 2024 reinforced this trend. Tender requirements emphasized reusability and safe, rapid setups. For instance, Delhi Metro and Mumbai Metro extension projects in 2024 specified BIS-compliant materials and modular equipment, areas where aluminum scaffolding excels over steel.

The preference for lightweight, ergonomic systems reflects efforts to reduce downtime, minimize injuries, and avoid non-compliance penalties on monitored public infrastructure sites. With rising insurance costs and contractor liabilities, these systems are becoming the industry standard.

SUSTAINABILITY & CIRCULARITY — ALUMINUM'S RISING APPEAL IN INDIAN CONSTRUCTION

In 2023, India began shifting its construction policies to embrace circular economy principles. By January 2025, several reports highlighted aluminum's compatibility with the national "6-R philosophy" (Reduce, Reuse, Recycle, Recover, Redesign, Remanufacture), emphasizing its recyclability and its critical role in sustainable material strategies.

In late 2023, the Material Recycling Association of India (MRAI) advocated for maintaining zero duty on aluminum scrap imports. This initiative aims to support domestic secondary aluminum production while highlighting aluminum's low-carbon benefits and its importance in building a green aluminum ecosystem.

Producing secondary aluminum requires only about 5% of the energy needed for primary aluminum, resulting in up to 95% savings in energy-related emissions. This makes secondary aluminum an ideal material for construction, aligning with certifications such as Green Rating for Integrated Habitat Assessment (GRIHA), Leadership in Energy and Environmental Design (LEED), and Net-Zero mandates.

Why it matters: Aluminum's energy efficiency, recyclability, and alignment with India's evolving waste-management regulations position it as a preferred material for sustainable construction. Reusable aluminum scaffolding frames help minimize construction waste and reduce greenhouse gas emissions, supporting national goals for circular materials and ensuring compliance with regulatory standards.

DIGITAL & SMART SCAFFOLDING — MERGING SAFETY WITH DATA IN RENTAL OPERATIONS

In 2024, India is experiencing rapid growth in scaffolding inventory management and digital safety compliance tools. Many technology platforms now offer features such as Quick Response (QR)-coded tracking, digital inspection checklists, image-annotated safety logs, and inventory dashboards, all designed to improve safety compliance and traceability at construction sites.

Global scaffolding management tools are introducing advanced functionalities, including real-time usage monitoring, automatic alerts for missed safety checks, and audit-ready reporting. These features are being piloted in large-scale infrastructure projects, such as metro rail developments, across India in 2024 and 2025. Although fully Internet of Things (IoT)-enabled scaffolding sensors are still in the early stages, digitized workflows for safety audits and material tracking are increasingly being included in tender requirements for major infrastructure projects.

Why it matters: Data-driven scaffold tracking and safety compliance systems enhance worksite safety, accountability, and audit readiness. These digital rental services enable contractors and project owners to ensure safer operations and optimize inventory usage, laying the foundation for scalable and trackable access-as-a-service models.

INDIA ALUMINUM SCAFFOLDING MARKET, VALUE IN INR CRORES, SALES MODEL, 2019-2030

CAGR (2024 - 2030): 9.86%

The Sales Model segment of the India Aluminum Scaffolding Market studied was valued at INR 529.52 crores in 2024 and is expected to reach INR 930.72 crores in 2030, registering a CAGR of 9.86% for the forecast period (2024-2030).

HISTORICAL PERFORMANCE (2019-2024):

Between 2019 and 2024, the adoption of aluminum scaffolding in India grew significantly, primarily due to the rapid development of urban infrastructure. This trend was particularly evident in metro corridors and mid-rise commercial real estate, where the need for lightweight and flexible systems became a priority. During this time, the demand for construction equipment in India experienced notable growth.

By 2024, modular scaffolding systems, including those made of aluminum, represented a substantial share of construction access tools in Tier-1 cities. This shift was largely driven by regulatory requirements emphasizing safety and site efficiency. Additionally, urban building mandates increasingly recommend aluminum scaffolding for use in maintenance zones.

FORECAST PROJECTIONS (2025-2030):

As India continues to advance its infrastructure projects under the National Infrastructure Pipeline and smart-city initiatives, the use of lightweight aluminum scaffolding is expected to rise. This is particularly relevant for applications such as interior fit-outs, periodic inspections, and Heating, Ventilation, and Air Conditioning (HVAC) access in projects that prioritize reusability and labor efficiency.

Rental providers and contractors are anticipated to increasingly prefer aluminum scaffolding for short-to-medium-term projects in corporate campuses and institutional buildings. This preference is likely to be influenced by a growing focus on sustainability and cost-efficiency, including the reduced potential for scrap material.

INDIA ALUMINUM SCAFFOLDING MARKET, VALUE IN INR CRORES, RENTAL MODEL, 2019-2030

CAGR (2024–2030): 10.54%

The Rental Model segment of the India Aluminum Scaffolding Market studied was valued at INR 768.96 crores in 2024 and is expected to reach INR 1403.08 crores in 2030, registering a CAGR of 10.54% for the forecast period (2024-2030).

HISTORICAL PERFORMANCE (2019-2024):

During 2023–24, companies such as 360 Degree Global Equipment Pvt. Ltd., based in Bengaluru, and The Creative Ladder, located in Chennai, actively promoted aluminum scaffolding rentals. They provided transparent pricing models, including daily and weekly rates, for products like 4-meter towers and stairway systems. These services primarily supported contractors in the construction, Mechanical, Electrical, and Plumbing (MEP), and industrial maintenance sectors.

In March 2024, a tender in West Bengal was issued for aluminum scaffolding spares to support operational maintenance. This development reflects the government's growing familiarity with aluminum scaffolding and its potential inclusion in maintenance-related contracts.

FORECAST PROJECTIONS (2025-2030):

The demand for short-term aluminum scaffolding rentals is anticipated to grow across both metro and non-metro regions. Fit-out contractors, general trades, and maintenance teams are expected to drive this trend, as they seek cost-effective solutions that eliminate the need for capital investment and storage. By 2024, firms in cities like Chennai, Bengaluru, and Delhi had already adopted platform-based pricing and weekly rental models.

As maintenance contracts and Public Sector Undertaking (PSU) tenders continue to rise, there is a strong likelihood that future tenders will incorporate rental frameworks. This is particularly relevant for environments requiring frequent access, such as hospitals, universities, and infrastructure corridors, where storage limitations or capital constraints may pose challenges.

STEEL SCAFFOLDING MARKET

USE CASES – STEEL SCAFFOLDING IN INDIAN INFRASTRUCTURE, INDUSTRY & HERITAGE PROJECTS

- Metro & Bridge Construction Support Systems
- Industrial Plant Turnaround & Maintenance
- Large-Scale Civil & Casting Projects
- Heritage Restoration & Facade Maintenance

KEY TRENDS:

INFRASTRUCTURE-DRIVEN STEEL DEMAND FUELS STEEL SCAFFOLDING GROWTH

As India continues to prioritize infrastructure development, the demand for steel is steadily increasing, with steel scaffolding playing a crucial role in enabling access and supporting formwork operations.

In Fiscal Year (FY) 24, India's consumption of finished steel reached 136 million tonnes (Mt), reflecting a ~13% growth compared to FY 23. Infrastructure and construction sectors collectively accounted for 60–68% of this consumption.

At a construction conclave held at IIT Patna in July 2025, industry experts emphasized that 46% of India's steel production is now directed toward infrastructure projects, highlighting steel's indispensable role in large-scale elevated construction activities.

ACCELERATED ADOPTION OF MODULAR SCAFFOLDING SYSTEMS (CUPLOCK/RING-LOCK)

Major infrastructure and building projects are increasingly adopting modular scaffolding systems, emphasizing faster assembly and improved safety compliance.

Infrastructure projects in Tier 1 cities, such as metro developments, smart city initiatives, and high-rise constructions, are moving away from traditional tube-and-coupler scaffolding. Instead, they are opting for modular systems like cuplock and frame scaffolds. This transition is motivated by the need for efficiency, standardized safety measures, and

the repeatability of modular designs, which align more effectively with IS compliance standards, including IS 2750 and IS 3696.

The growing regulatory focus on safety has further accelerated the adoption of modular scaffolding. These factory-engineered systems address compliance requirements—such as guardrails, load design, and stability—more effectively by reducing assembly errors and ensuring consistent adherence to safety standards on-site.

SUSTAINABILITY & REUSABILITY — CIRCULAR CONSTRUCTION IN SCAFFOLDING

Indian scaffolding suppliers are increasingly adopting environmentally responsible practices, focusing on modular reuse and minimizing waste.

For example, Cosmos Construction Machinery highlights that its scaffold components can be refurbished and reused up to 100 times across multiple 20-story buildings. This approach not only reduces material waste but also supports sustainable construction practices.

The adoption of highly reusable scaffolding systems is helping reduce reliance on timber and bamboo supports, contributing to deforestation prevention. These efforts align with broader sustainability goals, such as EPR (Extended Producer Responsibility) and green building certifications.

INDUSTRY COLLABORATIONS & INNOVATION PARTNERSHIPS

Collaborations between global scaffold system manufacturers and Indian firms are introducing advanced modular scaffolding technologies to local infrastructure projects.

In October 2024, Dutch company Scafom-rux entered into a strategic partnership with India's Kirtanlal Scaffolding & Formwork. This partnership aims to bring Cuplok and Ring lock systems to Indian infrastructure and industrial projects.

Such collaborations enable Indian manufacturers to enhance their product portfolios, adhere to international safety standards, and accelerate the adoption of factory-engineered systems in large-scale civil and Engineering, Procurement, and Construction (EPC) projects.

SAFETY-FIRST DIGITAL ADVANCEMENTS IN SCAFFOLD MONITORING

The integration of Internet of Things (IoT) and digital tools into scaffolding systems is transforming safety practices on Indian construction sites. and digital tools into scaffolding systems is transforming safety practices on Indian construction sites.

IoT-enabled sensors are now embedded in scaffolding structures to monitor real-time data, such as displacement, load stress, and platform tilt. These systems automatically send alerts when thresholds are exceeded, enabling timely interventions that can save lives.

Smart-scaffold management platforms, which combine Quick Response (QR) tracking and digital inspection logs, are being piloted in India after gaining traction globally.

INDIA STEEL SCAFFOLDING MARKET, VALUE IN INR CRORES, SALES MODEL, 2019-2030

CAGR (2024 - 2030): 9.69%

The Sales Model segment of the India Steel Scaffolding Market studied was valued at INR 1936.18 crores in 2024 and is expected to reach INR 3372.51 crores in 2030, registering a CAGR of 9.69% for the forecast period (2024-2030).

HISTORICAL PERFORMANCE (2019-2024):

The National Infrastructure Pipeline (NIP) in India, which encompasses over 7,400 infrastructure projects slated for completion by 2025, has been a key driver of increasing steel demand. This demand has been particularly notable in sectors such as railways, roads, urban transport, and energy. Consequently, the need for steel scaffolding, especially for formwork and elevated access applications, has remained consistent.

Although the construction equipment sector experienced a slowdown, with growth decelerating to approximately 3% in FY25 due to election-year restrictions and delays in project execution, the demand for scaffolding equipment demonstrated resilience. This was especially evident in critical infrastructure corridors.

FORECAST PROJECTIONS (2025-2030):

The execution of projects under the NIP, coupled with the development of industrial corridors and smart-city initiatives, is expected to drive the continued growth of steel usage in infrastructure. This sustained momentum is likely to support stable growth in the sales of advanced steel scaffolding solutions.

While demand for construction equipment may follow cyclical trends, the steady progress in infrastructure development—particularly in highways, metro rail, and energy sectors—will continue to create opportunities for steel scaffolding. This is especially true as formwork-intensive delivery models remain prevalent.

INDIA STEEL SCAFFOLDING MARKET, VALUE IN INR CRORES, RENTAL MODEL, 2019-2030

CAGR (2024–2030): 10.54%

The Rental Model segment of the India Steel Scaffolding Market studied was valued at INR 2684.77 crores in 2024 and is expected to reach INR 4897.50 crores in 2030, registering a CAGR of 10.54% for the forecast period (2024-2030).

HISTORICAL PERFORMANCE (2019-2024):

In FY 25, the Indian government allocated a significant INR 11.11 trillion (approximately 3.4% of GDP) for capital expenditure. This investment supported the use of rent-based scaffolding across metros, highways, and public works, reflecting the ongoing demand for flexible rental solutions in access systems.

Many contractors increasingly opted for rental frameworks due to challenges such as project seasonality and limited capital availability. Insights from the equipment sector reveal that approximately 67% of construction equipment sales were facilitated through rentals, emphasizing the growing preference for renting over ownership in India.

FORECAST PROJECTIONS (2025-2030):

With infrastructure spending expected to rise and capex remaining a priority in FY 26, the adoption of scaffold rental models is anticipated to grow further. Rentals provide contractors with scalability while eliminating the financial burden of ownership as project demands increase.

The increasing penetration of rentals is also being driven by digital platforms that enable the timely delivery of equipment. These platforms simplify the process of renting steel scaffolds, particularly for medium-sized contractors in metropolitan areas, thereby encouraging the wider adoption of modular steel scaffolding in access systems.

ALUMINUM AND STEEL HANGING SCAFFOLDING MARKET

USE CASES:

- High-Rise Building Facade Cleaning & Glass Maintenance
- Elevated Metro Pillar and Flyover Finishing
- Chimney And Stack Maintenance in Power/Industrial Plants
- Interior Overhead Access in Industrial Warehouses & Mechanical, Electrical, And Plumbing (Mep) Fit-Outs.

KEY TRENDS:

SURGING HIGH-RISE & ELEVATED INFRASTRUCTURE ACTIVITY

India's urban infrastructure is expanding upward, with metro rail corridors, high-rise towers, and elevated expressways driving demand for aluminum and steel hanging scaffolding systems. Projects like the Delhi and Bengaluru Metro require suspended scaffolding for pier and span work at heights of 25–30 meters in congested areas. Certified systems, compliant with CPWD specifications and IS 15764 guidelines, are now mandatory, featuring dual-suspension support and fall arrest mechanisms. This has led builders to adopt durable aluminum and steel solutions over makeshift alternatives.

Aluminum scaffolds, known for their lightweight and easy repositioning, are commonly used in high-rise façade and cladding projects, while steel systems are favored for infrastructure projects requiring greater load capacity and stability. Stricter safety norms, audits, and penalties for uncertified methods have driven the adoption of certified scaffolding systems, reflecting India's construction growth and regulatory advancements.

TIGHTENING WORK-AT-HEIGHT REGULATIONS AND SAFETY STANDARDS

India's construction sector is under stricter regulations for work-at-height safety, particularly for suspended scaffolding systems. Concerns over fall-related fatalities and public infrastructure oversight are driving developers to adopt compliant solutions. For example, CPWD Safety Rule 1410 requires suspension points to support four times the maximum intended load and mandates daily inspection logs, making traditional bamboo scaffolds non-compliant and boosting demand for aluminum and steel alternatives.

New Standard Operating Procedures (SOPs) require scaffolding systems to be tagged, certified, and re-inspected weekly or after weather-related damage. With liability for accidents shifting to contractors and equipment owners, developers face penalties or delays without proper maintenance and inspection records. These changes are transforming procurement practices, positioning aluminum and steel hanging scaffolds as the preferred choice for safety and compliance.

RENOVATION, MAINTENANCE & REPEAT-SERVICE DEMAND DRIVES HANGING SCAFFOLDING

The increasing focus on urban maintenance and renovation in India is driving demand for suspended scaffolding. Tasks like façade cleaning, repainting, joint sealing, and structural repairs in high-rise and mid-rise buildings have made suspended access systems indispensable. A 2024 market summary highlights that growing refurbishment activities are fueling repeated use of hanging platforms. For instance, Kolkata's New Market clock tower restoration relied on scaffolding for precise repairs despite limited ground access.

Industrial maintenance, such as cooling tower inspections and chimney cleaning, also depends on reusable hanging systems for safe and efficient operations. Aluminum scaffolds are preferred for lighter tasks, while steel platforms handle heavier interventions. These recurring needs make renting suspended scaffolding a cost-effective and reliable solution for elevated work environments.

HISTORICAL PERFORMANCE (2019-2024):

Over the past few years, the demand for aluminum and steel hanging scaffolding has grown steadily in major cities, driven by Engineering, Procurement, and Construction (EPC) contractors and metro infrastructure projects. Many contractors have chosen to purchase their equipment outright to avoid delays associated with rentals and to ensure full compliance with safety standards outlined in Indian Standard (IS) 3696 and the Building and Other Construction Workers (BOCW) Act.

Additionally, there has been a clear shift toward modular aluminum systems, particularly in high-rise commercial and residential projects. Developers and contractors in metropolitan areas have increasingly moved away from traditional tubular steel setups, favoring lighter and faster-to-assemble options that align more effectively with modern construction timelines.

FORECAST PROJECTIONS (2025-2030):

Looking ahead, the adoption of turnkey and Design-Build-Operate (DBO) infrastructure contracts is expected to encourage more contractors to invest in standardized hanging scaffolding. The flexibility these systems offer, along with their long-term compliance benefits, is anticipated to be a significant driver of this trend.

As worker safety regulations become more stringent, particularly with respect to IS3696 standards, private developers are likely to increasingly invest in owning their scaffolding systems. This approach not only minimizes the risk of project delays but also helps developers avoid penalties or legal challenges during inspections.

HISTORICAL PERFORMANCE (2019-2024):

During the period from 2019 to 2024, India's urban infrastructure witnessed significant growth, with projects such as metros, bridges, and smart city initiatives expanding at a rapid pace. To manage operational costs effectively and avoid the burden of idle assets, many contractors increasingly rely on rental hanging scaffolding solutions. In response to this growing demand, rental firms expanded their fleet sizes, particularly in Tier 1 cities.

Government-led infrastructure programs, including the National Infrastructure Pipeline and smart city missions, further encouraged firms to adopt rental solutions. Between 2022 and 2024, there was a notable rise in the use of specialized aluminum and steel hanging scaffolds, especially for short-cycle construction projects in key urban centers like Mumbai, Delhi, and Bangalore.

FORECAST PROJECTIONS (2025-2030):

Looking ahead to the period from 2025 to 2030, the demand for rental scaffolding solutions is expected to grow further. Ongoing large-scale infrastructure projects and an increase in retrofitting and restoration activities, such as upgrades to older metro lines and bridges, will likely drive this growth. Modular aluminum and steel hanging systems, which are well-suited for intermittent and project-specific access needs, are anticipated to play a pivotal role in meeting this demand.

Rental providers are evolving their offerings to include comprehensive services, such as certified setup crews, maintenance support, and Internet of Things (IoT)-enabled condition monitoring. These value-added services are fostering trust and repeat business from EPC players and facility managers, who seek dependable access solutions without the long-term commitment of ownership.

ALUMINUM STAIRWAY TOWER MARKET

USE CASES:

- Construction And Building Maintenance
- Industrial Settings
- Infrastructure Development
- Commercial And Retail Spaces
- Aviation
- Events And Entertainment

INDIA ALUMINUM STAIRWAY TOWER MARKET, VALUE IN INR CRORES, SALES MODEL, 2019-2030
CAGR (2024 - 2030): 10.06%

The Sales Model segment of the India Aluminum Stairway Tower Market studied was valued at INR 123.57 crores in 2024 and is expected to reach INR 219.61 crores in 2030, registering a CAGR of 10.06% for the forecast period (2024-2030).

HISTORICAL PERFORMANCE (2019-2024):

Between 2019 and 2024, sales of aluminum stair towers in India surged, riding the wave of a nationwide construction boom. Fueled by rapid urbanization and a slew of government infrastructure initiatives – from roads and housing to metro lines – contractors increasingly opted to buy durable aluminum towers for their projects, rather than renting them.

During this timeframe, there was a noticeable shift towards lightweight modular systems. Aluminum towers, known for their easy assembly and adherence to stringent safety standards, became the preferred choice. Industry reports highlight the rising popularity of aluminum scaffolding among contractors, citing its lightweight nature, rust resistance, and ease. Notably, sales of stair towers were bolstered by construction and industrial maintenance endeavors, such as work in factories and power plants.

FORECAST PROJECTIONS (2025-2030):

From 2025 to 2030, ongoing infrastructure and housing projects will keep generating orders, particularly from large developers purchasing towers for frequent or long-term use.

Manufacturers are innovating with lighter, stronger aluminum designs and eco-friendly materials to meet sustainability goals. However, rentals are likely to capture more of the market, as many contractors prefer pay-per-use models to avoid tying up capital. Key trends include a further shift to modular, reusable systems and digital support (e.g., design apps, inventory management) that enhance efficiency and safety. Despite robust demand, sales growth grapples with challenges from ongoing aluminum price volatility and mounting competition from rental services.

INDIA ALUMINUM STAIRWAY TOWER MARKET, VALUE IN INR CRORES, RENTAL MODEL, 2019-2030

CAGR (2024–2030): 10.67%

The Rental Model segment of the India Aluminum Stairway Tower Market studied was valued at INR 204.38 crores in 2024 and is expected to reach INR 375.53 crores in 2030, registering a CAGR of 10.67% for the forecast period (2024-2030).

HISTORICAL PERFORMANCE (2019-2024):

Small and mid-sized contractors, seeking towers for short-term or project-specific needs, increasingly turned to rentals. This shift not only alleviated capital expenditure burdens but also removed the maintenance obligation, making rentals especially appealing for seasonal projects. Rentals initially gained traction in metros and industrial hubs, where construction activity was significantly high, due to the demand for cost-effective and flexible solutions.

Over time, their utility expanded to other sectors. Beyond construction, rentals became indispensable in facility maintenance, utilities, event management, and industrial turnarounds. These industries benefited from the flexibility and reduced financial risks associated with rentals, enabling them to address project-specific requirements efficiently without long-term commitments.

FORECAST PROJECTIONS (2025-2030):

As more firms embrace asset-light models, rentals are set to surpass sales. The increasing preference for operational flexibility and cost efficiency drives this shift. An expansion into Tier 2 and Tier 3 cities is on the horizon, fueled by rising demand for rental services in these regions.

Enhancements in service delivery will stem from online booking portals, Internet of Things (IoT)-driven inventory tracking, and advanced fleet management platforms, which are expected to streamline operations and improve customer satisfaction. To draw in major corporate clients, rental firms are turning their focus towards premium, safety-certified aluminum towers, which offer enhanced durability and compliance with safety standards. With mounting competitive pressures, the industry may witness a wave of mergers and alliances, paving the way for organized players to take the lead in the market and consolidate their positions.

SCAFFOLDING MARKET- KEY MARKET DRIVERS

1. ROBUST INFRASTRUCTURE DEVELOPMENT

The infrastructure development initiatives in India are significantly driving the growth of the ladder and scaffolding market. Government-led projects and increased investments in infrastructure are creating substantial demand for these essential construction tools.

Government initiatives, such as the National Infrastructure Pipeline (NIP), Smart Cities Mission, and expansions of metro rails, airports, and highways, are driving a surge in demand for ladders and scaffolding. These projects require extensive use of ladders and scaffolding for construction, maintenance, and repair activities.

Large-scale commercial and residential real estate projects are further accelerating the usage of ladders and scaffolding. These tools are indispensable for construction, repairs, and façade work, making them critical components in the real estate sector.

In February 2025, the interim budget for FY 2025-26 earmarked a substantial INR 11,210 billion (USD 134.5 billion) for infrastructure development, with a focus on transport, energy, urban development, and digital connectivity to spur economic growth. For FY 2025-26, the government boosted the Road Transport and Highways Ministry's budget to INR 2,873.33 billion, marking a 2.43 percent rise from the previous year's INR 2,805.18 billion. The National Highways Authority of India (NHAI) also saw its budget swell to INR 1,878.03 billion, up from last year's INR 1,693.71 billion.

Furthermore, the Maritime Development Fund received an allocation of around INR 250 billion for FY 2025-26, aiming to bolster private sector involvement and enhance maritime infrastructure. These measures, alongside the policy announcements and tax proposals outlined in this alert, underscore the government's comprehensive approach to strengthening India's infrastructure and laying the groundwork for sustainable economic growth.

In conclusion, the Indian government's focus on infrastructure development is directly boosting the ladders and scaffolding market. The increasing investments and large-scale projects are creating a robust demand for these essential tools, positioning the market for significant growth in the coming years.

2. SHIFT TOWARDS ALUMINUM-BASED AND MODULAR PRODUCTS

The scaffolding market in India is experiencing a transformative boost, driven by the adoption of aluminum-based and modular products. This shift is underpinned by the need for enhanced safety, efficiency, and long-term cost-effectiveness, making these products a preferred choice over traditional steel or bamboo alternatives.

One of the key factors driving this growth is the lightweight nature of aluminum scaffolding, which is up to 50% lighter than steel. This feature simplifies transportation, assembly, and dismantling, significantly reducing labor requirements and worker fatigue. For example, a 10 m aluminum tower can be erected in just 15-20 minutes, compared to approximately an hour for mild steel scaffolding. This efficiency accelerates project timelines and lowers labor costs, particularly for projects requiring frequent repositioning or those located in remote or challenging areas.

Another critical factor is aluminum's natural resistance to corrosion, which eliminates the need for galvanization or painting, as required for steel. This makes aluminum ladders and scaffolds ideal for India's diverse climatic conditions, including humid and coastal regions.

Safety features in modular aluminum systems also play a significant role in boosting the market. These systems often include non-slip platforms, integrated ladders, guardrails, and secure locking mechanisms. Their lightweight design reduces the risk of injuries during handling and assembly.

Additionally, aluminum's non-conductive property, when appropriately insulated, enhances safety for electrical work. Products from manufacturers like Sendhamarai Engineering and Bharath Ladders incorporate built-in access ladders, anti-slip surfaces, and lockable caster wheels, ensuring safer working environments and compliance with safety standards such as the Indian Standard (IS) 3696 and Occupational Safety and Health Administration (OSHA) regulations.

In conclusion, the adoption of aluminum-based and modular products is fundamentally transforming the scaffolding market in India. By offering tangible benefits in terms of safety, efficiency, and cost savings, these products enable the construction and industrial sectors to execute projects faster, safer, and more sustainably. Manufacturers and rental providers across the country are actively responding to this demand by introducing a diverse range of innovative aluminum and modular access solutions, further driving market growth.

EXPANSION OF ORGANIZED RENTAL NETWORKS

The ladder and scaffolding market in India are experiencing significant growth, driven by the expansion of organized rental networks. These networks are providing cost-effective and flexible solutions, particularly for businesses with infrequent or project-based needs. This trend is further supported by the construction boom, rapid urbanization, and a growing preference for renting over purchasing across various industries.

Organized rental networks are boosting the ladder and scaffolding market in India through the following factors:

Cost-Effectiveness: Renting eliminates the high upfront costs associated with purchasing ladders and scaffolding, making it a budget-friendly option for businesses, especially startups and those with limited capital.

Convenience: Rental services offer access to a wide range of equipment without the burden of maintenance, storage, or eventual disposal. This is particularly appealing to businesses with short-term projects or fluctuating needs.

Access to Advanced Equipment: Rental networks provide a variety of specialized ladders and scaffolding, including those with advanced features. This allows businesses to utilize the right equipment for specific tasks without significant investment.

In conclusion, the organized rental networks in India are playing a pivotal role in driving the growth of the ladder and scaffolding market. By offering cost-effective, convenient, and advanced solutions, these networks are meeting the evolving needs of businesses, particularly those with project-based or short-term requirements. This trend is expected to continue shaping the market in the coming years.

INSIGHTS ON GOVERNMENT INITIATIVES AND REGULATIONS

The Indian scaffolding market is witnessing robust growth, propelled by a surging construction sector and heightened government emphasis on infrastructure development. This expansion is closely linked to a series of government initiatives and stringent regulations; all aimed at upholding safety and quality standards.

Government Initiatives Fueling the Scaffolding Market:

Infrastructure Investments: The Indian government is channeling significant funds into vast infrastructure undertakings, spanning roads, power plants, smart cities, and industrial corridors. Such endeavors inherently boost the demand for scaffolding, a vital element in construction.

As an illustration, the Union Budget 2024 earmarked considerable capital for infrastructure, including INR 11.11 Lakh crores for general infrastructure, INR 10 Lakh crores for the PM Awas Yojana Urban 2.0 (targeting affordable housing), and INR 26,000 crores dedicated to road connectivity projects.

Furthermore, initiatives like the National Infrastructure Pipeline (NIP) amplify the need for scaffolding systems in expansive construction projects.

Affordable Housing Initiatives: Schemes such as the Pradhan Mantri Awas Yojana (PMAY) have spurred the creation of millions of housing units, significantly bolstering the demand for scaffolding.

Renewable Energy Ambitions: India's bold renewable energy targets, such as achieving 500 GW by 2030, are catalyzing extensive energy infrastructure projects, necessitating comprehensive scaffolding solutions.

Local Manufacturing Push: The overarching "Make in India" initiative, while not solely focused on scaffolding, champions domestic production of construction materials. This not only bolsters the scaffolding industry but also spurs local innovation

Skill Development Emphasis: Acknowledging the importance of a skilled workforce, the government promotes programs like the National Initiative for Promoting Upskilling of Nirman. Such initiatives aim to equip construction workers with modern technologies, enhancing scaffolding safety and efficiency.

Regulatory Framework and Safety Standards in India's Scaffolding Market:

India's scaffolding operations are governed by a comprehensive set of regulations and standards, ensuring safety and quality. Key highlights include:

Bureau of Indian Standards (BIS) Oversight: The BIS is instrumental in establishing benchmarks for scaffolding materials and methodologies. Notable Indian Standards (IS codes) encompass:

INSIGHTS ON GOVERNMENT INITIATIVES AND REGULATIONS

- IS 3696 (Parts 1 & 2): This standard delineates the safety protocols for scaffolds and ladders. Part 1 emphasizes structural design and construction, while Part 2 addresses safety measures during operation.
- IS 4014 (Parts 1 & 2): This standard outlines the best practices for steel tubular scaffolding, detailing definitions, materials, and safety measures.
- IS 2750:1964: While this standard lays down the criteria for steel scaffolding, there's a consensus on the necessity to revise it, integrating contemporary practices and materials, especially modular scaffolding.

The Building and Other Construction Workers' (Regulation of Employment and Conditions of Service) Central Rules, 1998: This legislation mandates stringent safety and health protocols for construction workers, emphasizing the need for adequate scaffolding. It also stipulates that metal scaffolds must meet national standards.

FUTURE GROWTH OUTLOOK

The Indian scaffolding market is experiencing significant growth, driven by large-scale infrastructure projects, rising real estate and industrial activity, and a shift towards advanced modular systems. Stricter safety regulations and sustainability initiatives further support this growth, positioning the market for steady expansion through 2033.

Massive Public Infrastructure Spending

- National Infrastructure Pipeline (NIP): NIP plans projects worth over INR 111 trillion (~USD 1.34 trillion) through 2025, with highways, metros, and airports driving a surge in scaffolding demand.
- Smart Cities Mission: From 2015 to 2025, 7,479 of the 8,058 Smart Cities projects consumed INR 150,002 crore (~USD 18 billion) in infrastructure works, directly fueling scaffolding needs for urban retrofitting and new builds.
- AMRUT (Atal Mission for Rejuvenation & Urban Transformation): Since 2015, AMRUT has allocated INR 78,910 crore (~USD 10 billion) for water, sewerage, and urban network projects, further bolstering scaffolding demand.

Surging Real Estate & Industrial Activity

- Residential and commercial construction, buoyed by initiatives like PMAY (Pradhan Mantri Awas Yojana) and corporate capital expenditure, is driving a robust demand for modular scaffolds.

- Industrial corridor expansions, such as Delhi–Mumbai and Chennai–Bengaluru, necessitate large-span, high-load scaffolding systems.

Shift to Advanced Modular & System Scaffolding

- Contractors are transitioning from traditional tube-and-clamp or bamboo scaffolds to prefabricated, system-based aluminum and steel modules, citing benefits like faster erection, enhanced safety, and reusability.
- This shift, commanding premium pricing, bolsters rental business models and elevates average project revenues.

Stricter Safety & Sustainability Norms

- With Bureau of Indian Standards (BIS) standards (e.g., IS 3696) and National Building Code (NBC) guidelines in force, there's a push for engineered scaffolds and fall-arrest systems, leading to a rise in higher-margin product usage.
- There's a growing focus on eco-friendly materials, such as recyclable aluminum and low-Volatile Organic Compound (VOC) coatings, aligning with corporate Environmental, Social, and Governance (ESG) objectives and green building certifications.
- In summary, bolstered by substantial infrastructure investments and a pivot towards safer, modular products, the Indian scaffolding market is poised for steady growth. While challenges like raw material volatility and labor constraints loom, advancements in digital monitoring, rental services, and skills development will spotlight the frontrunners in a projected mid-single-digit growth landscape through 2033.

CHALLENGES

The Indian scaffolding market faces several challenges that hinder its growth and development. These challenges, if not addressed, could impact the safety, efficiency, and profitability of market players. Below are the key threats affecting the industry:

Surge of Unregulated, Budget Providers

Approximately 95% of construction projects in India continue to depend on traditional tube-and-clamp or bamboo scaffolding, predominantly sourced from a multitude of small, unlicensed operators. This fragmented market not only drives down prices but also leads to inconsistent safety and quality standards, ultimately squeezing the profit margins of organized, certified suppliers.

Recurring Safety Mishaps & Associated Liabilities

Scaffolding failures pose a significant threat: Bonafide Research highlights that accidents stemming from scaffold collapses or improper setups are “common,” escalating risks of site shutdowns, insurance costs, and legal battles for both contractors and rental firms.

Severe Shortage of Trained Scaffold Erectors

India’s booming infrastructure sector is grappling with a labor shortage. In July 2024, L&T highlighted a deficit of 25,000–30,000 construction workers, including certified scaffolders, leading to project delays and soaring labor costs as companies vie for limited talent.

Significant Initial Investment for Premium Materials & Systems

Shifting from basic tube-and-clamp setups to advanced modular aluminum or steel systems brings enhanced safety and efficiency but requires a hefty capital investment. Due to these financial hurdles, many small contractors opt out of quality alternatives, risking safety and performance.

Regulatory Disparities & Compliance Challenges

While the stringent enforcement of BIS/IS 3696 standards and the Building & Other Construction Workers Act bolsters on-site safety, inconsistent interpretations at the state level and irregular inspection practices can lead to fines, project holdups, and reputational harm for companies that falter in compliance.

In conclusion, the Indian scaffolding market is navigating a complex landscape marked by unregulated competition, safety concerns, labor shortages, high material costs, and regulatory challenges. Addressing these issues will be critical for fostering a safer, more efficient, and profitable market environment

THREATS

Fragmented competition from unorganized players: The Indian scaffolding market is fragmented, dominated by numerous unorganized players. These smaller firms often turn to traditional, cost-effective materials like bamboo. While these materials reduce costs, they compromise safety. This poses a significant threat to organized players who emphasize high-quality, modern scaffolding systems. The unorganized sector's competitive pricing attracts cost-conscious contractors, intensifying competition and hindering organized players from solidifying their market presence.

Awareness gaps in safety standards: Government regulations and safety standards for scaffolding exist, yet awareness and adherence are inconsistent. This inconsistency is especially pronounced in smaller projects and Tier-II and Tier-III cities. Such awareness gaps hinder manufacturers of advanced, safety-compliant scaffolding from effectively competing against cheaper, non-compliant alternatives. The threat is further magnified by weak enforcement mechanisms and a scarcity of training programs for workers, complicating the push for safer scaffolding practices.

Modular systems demand hefty investments: Modular and system scaffolding, known for their safety and efficiency, come with a steep price. This significant upfront cost can deter small and mid-sized contractors, who often opt for more affordable solutions to manage cash flow in developing economies. The expense of modular systems is heightened by the necessity for specialized training, making them even less accessible to smaller market players.

Raw material price volatility: The scaffolding industry relies heavily on materials like steel and aluminum. Fluctuations in these raw material prices can significantly impact production costs, threatening manufacturers' ability to maintain stable pricing and profitability. These price changes often stem from global supply chain disruptions, geopolitical tensions, and shifts in demand across industries. For example, between Q2 FY 2019 and Q2 FY 2025, steel prices in major Indian cities saw a notable uptick. In Chennai and Hyderabad, prices climbed from INR 48/kg to INR 66/kg. Bangalore's prices jumped from INR 48/kg to INR 65/kg. Pune's prices ascended from INR 48/kg to INR 64/kg, while Mumbai's rose from INR 48/kg to INR 63/kg. Delhi witnessed a rise from INR 47/kg to INR 63/kg. This trend underscores a consistent six-year rise in steel prices across all analyzed cities.

Overall, the Indian scaffolding market faces significant threats, including competition from unorganized players, inconsistent safety standard adherence, high costs of modular systems, and raw material price volatility. Addressing these threats requires a concerted effort from stakeholders to promote safety awareness, enforce regulations, and provide cost-effective solutions to ensure sustainable growth in the market.

OVERVIEW OF CONSTRUCTION AND INFRASTRUCTURE SECTOR IN INDIA

OVERVIEW OF INDIA'S INFRASTRUCTURE AND CONSTRUCTION LANDSCAPE

In February 2025, the interim budget for FY 2025-26 allocated INR 11,210 billion for infrastructure development, prioritizing transport, energy, urban development, and digital connectivity to stimulate economic growth.

For the fiscal year 2025-26, the government allocated INR 2,873.33 billion to the Road Transport and Highways Ministry, reflecting a 2.41 percent increase from the previous year's allocation of INR 2,805.18 billion. Additionally, the budget for the state-owned National Highways Authority of India (NHAI) increased to INR 1,878.03 billion, compared to INR 1,693.71 billion in the prior year.

Moreover, for FY 2025-26, approximately INR 250 billion was allocated to the Maritime Development Fund to encourage private sector participation and strengthen maritime infrastructure. These initiatives, along with the policy announcements and tax proposals outlined in this alert, highlight the government's comprehensive strategy to enhance India's infrastructure and establish a robust foundation for sustainable economic progress.

CHANGE % ON GDP FROM CONSTRUCTION, Q3 (OCT - DEC) FY 2021 TO Q3 (OCT - DEC) FY 2025, INDIA

THE ECONOMIC IMPLICATIONS OF INFRASTRUCTURE INVESTMENT

In the past decade, India has embarked on an ambitious infrastructure development journey, aiming to rejuvenate its economy. To bolster this endeavor, in February 2025, the government proposed a staggering INR 11,210 billion for capital expenditure, representing 3.1% of the nation's GDP, earmarked in FY 2025-26.

This allocation has seen a meteoric rise, increasing over fivefold in the last decade. Notably, the most pronounced surge in CAPEX occurred in the past five years, boasting an impressive annual growth rate of 27%. Looking ahead, the government pledges to maintain this momentum, ensuring robust fiscal support for infrastructure.

This commitment is further underscored by the rising share of the Centre's capital expenditure directed towards infrastructure, jumping from 28% in FY 2014-15 to an anticipated ~60% in FY 2025-26F alongside its other priorities.

These milestones were propelled by the government's strategic interventions, including the establishment of the National Infrastructure Pipeline (NIP) with projects worth INR 111,000 billion, the National Monetization Pipeline (NMP) valued at INR 6,000 billion, and the PM Gati Shakti National Master Plan.

Furthermore, large-scale national programs like Bharatmala, Sagarmala, the Regional Connectivity Scheme-UDAN, Dedicated Freight Corridors, the High-Speed Rail network, Railway Station Redevelopment, BharatNet, Jal Jeevan Mission, Atal Mission for Rejuvenation and Urban Transformation (AMRUT), and the Smart Cities Mission have all played pivotal roles... Phase IV of Pradhan Mantri Gram Sadak Yojana (PMGSY) is set to enhance connectivity for 25,000 rural residents.

GOVERNMENT POLICIES AND BIG-TICKET INITIATIVES (SMART CITIES, HOUSING FOR ALL, ETC.)

Initiated in June 2015, the Smart Cities Mission aimed to enhance urban infrastructure and services across 100 cities, seamlessly integrating technology with sustainability and improved quality of life. By January 2025, an impressive 93% of the projects (7,507 out of 8,058) had reached completion, with a substantial investment of INR 1,470 billion (USD 17.19 billion).

This investment has led to the successful rollout of initiatives such as smart water pipelines, intelligent traffic systems, e-health centers, Closed-Circuit Television (CCTV) installations, and upgrades in urban mobility. While the mission officially concluded on March 31, 2025, the generated momentum and established institutional frameworks continue to serve cities, paving the way for scalable models in future urban development.

Since its inception in 2015, the Pradhan Mantri Awas Yojana (PMAY) has been pivotal in reshaping India's housing landscape, both in urban and rural settings. With over 4.21 crore homes sanctioned, many have been completed and occupied. Initiatives like the Credit Linked Subsidy Scheme (CLSS), Affordable Housing in Partnership (AHP), Beneficiary Led Construction (BLC), and In-Situ Slum Redevelopment (ISSR) have played a crucial role in upgrading slum dwellings into safe, amenity-rich homes.

In June 2024, the government greenlit PMAY-U 2.0, setting an ambitious goal of adding one crore urban houses. This endeavor is bolstered by a massive investment of INR 10,000 billion (USD 120 billion) and augmented credit guarantees through the Credit Risk Guarantee Fund Trust for Low Income Housing (CRGFT), now under the stewardship of the National Credit Guarantee Trustee Company Ltd. (NCGTC). By March 2025, approvals for over 3.53 lakh homes in underserved categories were granted, underscoring a commitment to inclusivity: over 2.67 lakh homes were allocated to women, alongside specific provisions for Scheduled Caste (SC), Scheduled Tribe (ST), Other Backward Class (OBC), and transgender beneficiaries.

Uttar Pradesh has seen a significant allocation of INR 120.31 billion (USD 1.40 billion) under PMAY-U 2.0, emphasizing geo-tagging, progress monitoring, and disaster-resilient designs. Overall, PMAY stands as a formidable catalyst, driving GDP growth, expanding housing finance, boosting demand for materials, and generating employment in construction-related sectors

OVERVIEW OF LADDERS INDUSTRY

INDIA LADDERS MARKET, VALUE IN INR CRORES, 2019-2030

CAGR (2024 - 2030): 8.65%

The India Ladders Market studied was valued at INR 1358.27 crores in 2024 and is expected to reach INR 2233.90 crores in 2030, registering a CAGR of 8.65% for the forecast period (2024-2030).

HISTORICAL PERFORMANCE (2019–2024)

From 2019 to 2024, demand for ladders surged in India, driven by sectors like construction, manufacturing, and facilities maintenance. This uptick was largely a response to the nation's swift urbanization and ongoing infrastructure projects.

As workplace safety standards tightened, industries such as construction, oil & gas, and electrical manufacturing increasingly turned to certified, high-quality ladder solutions.

Online retail platforms broadened access to ladder products, further propelling market growth. Consumers showed a growing inclination towards lightweight, portable, and multi-purpose ladders, appealing to both professionals and DIY enthusiasts.

FORECAST PROJECTIONS (2025–2030)

Spurred by rapid urbanization, residential and commercial construction is expected to remain a significant driver of the ladder market in India during the forecast period. As industries increasingly prioritize safety, the demand for certified, high-quality ladders is set to grow.

Furthermore, there's a noticeable market shift towards lightweight, multi-functional, and easily storable ladders, thanks in part to advancements in aluminum, fiberglass, and composite materials.

FRP LADDERS - SALES MODEL

INDIA FRP LADDERS MARKET, VALUE IN INR CRORES, SALES MODEL, 2019-2030

CAGR (2024 - 2030): 9.97%

The Sales Model segment of the India FRP Ladders Market studied was valued at INR 137.29 crores in 2024 and is expected to reach INR 242.80 crores in 2030, registering a CAGR of 9.97% for the forecast period (2024-2030).

Growth of FRP Ladder Market in India

India's consumption of Fiber-Reinforced Plastic (FRP) Ladders is on the rise, driven by heightened industrial safety standards and expansions across sectors like utilities, telecom, oil & gas, and construction.

Take, for instance, the Indian government's endorsement of the Broadcasting Infrastructure & Network Development (BIND) scheme, spanning 2021-26, with a hefty budget of INR 25,396 million (USD 303.5 million).

This initiative focuses on modernizing the nationwide Doordarshan network. Currently, Doordarshan's Free Dish, a complimentary Direct to Home (DTH) service, boasts nationwide coverage. Moreover, the Andaman & Nicobar Islands benefit from a dedicated 10-channel C-Band Satellite DTH service.

Distribution platforms, including Direct to Home (DTH) and Headend in the Sky (HITS), utilize satellites and airwaves to broadcast TV channels. This capability allows them to cater to remote and hilly terrains, ensuring comprehensive coverage across India.

On another note, infrastructure investments in India have surged, influenced by both public and private sector contributions. Budget allocations for infrastructure spending skyrocketed to INR 1000 billion (USD 119.50 billion) in 2023-24. Such robust investments in infrastructure signal a promising trajectory for the FRP ladder market in India.

FRP LADDERS - RENTAL MODEL

INDIA FRP LADDERS MARKET, VALUE IN INR CRORES, RENTAL MODEL, 2019-2030

CAGR (2024 - 2030): 10.14%

The Rental Model segment of the India FRP Ladders Market studied was valued at INR 66.98 crores in 2024 and is expected to reach INR 119.54 crores in 2030, registering a CAGR of 10.14% for the forecast period (2024-2030).

FRP LADDER RENTAL MODEL IN INDIA

In the Fiber-Reinforced Plastic (FRP) Ladder market in India, specialist access-equipment providers, such as Y Equipment Services (formerly Youngman India), are increasingly shaping the FRP ladder rental model. With a pan-India network of 24 outlets, these firms offer both aluminum and FRP ladders. Before dispatch, these ladders undergo rigorous safety testing—including base slip, lateral deflection, bending, and torsion checks—to meet EN 131 standards. This safety certification is central to the model’s value proposition: companies rent ladders with confidence, assured of their compliance with workplace safety norms.

Clients, including construction contractors, industrial maintenance teams, and facility management firms, seek flexible height-access solutions without the burden of ownership. Rental providers enhance their offerings with services like delivery (including same-day in metros), on-site training, and ongoing inspections. The allure of renting is heightened for maintenance, electrical, Heating, Ventilation, and Air Conditioning (HVAC), and event-related projects, thanks to the combination of non-conductive FRP construction, certified compliance, and rapid availability.

DIVERSE FRP LADDER FLEET: MEETING VARIED INDUSTRIAL AND SAFETY NEEDS

The rental fleets boast a variety of FRP ladder types—straight self-supported ladders, platform-style units with wheels, telescopic variants, and integrated mobile platforms. These diverse offerings cater to a broad spectrum of needs, from indoor retail maintenance to industrial electrical tasks.

Providers like K2 Scaffold emphasize the safety edge of FRP ladders by offering rentals specifically for electrically insulated fiberglass ladders. These ladders are crucial for tasks like painting, bulb replacements, plastering, and working near live electrical installations—situations where aluminum ladders pose significant safety risks. This underscores the FRP ladder’s safety advantage and bolsters its rental appeal in sectors with sporadic access needs.

ALUMINUM LADDERS – SALES MODEL

INDIA ALUMINUM LADDERS MARKET, VALUE IN INR CRORES, SALES MODEL, 2019-2030

CAGR (2024 - 2030): 8.37%

The Sales Model segment of the India Aluminum Ladders Market studied was valued at INR 600.44 crores in 2024 and is expected to reach INR 972.72 crores in 2030, registering a CAGR of 8.37% for the forecast period (2024-2030).

HISTORICAL PERFORMANCE (2019-2024):

Over the past few years, as urban areas have expanded and governments have pushed infrastructure initiatives like smart cities and housing schemes, the demand for aluminum ladders has surged in India. Particularly, aluminum ladders, prized for their lightweight, durability, and resistance to corrosion, find extensive use in construction, utilities, telecommunications, and maintenance.

Additionally, heightened awareness and enthusiasm for home improvement, Do-It-Yourself (DIY) repairs, and gardening have driven up the demand for compact and user-friendly aluminum ladders. Among these, telescopic, folding, and multi-purpose variants have gained traction in residential settings.

FORECAST PROJECTIONS (2025-2030):

Industries are expected to turn increasingly to certified aluminum ladders equipped with advanced safety features, driven by stricter safety regulations and standards. For commercial and industrial users, adherence to international safety benchmarks like American National Standards Institute (ANSI) and the Occupational Safety and Health Administration (OSHA) is now pivotal in their purchasing choices.

In a bid to bolster ladder safety and usability, manufacturers in India are set to channel further investments into research and development, unveiling innovative designs and features. Consumers are showing a marked preference for innovations, including anti-slip treads, extendable frames, locking mechanisms, and versatile multi-functional ladders.

ALUMINUM LADDERS – RENTAL MODEL

INDIA ALUMINUM LADDERS MARKET, VALUE IN INR CRORES, RENTAL MODEL, 2019-2030

CAGR (2024–2030): 9.25%

The Rental Model segment of the India Aluminum Ladders Market studied was valued at INR 242.64 crores in 2024 and is expected to reach INR 412.52 crores in 2030, registering a CAGR of 9.25% for the forecast period (2024-2030).

HISTORICAL PERFORMANCE (2019-2024):

During the period from 2019 to 2024, companies and contractors in India, driven by a surge in infrastructure projects and short-term construction activities, increasingly turned to aluminum rental ladders over outright purchases, effectively optimizing their capital expenditure. These rental services offered businesses the flexibility to use ladders solely for the duration of specific projects.

Organized rental startups and platforms, such as Ladder Kart and RentSher, have emerged, prominently featuring aluminum ladders in their equipment catalogs. These platforms have streamlined the process with easy online booking, doorstep delivery, and pickup, significantly enhancing accessibility for small contractors and individual users.

Companies, especially Small and Medium Enterprises (SMEs) and startups, have increasingly turned to rental models, sidestepping hefty upfront costs and minimizing maintenance duties. This trend has gained notable traction in metropolitan and industrial centers like Mumbai, Bengaluru, and Delhi National Capital Region (NCR).

FORECAST PROJECTIONS (2025-2030):

During the forecast period, the pipeline of government initiatives, including the Smart Cities Mission, Industrial Corridors, and renewable energy projects, is poised to drive a consistent demand for short-term access equipment, notably rented aluminum ladders.

Technology-driven rental platforms are set to take the lead, boasting features like online booking, real-time availability checks, doorstep delivery, and flexible rental durations. By integrating Internet of Things (IoT) and asset tracking, these platforms aim to enhance ladder utilization and maintenance, thereby boosting renter trust.

LADDERS MARKET

MARKET DRIVERS

RISING DEMAND DRIVEN BY RAPID URBANIZATION

In India, rapid urban development and extensive infrastructure projects are driving up the demand for lightweight, portable access tools, notably aluminum ladders. This surge is especially pronounced in the industrial, telecom, and utility sectors, which prefer aluminum for its superior strength-to-weight ratio and resistance to corrosion.

According to a report by the Indian Brand Equity Foundation (IBEF), cities are poised to create 70% of net new jobs by 2030, contribute approximately 70% to India's GDP, and propel a nearly fourfold surge in per capita incomes nationwide. India's urban populace is set to swell to 590 million by 2030. To cater to this burgeoning urban demand, the economy must construct between 700 million and 900 million m² of residential and commercial space annually. These trends are fueling the market for ladders in India.

BOOM IN CONSTRUCTION & MANUFACTURING SECTORS FUELS THE MARKET

Widespread development and industrialization, especially in infrastructure construction, manufacturing, and maintenance, are fueling robust market growth for Fiber-Reinforced Plastic (FRP) ladders in India.

In the Union Budget for FY26, the government has boosted the capital investment outlay for infrastructure to INR 11.21 lakh crore (USD 128.64 billion), marking a significant 3.1% of the nation's GDP. To boost the infrastructure sector, the Indian government has unveiled the National Infrastructure Pipeline (NIP) alongside initiatives such as 'Make in India' and the Production-Linked Incentives (PLI) scheme.

According to the Indian Brand Equity Foundation (IBEF), India's manufacturing sector has attracted Foreign Direct Investment (FDI) amounting to INR 14,45,781 crore (USD 165.1 billion). This marks a 69% surge over the last decade, largely fueled by production-linked incentive (PLI) schemes. Over the next five years, Adani Group is set to invest

INR 30,237 crore (USD 3.46 billion) in Kerala, with a primary focus on infrastructure, logistics, and manufacturing. These trends indicate a demand for ladders in India.

INCREASING FOCUS ON SAFETY REGULATIONS

With a growing focus on fire retardancy, electrical safety, UV protection and overall safety, the market for Fiber Reinforced Polymer (FRP) ladders has been receiving a boost in India. FRP ladders offer key safety benefits like the prevention of electrical accidents and shocks, reduction in the risk of falls and injuries, enhancement of balance during work, and need for reduced maintenance.

FRP ladders, designed to meet stringent safety regulations, offer peace of mind to both employers and workers in India. By adhering to standards like European Norm 131 (EN131), these ladders undergo rigorous testing, ensuring they meet essential criteria for strength, stability, and performance.

THREATS

Low-Quality Imports & Counterfeit Products: India's open import channels facilitate a steady influx of cheap, uncertified ladders—often sourced from low-cost manufacturing hubs—that bypass rigorous safety norms. Such practices erode consumer trust, particularly in the wake of workplace accidents, and compel domestic players to compete primarily on price rather than quality. These low-quality imports not only compromise safety but also create a perception that ladders, as a product category, are unreliable, further impacting the market's growth potential.

Substitute Access Solutions: As industries increasingly turn to aerial lifts, scaffolding systems, and hydraulic platforms for quicker and safer access, traditional ladders are becoming less relevant in high-value projects, including industrial maintenance, airports, and major construction sites. This evolution confines ladder sales to smaller, low-margin segments. Additionally, the growing preference for these advanced solutions is driven by their ability to enhance worker productivity and safety, making them a more attractive option for large-scale projects.

Economic Slowdowns & Demand Fluctuations: Given the ladder market's close ties to India's construction, manufacturing, and infrastructure sectors, downturns—like real estate slumps or postponed public works—can lead to sudden order cancellations and inventory surpluses. These fluctuations not only disrupt the supply chain but also create financial strain for manufacturers, particularly those with limited cash flow or high inventory holding costs.

Price-Intensive Market Competition: The prevalence of unorganized sector players offering rock-bottom prices squeezes profitability for established brands. This "race to the bottom" stifles reinvestment in product innovation, durability enhancements, and compliance upgrades. Furthermore, the lack of stringent regulations allows these unorganized players to thrive, making it challenging for organized brands to differentiate themselves solely on quality and safety standards.

Weak Occupational Safety Culture: In small workshops, construction teams, and the informal service sector (comprising unregulated, small-scale, or unregistered businesses operating outside formal legal and safety norms), there's a pronounced lack of awareness regarding ladder safety. This oversight leads to a preference for price over safety compliance, resulting in stagnant demand for certified, premium ladders despite evident safety hazards. The absence of mandatory safety training and enforcement further exacerbates the issue, leaving workers vulnerable to accidents and injuries. The Indian ladder market faces significant threats from low-quality imports, substitute solutions, economic fluctuations, and weak safety awareness. These factors collectively challenge the market's ability to maintain quality, safety, and profitability, particularly in the face of price-driven competition.

CHALLENGES

Raw Material Price Volatility: Indian ladder manufacturers, heavily dependent on imported aluminum and fiberglass, find themselves at the mercy of global commodity price fluctuations. For instance, in 2022, the price surged to USD 2,705 per metric ton, up from USD 2,473 in 2021. Such sudden spikes can strain margins, especially for those locked into fixed-price contracts. This volatility also makes it difficult for manufacturers to plan long-term pricing strategies, impacting their competitiveness in both domestic and export markets.

Regulatory Compliance & Certification Costs: Securing Bureau of Indian Standards (BIS) certification or meeting European Norm/International Organization for Standardization (EN/ISO) standards demands significant investment in testing facilities, precision tooling, and rigorous quality audits. For many smaller Indian ladder manufacturers, these expenses often eclipse immediate market returns. Additionally, the lack of streamlined processes for obtaining certifications further increases the time and cost burden, discouraging smaller players from entering or expanding in the organized market.

Safety-Related Liability Risks: In India, frequent workplace accidents involving ladders pose legal and reputational challenges for manufacturers. When issues arise from defective products or misuse, the repercussions can be severe, leading to expensive recalls and insurance claims. Moreover, the growing awareness of workplace safety among end-users is increasing the scrutiny on manufacturers, making it imperative for them to invest in robust quality control and safety measures to mitigate liability risks.

Fragmented Supply Chain: The Indian ladder market's dependence on local dealers and small distributors results in inconsistent quality control. This fragmentation can lead to uneven after-sales support and mixed safety messaging across regions, undermining brand credibility. Furthermore, the lack of centralized distribution networks increases logistical inefficiencies, making it harder for manufacturers to ensure timely delivery and uniform product availability across the country.

Slow Pace of Technology Adoption: While global competitors are rolling out ladders featuring ergonomic designs, smart safety indicators, and eco-friendly materials, many Indian manufacturers, especially the smaller ones, are lagging in adopting these innovations. This delay causes them to miss lucrative opportunities in premium exports and urban markets. Additionally, the reluctance to invest in advanced manufacturing technologies stems from high initial costs and a lack of technical expertise, further widening the gap between Indian and global players in terms of product offerings. The challenges faced by the Indian ladder market, including raw material price volatility, regulatory costs, liability risks, supply chain fragmentation, and slow technology adoption, hinder its growth potential. Addressing these issues is critical for manufacturers to remain competitive and capitalize on emerging opportunities.

OUR BUSINESS

Some of the information contained in the following discussion, including information with respect to our plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read the section “Forward-Looking Statements” for a discussion of the risks and uncertainties related to those statements and also the section “Risk Factors” for a discussion of certain factors that may affect, financial condition, or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal are to the Twelve-month period ended March 31 of that year. Only to the extent explicitly indicated, industry and market data used in this section has been derived from the report titled “India Scaffolding and Ladders Market” dated August 11, 2025 (the “Mordor Report”), prepared and issued by Mordor Intelligence, commissioned by and paid for by our Company. The Mordor Report has been prepared and issued by Mordor Intelligence Private Limited for the purpose of understanding the industry exclusively in connection with the Issue. In this section, a reference to the “Company” or “we”, “us” or “our” means Msafe Equipments Limited.

OVERVIEW

Incorporated in 2019, we are engaged in the business of manufacturing, sales and rental of access and height-safety equipments, primarily used to facilitate safe working at heights. Our product portfolio includes aluminium scaffoldings, mild steel (MS) scaffoldings, aluminium ladders and fibre reinforced plastic (FRP) ladders, which are designed to meet varied operational and safety requirements across construction, maintenance, installation, repair and infrastructure development activities. These products provide safe and stable access for vertical and elevated operations, enabling workers to undertake a wide range of activities such as building exterior works (including facade and cladding installation), painting and plastering, HVAC and MEP works, electrical cabling and fittings, ceiling and interior finishing, fire-fighting works and warehouse stacking and retrieval, among others, while significantly reducing the risk of workplace accidents.

The India Scaffolding Market was valued at Rs. 7208.97 crores in 2024 and is expected to reach Rs. 12811.78 crores in 2030, registering a CAGR of 10.06% for the forecast period (2024-2030). The scaffolding industry is moving away from traditional bamboo and basic mild steel pipes to advanced, safety-certified systems like cup lock, ring lock, and Aluminium stairway towers. Aluminium scaffolding is becoming increasingly popular due to its lightweight nature, ease of transportation, rapid assembly, corrosion resistance and extended lifespan. (Source: Mordor Report)

The India Ladders Market was valued at Rs. 1,358.27 crores in 2024 and is expected to reach Rs. 2,233.90 crores in 2030, registering a CAGR of 8.65% for the forecast period (2024–2030). Growth in this sector is driven by infrastructure development, urbanization, industrial expansion, stringent safety regulations, and innovations in ladder design and materials. (Source: Mordor Report)

We offer various types of aluminium scaffoldings such as stairway, narrow-width, extra reach, podium, cantilever, and bridge sections. Aluminium scaffoldings are lightweight, modular systems known for rapid assembly and scalability. MS scaffoldings are steel structures used in long-duration construction and infrastructure projects that require higher structural strength and load-bearing capacity. Aluminium and FRP ladders include A-type, straight, platform and cage variants. Aluminium ladders are commonly used where mobility is required, while FRP ladders are non-conductive and suitable for electrical applications.

Our customer base extends across a wide spectrum of industries, including civil construction, infrastructure development, facility management, HVAC solutions, MEP contracting, interior contracting, electrical contracting, warehousing and logistics, firefighting and safety systems, among others. During FY 2024-25, we served more than 2,500 customers through both sales and rental channels.

Our revenues are derived from two primary sources – sale of products and rental services. Over the six months period ended September 30, 2025 and last three fiscal years, the rental model has consistently contributed significant portion to our revenues, accounting for 43.07% for the period ended September 30, 2025, 51.65% in FY 2024-25, 52.30% in FY 2023-24 and 62.97% in FY 2022-23. Under the rental model, we provide aluminium scaffoldings,

ladders and MS scaffoldings on weekly, fortnightly or monthly terms to customers across India. This model enables customers to access scaffolding systems without upfront capital investment, while providing us with recurring revenue streams. According to the Mordor Report, organized rental networks are expanding, providing cost-effective and flexible solutions, particularly benefiting Micro, Small, and Medium Enterprises (MSMEs) and Tier-II contractors with short-term project needs.

Product-wise revenue bifurcation:

Until FY 2022-23, our Company relied on third parties for the supply of aluminium scaffoldings, which were procured either through job-work or direct purchases. In FY 2023-24, we commenced in-house manufacturing covering aluminium scaffoldings, ladders (FRP and Aluminium) and MS scaffoldings, while earlier our product portfolio primarily comprised aluminium scaffoldings and aerial work platform (AWP) scissor lifts. In FY 2023-24, we not only expanded our product offering to include ladders (FRP and Aluminium) and MS scaffoldings but also transitioned from reliance on third-party sourcing to in-house manufacturing, thereby integrating production within our operations.

We carry out our manufacturing operations through three facilities located within the Industrial Estate of Greater Noida, Uttar Pradesh. These units are dedicated to specific product lines, with production covering aluminium scaffoldings, ladders (aluminium and FRP) and MS scaffoldings. While each facility is primarily allocated to a defined product category, certain components are also produced across units depending on order requirements.

Our operations are supported by a network of 21 warehouses located across Assam, Gujarat, Karnataka, Madhya Pradesh, Maharashtra, Odisha, Punjab, Tamil Nadu, Telangana, Chennai, and West Bengal. These facilities are used for storage, dispatch and collection of products supplied or rented to customers. They are also utilized for inspection, refurbishment, and quality checks of equipment returned under the rental model. The warehouses facilitate servicing of customers in the respective regions and support both our sales and rental operations.

We undertake in-house product development and design as part of our business operations, with a focus on developing safe and market-relevant access solutions. We employ industry-standard software tools such as SolidWorks and other CAD applications for structural and product design. As of the date of this Prospectus, our product development and design team comprises 4 employees who work in coordination with operations, procurement, production and quality control functions to ensure that products are manufacturable, compliant with applicable standards and aligned with end-user requirements.

During Fiscal 2025, we sold our products in India across 22 States and 3 Union Territories, including Maharashtra, Karnataka, Tamil Nadu, Delhi, Chandigarh and Dadra & Nagar Haveli & Daman and Diu, covering both sales and rental requirements of clients across different sectors and geographies. In addition to our domestic presence, we also exported our products to international markets such as the United Arab Emirates, Nigeria and Maldives, with exports contributing 2.23% of our total revenue during the year. As on December 31, 2025, our sales and marketing team comprised 48 employees, responsible for managing client relationships and overseeing sales operations. Overall, we had 350 permanent full-time employees at our units as of the same date.

We are led by an experienced management team comprising our Directors and Promoters, including Mr. Pradeep Aggarwal, Mr. Ajay Kumar Kanoi, and Mr. Rushil Agarwal. Mr. Pradeep Aggarwal, Promoter, Chairman, and Managing Director, has over 16 years of experience in the scaffolding industry and has been instrumental in driving the Company's overall growth and strategic direction. He is responsible for key decision-making and overall business operations. Mr. Ajay Kumar Kanoi, Promoter and Whole-Time Director, has approximately 14 years of experience in the scaffolding industry and currently oversees the Company's sales function. Mr. Rushil Agarwal, Promoter and Whole Time Director, has 5 years of experience and currently heads the production function, which involves overseeing manufacturing operations, planning, procurement, and coordination with logistics and quality control teams. We have also been recognized with industry accolades such as MSME Global Platinum Business Excellence Award 2025 and MSME Leadership Award 2022.

⁽¹⁾ Revenue from operation means revenue from sales, service and other operating revenues

⁽²⁾ EBITDA is calculated as Profit before tax + Depreciation + finance cost - Other Incomes

⁽³⁾ EBITDA Margin is calculated as EBITDA divided by Revenue from Operations

⁽⁴⁾ PAT is taken as Profit for the year attributable to the Shareholders of the Company

⁽⁵⁾ PAT Margin is calculated as Profit for the year attributable to Shareholders of the Company divided by revenue from operations.

⁽⁶⁾ Return on Equity is the ratio of Profit for the year attributable to Shareholders of the Company and Average Shareholder Equity.

⁽⁷⁾ Return on Capital Employed is calculated as EBIT divided by capital employed, which is defined as shareholders' equity plus long-term borrowings and short-term borrowings + deferred tax liability

⁽⁸⁾ The total number of customers has been determined from the sales register and includes both customers to whom sales have been made as well as those availing rental services.

OUR COMPETITIVE STRENGTHS

Multi-Model Source of Revenue through Product Sales and Rental Services

Our revenues are derived from two primary sources, namely product sales and rental services, providing us with a balanced and recurring stream of income. Over the period, the rental model has consistently contributed to our revenues, accounting for 43.07% for the period ended September 30, 2025, 51.65% in FY 2024-25, 52.30% in FY

2023-24 and 62.97% in FY 2022-23, with the balance derived from sales. While sales contribute to one-time revenue generation, the rental model provides recurring income and revenue predictability. Under the rental model, aluminium scaffoldings, ladders and MS scaffoldings are provided to customers across India on weekly, fortnightly or monthly terms, generally supported by advance payments and security deposits. This multi-model source of revenue enables us to cater to both long-term infrastructure and industrial projects as well as short-term site requirements, thereby diversifying our revenue base.

Some of the notable work/purchase orders executed by us in the sales and rental model in the last three fiscal years include: -

In-House Manufacturing facilities supported by quality certifications

Our manufacturing operations are carried out across three facilities located within the Industrial Estate of Greater Noida, Uttar Pradesh. As on the date of Prospectus, the facility at G-103, Site-V, Kasna, UPSIDC, Greater Noida, District Gautam Budh Nagar has an installed capacity of 720,000 kg per annum and is primarily utilized for the production of ladders. The second facility, located at K-446, Industrial Unit, Surajpur Site-V, UPSIDA, Noida, Gautam Budh Nagar has an installed capacity of 7,92,000 kg per annum and is primarily utilized for the production of aluminium scaffoldings. Depending on production requirements, certain components of aluminium scaffoldings may also be manufactured at G-103, while certain components of ladders may be manufactured at K-446. The third facility, situated at Industrial Plot No. 350, Kasna, Ecotech-1 Extension, Greater Noida, Gautam Budh Nagar has an installed capacity of 32,85,000 kg per annum and is exclusively utilised for the production of MS scaffoldings.

To support production activities at these facilities, our units are equipped with requisite machineries such as Welding machine, Riveting & Expanding machine, Pneumatic ladder making machine, Pneumatic cutting machine, Mechanical material shifter, 5 - station multi head press and Vibro deburring machine.

Additionally, we are certified under ISO 9001:2015 (Quality Management), ISO 14001:2015 (Environmental Management), ISO 45001:2018 (Occupational Health & Safety Management) and ISO/IEC 27001:2022 (Information Security Management). In addition, our products comply with CE certification under the Machinery Directive 2006/42/EC, EN 131-1:2015 for ladders and EN 1004-1:2020 for aluminium mobile scaffold towers.

Well diversified customer base spread across various industries & geography

Our customer base extends across a wide spectrum of industries, including civil construction, infrastructure development, facility management, HVAC solutions, MEP contracting, interior contracting, electrical contracting, warehousing and logistics, firefighting and safety systems, among others. During FY 2024-25, we served more than 2,500 customers through both sales and rental channels.

For the fiscal year ended 2025, our company generated 97.77% of its total revenue from 22 states and 3 union territories in India, with key markets in Maharashtra, Karnataka and Tamil Nadu. During Fiscal 2025, Fiscal 2024, Fiscal 2023 our exports reached markets including UAE, Nigeria, Maldives, Saudi Arabia and Mauritius.

Experienced Promoters and management team having domain knowledge

We are led by a qualified and experienced management team comprising our Promoters and Directors, each bringing domain expertise and strategic vision to the organization. Mr. Pradeep Aggarwal, Promoter, Chairman and Managing Director, has over 16 years of experience in the scaffolding and access solutions industry and oversees the overall management and business strategy of the Company. Mr. Ajay Kumar Kanoi, Promoter and Whole-Time Director, has approximately 14 years of experience in the scaffolding sector and is currently oversees the Company's sales function. Mr. Rushil Agarwal, Promoter and Whole Time Director, has 5 years of experience and currently heads the production function, which involves overseeing manufacturing operations, planning, procurement, and coordination with logistics and quality control teams. As of December 31, 2025, the Company had 350 permanent employees and 66 contractual employees.

OUR BUSINESS STRATEGIES

Expand our production capabilities by setting up a new manufacturing facility

The India Scaffolding Market was valued at Rs. 7208.97 crores in 2024 and is expected to reach Rs. 12811.78 crores in 2030, registering a CAGR of 10.06% for the forecast period (2024-2030). The scaffolding industry is moving away from traditional bamboo and basic mild steel pipes to advanced, safety-certified systems like cup lock, ring lock, and Aluminium stairway towers. Aluminium scaffolding is becoming increasingly popular due to its lightweight nature, ease of transportation, rapid assembly, corrosion resistance and extended lifespan. (Source: Mordor Report)

The India Ladders Market was valued at Rs. 1,358.27 crores in 2024 and is expected to reach Rs. 2,233.90 crores in 2030, registering a CAGR of 8.65% for the forecast period (2024–2030). Growth in this sector is driven by infrastructure development, urbanization, industrial expansion, stringent safety regulations, and innovations in ladder design and materials. (Source: Mordor Report)

We currently operate three manufacturing units located within the industrial estate of Gautam Buddha Nagar, Greater Noida, Uttar Pradesh. During Fiscal 2025, Unit-I (G-103, Site-V, Kasna, UPSIDC) operated at 79.85% of its installed capacity, while Unit-II (K-446, Surajpur Site-V, UPSIDA) operated at 85.15% of its capacity. We started Unit-III at Plot No. 350, Ecotech-1 Extension, Kasna, in May 2025 for production of mild steel (MS) scaffolding operated at 80.62% of its capacity.. (Source: Chartered Engineer Report dated January 10, 2026, issued by Rajul Garg, Chartered Engineer, Garg and Associates)

To support our growth objectives and strengthen our presence in the scaffolding and ladder market, we propose to establish a new manufacturing facility at A-3/B, Kosi Kotwan, Industrial Area, District: Mathura, Uttar Pradesh, with an estimated area of approximately 13,979 sq. mt. Upon completion of the proposed facility, the aggregate installed capacity across all units, including the proposed unit, is expected to be 62,85,000 kg per annum for MS Scaffoldings and 25,12,000 kg per annum for Aluminium Scaffoldings and Ladders. (Source: Chartered Engineer- Project Report dated January 14, 2026, issued by Rajul Garg, Chartered Engineer, Garg and Associates).

This expansion is aimed at enabling us to cater to new orders from both existing and potential customers, tap into emerging market opportunities, and contribute to future revenue growth. The proposed project includes land acquisition, civil construction, and installation of plant and machinery, as further detailed in the section titled “Objects of the Offer – Funding of capital expenditure towards setup of new manufacturing facility” on page 90 of this Prospectus. The total estimated cost of setting up the new unit is ₹ 3702.22 lakhs, of which ₹ 3225.92 lakhs is proposed to be financed from the Net Proceeds of the Offer.

Proposed Expansion into Hanging Scaffolding and Ladder Segments

As part of our growth strategy, we are focused on addressing the increasing demand from existing and new clients in the scaffolding segment, while also expanding our presence into the hanging scaffolding market and further strengthening our offerings in the ladder segment. The planned entry into hanging scaffolding is intended to cater to specialized requirements in high-rise construction, facade work, and industrial maintenance, where conventional systems may have limitations.

According to Mordor Report, in India's rapidly urbanizing regions, where traditional ground-based scaffolding often proves impractical, hanging or suspended scaffolding systems have become essential. These systems, typically anchored from rooftops or upper structures, are crucial for high-rise construction, maintenance, and facade works. They are extensively used in commercial towers, residential skyscrapers, infrastructure projects and for glass-and-Aluminium facades. Over the past few years, the demand for Aluminium and steel hanging scaffolding has grown steadily in major cities, driven by Engineering, Procurement, and Construction (EPC) contractors and metro infrastructure projects.

Looking ahead, the adoption of Turnkey and Design-Build-Operate (DBO) infrastructure contracts is expected to encourage more contractors to invest in standardized hanging scaffolding. The flexibility these systems offer, along with their long-term compliance benefits, is anticipated to be a significant driver of this trend. (Source: Mordor Report)

This proposed expansion is part of our strategy to broaden our product portfolio by introducing hanging scaffolding systems and enhancing our presence in the scaffolding segment, thereby enabling us to address a wider range of access-related applications across construction, industrial and infrastructure projects.

Focus on consistently meeting quality standards

Our Company intends to focus on maintaining quality standards across the scaffolding and ladder product lines. Product quality is of utmost importance to us from the perspective of customer safety and satisfaction. Continuous review of production processes, systematic quality checks, and timely corrective actions in case of any deviations are central to maintaining the quality standards of our offerings.

OUR PRODUCT OFFERINGS:

Our Product Portfolio includes:

1. Aluminium Scaffoldings:

Aluminium scaffoldings are modular, lightweight structures made from high-grade aluminium, designed to provide safe and stable access to elevated work areas. They are widely used in construction, industrial maintenance, and interior fit-outs due to their portability, ease of assembly, and corrosion resistance. Compared to traditional steel scaffolding, Aluminium scaffoldings offer greater convenience in transportation, installation, and dismantling, making them suitable for both indoor and outdoor applications.

We are engaged in the manufacture, sale, and rental of Aluminium scaffolding systems in multiple configurations. The product range includes stairway, narrow-width, extra reach, Z-type, bridge sections, cantilevers and podium models, supporting working heights of up to 30 meters. We also offer end-to-end services such as transportation, erection, and dismantling, catering to both short-term and long-term project requirements.

Each scaffolding variant offered by our company is engineered to address specific site conditions, access challenges, and operational requirements across diverse project environments:

- **Stairway Scaffolding:** Equipped with internal stair access, this model allows safe, comfortable, and frequent climbing, ideal for tasks that require regular movement between levels.
- **Narrow-Width Scaffolding:** Designed for use in confined or restricted spaces, these towers provide vertical access where standard-width scaffolding cannot be installed.
- **Extra Reach Scaffolding:** Built for extended height requirements, this model enables safe access to elevated work areas up to 30 meters, commonly used in industrial or high-rise applications.
- **Z-Type Scaffolding:** Features a zig-zag frame structure for enhanced structural strength and user support, suitable for both indoor and outdoor worksites with increased load demands.
- **Bridge Sections:** Modular extensions that allow workers to move across horizontal gaps or obstructions, offering a continuous elevated platform across uneven or obstructed surfaces.
- **Cantilever Scaffolding:** Designed to extend beyond the main scaffolding structure, cantilevers enable access to hard-to-reach areas such as ledges, facades, or overhangs.
- **Podium Scaffolding:** A compact, portable work platform with guardrails and anti-slip features, ideal for indoor maintenance, electrical installations, and short-duration tasks at lower heights.

2. Aluminium and FRP Ladders:

Aluminium and FRP ladders are essential access solutions used across construction, industrial, commercial, and maintenance applications for safe vertical movement and elevated work. Aluminium ladders are known for their lightweight, corrosion resistance, and durability, while FRP (Fiber Reinforced Plastic) ladders offer non-conductive properties, making them ideal for electrical and high-safety environments.

We are engaged in the manufacture, sale, and rental of a wide range of Aluminium and FRP ladders under our in-house brands. Our product portfolio includes A-type ladders, straight ladders, platform ladders, and cage ladders, designed to meet diverse industrial requirements.

Brief descriptions of the ladder types forming part of our product portfolio are as follows:

- **A-Type Ladders:** Self-supporting ladders that form an 'A' shape, suitable for tasks that require stability without wall support, commonly used in maintenance and utility work.
- **Straight Ladders:** Lean-to ladders that require support from a vertical surface; ideal for quick access to elevated areas in construction or warehousing.
- **Platform Ladders:** Equipped with a wide top platform and guardrails, these ladders offer a stable working surface for prolonged tasks at height, enhancing user comfort and safety.
- **Cage Ladders:** Fixed vertical ladders enclosed with a protective cage for fall protection, typically used for accessing roofs, towers, or industrial machinery.

3. MS (Mild Steel) Scaffoldings:

MS Scaffoldings, or Mild Steel Scaffoldings, are heavy-duty access structures made from mild steel pipes and fittings, used to support workmen and materials during construction, maintenance, and repair activities at elevated heights. Known for their strength and load-bearing capacity, MS scaffoldings are widely used in large-scale infrastructure projects, civil construction, and industrial settings where robustness and durability are critical. These scaffoldings are typically assembled using steel pipes, couplers, base plates, and platforms, and can be customized in various configurations.

We are engaged in both the sale and rental of MS scaffoldings, offering customized solutions based on project scale, duration, and site conditions.

4. Aerial Work Platform (AWP) – Scissor Lifts

Aerial Work Platform (AWP) – Scissor Lifts are mechanical platforms designed to provide safe and stable vertical access for personnel and materials. Operated through a criss-cross (scissor-like) mechanism, these lifts are widely used in construction, industrial maintenance, warehousing, and installation activities. They offer advantages such as high load-bearing capacity, ease of mobility, and enhanced safety for working at elevated heights.

MANUFACTURING PROCESS

ALUMINIUM SCAFFOLDING

The production process includes the following major stages:-

Raw Material Requisition & Issuance:

- A requisition for Aluminium extrusion is raised by the Production Supervisor based on the approved production plan.
- The Storekeeper issues the required materials after verifying specifications and quantities.

Cutting Operations:

Aluminium sections are cut to specified lengths using hydraulic and pneumatic cutting machines equipped with safety features.

Drilling Operations:

Precision holes are drilled using vertical standing and hand drill machines, as per structural requirements.

Press Operations:

Components are shaped and formed using hydraulic and mechanical press machines to meet design configurations.

Assembly of Components:

Components are assembled using high-tensile bolts and nuts, followed by strength testing on a Universal Testing Machine (UTM).

Welding

Structural welding is performed using TIG welding with 2.4mm filler wire, under strict safety protocols using PPE.

Load Testing & Quality Inspection:

- Each product is tested to ensure a minimum load-bearing capacity of 200 kg/sq.m.
- Items that pass quality checks move to the next phase.

Branding & Surface Cleaning:

Conforming units are branded with our Msafe logo and subjected to cleaning and washing.

Packing & Dispatch:

Products are securely wrapped, sealed, and transferred to the Finished Goods Store for dispatch.

LADDERS

The production process includes the following major stages:-

Raw Material Requisition & Issuance:

- The Production Supervisor raises a raw material requisition based on the approved production plan.
- The Storekeeper issues Aluminium or FRP profiles after validating specifications and required quantities.

Cutting Operation:

Raw materials are cut to specific lengths using hydraulic and pneumatic cutting machines, equipped with safety sensors for operator protection.

Drilling Operation:

Necessary holes are drilled using vertical drill machines and hand drills as per the technical design of each ladder type.

Press Operation:

Material undergoes shaping through hydraulic and mechanical press machines to form ladder sub-components.

Forming, Welding & Riveting:

Ladder structure is shaped via expanding, squeezing, inside and outside riveting, using pneumatic and hydraulic machinery to ensure precise joint formation.

Assembly of Components:

- All parts are assembled using high-tensile bolts and nuts.
- Universal Testing Machine (UTM) is used to test structural integrity and conformance to mechanical strength standards.

Load Testing & Quality Inspection:

Finished ladders are tested under load at various points to validate structural stability and compliance with EN 131 safety standards.

Branding & Surface Cleaning:

Approved ladders are branded with the Msafe mark and passed through cleaning and washing procedures for final finishing.

Packing & Dispatch:

The completed ladders are wrapped, sealed, and handed over to the Finished Goods Store for dispatch to customers.

MS (Mild Steel) Scaffolding

The production process includes the following major stages:

Raw Materials: The key raw materials used in the process include mild steel pipes, tubes (rectangular and circular sections), and structural profiles such as C-channels and I-sections, which are sourced from suppliers.

Cutting Section:

Steel pipes are cut to the required lengths depending on the component being manufactured. This includes:

- **Verticals (Standards)** – vertical load-bearing components
- **Horizontals (Ledgers)** – horizontal bracing elements
- Base Jacks, Props, Outer and Inner Tubes, Joint Pins, and Challis

Dedicated cutting lines are maintained for each type of component.

Drilling / Punching:

After cutting, components are moved to drilling or punching stations to create precise holes or slots required for interlocking systems and fittings, particularly for ledgers and verticals.

Welding and Fabrication:

This stage involves welding structural elements such as:

- Cup joints on verticals (cup-lock system)
- Blade ends on ledgers
- Connectors on props and jacks

Welding is performed using semi-automatic or MIG welding machines, ensuring strong joints and alignment.

Assembly & Machining:

Sub-assemblies like props (inner and outer sections) and adjustable jacks are assembled using precision tools and fixtures to maintain tolerances and functionality.

Painting and Surface Treatment:

All fabricated steel components are subjected to anti-corrosive surface treatment and painting, improving their durability and suitability for on-site conditions. Paint type and thickness are monitored as part of quality compliance.

Inspection & Quality Control:

Inspections are conducted at each stage—including dimensional checks, weld quality verification, and paint/coating assessment. Final quality control ensures that each item meets the technical specifications and safety requirements.

Packing, Storage & Dispatch:

Finished products are packed in predefined bundles or bags (e.g., 50 pcs per bag), stored in designated dispatch zones, and moved through our warehousing and logistics network to reach customers or project sites.

OUR RENTAL PROCESS

We provide aluminium scaffoldings, FRP & Aluminium Ladders and MS scaffoldings on a monthly, fortnightly or weekly rental basis across India. Brief details of the rental process followed is given below:

Step 1: Client Onboarding & Documentation:

The rental process begins with the customer providing necessary documents for verification and onboarding:

- GST Certificate of the Customer
- PAN & Aadhaar of Owner/Director
- TAN (if applicable)
- Work Order / Purchase Order
- Filled CRF (Customer Registration Form)

Step 2: Quotation & Order Confirmation

We issue a formal quotation which includes:

- Product description, platform height, tower height, and working height
- Rental rate (monthly, fortnightly or weekly), freight (to & fro), erection and dismantling charges
- GST %, security deposit value

- BOQ-level breakdown of components
- Payment and commercial terms

Step 3: Payment & Security Deposit

- Advance Payment of rental is taken.
- Security Instruments:
 - Security Cheque/Deposit (equivalent to equipment value) (on case to case basis)
 - 3 Months Post-Dated Cheques (if required)

Step 4: Equipment Preparation & Quality Check- (mainly manufacturing part)

Before dispatch, all equipment undergo visual inspection, and incoming materials as well as work-in-progress items are assessed using the following in-house machinery and testing tools:

- Vibro Machine – Deburring and surface treatment
- Ultrasonic Gauge – Wall thickness testing
- Handheld Hardness Tester – Strength validation
- Handheld Coder – Material traceability and tagging
- Refurbishment and reassembly using:
 - TIG Welding Machine
 - Pipe Crimping, Riveting, Step Cutting Machines
 - Pneumatic Ladder Making Machine

Step 5: Dispatch & Delivery

- Equipment is dispatched from our warehouse to the client site.
- Freight Charges (to and fro) are billed to client as per quote.
- Loading & Unloading: Client's responsibility at site.
- Material Movement: Managed internally using mechanical material shifters.

Step 6: Erection, Training & Handover

- If erection/training is opted by the client:
 - Charged separately as per quotation
 - 3–4 site labourers to be arranged by client
 - Demo provided only for 1 set, irrespective of total quantity
- Safety guidelines, user manuals and Do's & Don'ts are shared.

Step 7: Rental Tenure Management

- Rental tenure starts from dispatch date and continues until material is picked up by us.
- Minimum rental period: a month or a week; extensions billed pro-rata.
- De-hiring Notice: Must be given 7 days in advance via email.
- Auto-extension applies in absence of formal de-hiring confirmation.

Step 8: Return, Inspection & Security Clearance

- Returned materials are:
 - We generally deploy personnel to verify quantities and inspect for any physical damage or shortages.
 - Refurbished and checked using standard QC processes
- Damage/Loss Charges:
 - Lost material: 100% of component rate
 - Damaged material: 60% of component rate
- Security cheque returned within 7 working days after clearance of dues.

PLANT & MACHINERY

Our manufacturing facilities comprises a vast array of machineries, all of which are fully owned by the company. The list is as follows:

S. No	Particulars	Usage
1.	Welding Machine	Used for precision TIG welding to ensure high-quality joints.
2.	Vibro Machine	Deburs Aluminium parts for smooth finish and safe handling.
3.	Ultrasonic Gauge	Measures wall thickness to ensure correct material strength.
4.	Step Cutting Machine	Cuts step materials for ladder assembly.
5.	Pipe Crimping Machine	Forms pipe joints for male-female ladder connectors.
6.	Riveting And Expanding Machine	Fixes ladder steps using hydraulic-pneumatic action.
7.	Pneumatic Ladder Making Machine	Assembles ladders using pneumatic control.
8.	5 Station Multi head Press	Performs multiple pressing tasks simultaneously.
9.	Handheld Hardness Tester	Tests product strength for quality control.
10.	Handheld Coder	Applies product codes for identification.
11.	Mechanical Material Shifter	Moves heavy material efficiently during production.
12.	Pneumatic Cutting Machine	Cuts aluminium profiles to required lengths.

The following table sets out the unit-wise details of the machinery installed at our respective manufacturing units:

S.No.	Particulars	Number of Machine		
		Unit-I	Unit-II	Unit-III
1	Welding Machine	7	17	2
2	Vibro Machine	1	1	-

COMPETITION:

We operate in a competitive segment of access and height-safety equipment, including scaffoldings and ladders. At the regional level, the competitive landscape primarily comprises unorganized players engaged in supplying scaffolding systems with limited height capabilities and standard configurations. Further, some of our current and

potential competitors include large entities with longer operating histories, better name recognition, greater ability to influence industry standards, larger customer bases and significantly greater financial, sales and marketing resources. Some of our significant competitors in the organized segment include Technocraft Industries India Limited, Y-Access Manufacturing Private Limited, Mtandt Rentals Limited and Sagar Asia Private Limited.

INFRASTRUCTURE & UTILITIES:

Raw Materials: The production of our access and height-safety systems relies on a combination of raw materials and bought-out components sourced from various suppliers. Major raw materials include mild steel pipes, Aluminium extrusions, and which are procured from local and regional suppliers based on quality and delivery parameters. MS pipes are primarily used in the fabrication of MS scaffoldings and structural frames due to their high load-bearing strength and durability. Aluminium extrusions, comprising grades 6063-T6, 6063-T5, 6063-T4 are extensively used in the production of Aluminium scaffoldings and ladders for their strength-to-weight ratio and corrosion resistance. Additionally, we procure swivel caster wheels, anti-slip plywood, fasteners, and other hardware as bought-out parts to support assembly, mobility, and safe usage of our products.

Note: The geography-wise purchase statement has been compiled on the basis of the overall purchases recorded in the books of account of the Company during the respective year. Such purchases include certain items which, though initially procured as goods, were subsequently capitalized upon completion or utilized for repair purposes (refer to the restated financial statements for further details). Since the raw materials procured are common for both stock and capital goods, it is not practicable for the Company to provide a separate bifurcation of geography-wise purchases between capital goods and stock. Accordingly, the above statement represents the combined details of all geography-wise purchases, irrespective of whether such goods were consumed as stock or capitalized.

For details of government approvals obtained by us, see the section titled “**Government and Other Approvals**” on page 339 of this Prospectus.*

THE COMPANIES ACT

The Companies Act primarily regulates the formation, financing, functioning and restructuring of Companies as separate legal entities. The Act provides regulatory and compliance mechanism regarding all relevant aspects including organizational, financial and managerial aspects of companies. The provisions of the Act state the eligibility, procedure and execution for various functions of the company, the relation and action of the management and that of the shareholders. The law laid down transparency, corporate governance and protection of shareholders & creditors. The Companies Act plays a balancing role between these two competing factors, namely, management autonomy and investor protection.

SEBI REGULATIONS

Securities And Exchange Board of India is the regulatory body for securities market transactions including regulation of listing and delisting of securities. It forms various rules and regulations for the regulation of listed entities, transactions of securities, exchange platforms, securities market and intermediaries thereto. Apart from the SEBI Act, 1992, SCRA 1956, SCRR 1957 and other rules and regulations, listed entities are mainly regulated by SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 and SEBI (Listing Obligations and Disclosure Requirement) Regulations, 2015, SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 2011 and SEBI (Prohibition of Insider Trading) Regulations, 2015.

TAX RELATED REGULATIONS

Income Tax Act, 1961:

Income Tax Act, 1961 is applicable to every Domestic / Foreign Company whose income is taxable under the provisions of this Act or Rules made under it depending upon its “Residential Status” and “Type of Income” involved. U/s 139(1) every Company is required to file its Income tax return for every Previous Year by 31st October of the Assessment Year. Other compliances like those relating to Tax Deduction at Source, Advance Tax, Minimum Alternative Tax and like are also required to be complied by every Company.

Goods and Service Tax Act, 2017:

The Central Goods and Services Tax Act, 2017 is an Act to make a provision for levy and collection of tax on intra-State supply of goods or services or both by the Central Government and for matters connected therewith or incidental thereto. In line with CGST Act, each state Government has enacted State Goods and Service Tax Act for respective states.

Goods and Services Tax (GST) is a comprehensive indirect tax on manufacture, sale and consumption of goods and services throughout India to replace taxes levied by the central and state governments on goods as services. This method allows GST-registered businesses to claim tax credit to the value of GST they paid on purchase of goods or services or both as part of their normal commercial activity. The mechanism provides for two level taxation of interstate and intra state transactions. When the supply of goods or services happens within a state called as intra-state transactions, then both the CGST and SGST will be collected. Whereas if the supply of goods or services happens between the states called as inter-state transactions and IGST will be collected. Exports are considered as zero-rated supply and imports are levied the same taxes as domestic goods and services adhering to the destination-based taxation principle in addition to the Customs Duty which has not been subsumed in the GST.

State Tax on Profession, Trades, Callings and Employment Rules, 1975:

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. The professional tax is charged as per the List II of the Constitution. The professional tax is classified under various tax slabs in India. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner.

The Factories Act, 1948 (“Factories Act”)

The term ‘factory’, as defined under the Factories Act, includes any premises which employs or has employed on any day in the previous 12 months, 10 or more workers and in which any manufacturing process is carried on with the aid of power, or any premises wherein 20 or more workmen are employed at any day during the preceding 12 months and in which any manufacturing process is carried on without the aid of power. State Governments have issued rules in respect of the prior submission of plans and their approval for the establishment of factories and registration and licensing of factories. The Factories Act mandates the ‘occupier’ of a factory to ensure the health, safety and welfare of all workers in the factory premises. Further, the “occupier” of a factory is also required to ensure (i) the safety and proper maintenance of the factory such that it does not pose health risks to persons in the factory premises; (ii) the safe use, handling, storage and transport of factory articles and substances; (iii) provision of adequate instruction,

training and supervision to ensure workers' health and safety; and (iv) cleanliness and safe working conditions in the factory premises. If there is a contravention of any of the provisions of the Factories Act or the rules framed thereunder, the occupier and manager of the factory may be punished with imprisonment or with a fine or with both.

REGULATIONS RELATED TO FOREIGN TRADE AND INVESTMENT

The Foreign Direct Investment

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment ("FDI") through press notes and press releases. The Department for Promotion of Industry and Internal Trade (DPIIT), Ministry of Commerce & Industry, Government of India makes policy pronouncements on FDI through Consolidated FDI Policy Circular/Press Notes/Press Releases which are notified by the Department of Economic Affairs (DEA), Ministry of Finance, Government of India as amendments to the Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 under the Foreign Exchange Management Act, 1999 (42 of 1999) (FEMA). DPIIT has issued consolidated FDI Policy Circular of 2020 ("FDI Policy 2020"), which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2020 will be valid until an updated circular is issued.

The reporting requirements for any investment in India by a person resident outside India under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 are specified by the RBI. Regulation 4 of the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 vide notification No. FEMA. 395/2019-RB dated 17.10.2019 issued by the RBI stipulates the reporting requirement for any investment in India by a person resident outside India. All the reporting is required to be done through the Single Master Form (SMF) available on the Foreign Investment Reporting and Management System (FIRMS) platform at <https://firms.rbi.org.in>.

Under the current FDI Policy of 2020, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations.

Foreign Exchange Management Act, 1999 ("FEMA") and Regulations framed thereunder.

Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Promotion of Industry and Internal Trade, Ministry of Commerce & Industry, Government of India. As laid down by the FEMA Regulations no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the 'automatic route' within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIF and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017 ("FEMA Regulations") to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India and Foreign Exchange Management (Export of Goods and Services) Regulations, 2015 for regulation on exports of goods and services.

Ownership restrictions of FIIs

Under the portfolio investment scheme, the total holding of all FIIs together with their sub-accounts in an Indian company is subject to a cap of 24% of the paid-up capital of a company, which may be increased up to the percentage of sectoral cap on FDI in respect of the said company pursuant to a resolution of the board of directors of the company and the approval of the shareholders of the company by a special resolution in a general meeting. The total holding by each FII, or in case an FII is investing on behalf of its sub-account, each sub-account should not exceed 10% of the total paid-up capital of a company.

Laws related to Overseas Investment by Indian Entities:

Overseas investment by Indian Entities are governed under Foreign Exchange Management Act, 1999 under which the central Government of India have notified Foreign Exchange Management (Overseas Investment) Rules, 2022 in suppression of Foreign Exchange Management (Transfer or Issue of Any Foreign Security) Regulations, 2004 and the Foreign Exchange Management (Acquisition and Transfer of Immovable Property Outside India) Regulations, 2015. (DIR Series) Circular No.12 dated August 22, 2022 have issued Foreign Exchange Management (Overseas Investment) Directions, 2022 and Foreign

Exchange Management (Overseas Investment) Regulations, 2022. These legislations frame the investment fields, mode and cap for various sectors and regions, by any person resident in India and the reporting requirements.

LAWS RELATED TO ENVIRONMENTAL LAWS

National Environmental Policy, 2006

The Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource. Following are the objectives of National Environmental Policy: -

- Conservation of Critical Environmental Resources
- Intra-generational Equity: Livelihood Security for the Poor
- Inter-generational Equity
- Integration of Environmental Concerns in Economic and Social Development
- Efficiency in Environmental Resource Use
- Environmental Governance
- Enhancement of resources for Environmental Conservation

The Air (Prevention & Control of Pollution) Act, 1981(the “Air Act”)

One Central Pollution Control Board, as well as state pollution control boards formed under water act shall be deemed to be Central Board & State Board for the Prevention and Control of air Pollution. The Air Act prohibits that no person operating any industrial plant, in any air pollution control area shall discharge or cause or permit to be discharged the emission of any air pollutant in excess of the standards laid down by the State Board. The Air Act prescribes specific amounts of fine and terms of imprisonment for various contraventions.

Water (Prevention and Control of Pollution) Act, 1974 (the “Water Act”)

The Water Act provides for one Central Pollution Control Board, as well as state pollution control boards, to be formed to implement its provisions, including enforcement of standards for factories discharging pollutants into water bodies. The Water Act prohibits the use of any stream or well for the disposal of polluting matter, in violation of the standards set down by the State PCB. The Water Act also provides that the consent of the State PCB must be obtained prior to opening of any new outlets or discharges, which are likely to discharge sewage effluent. The Water Act prescribes specific amounts of fine and terms of imprisonment for various contraventions.

Environment (Protection) Act, 1986 as amended (“EPA”)

The EPA has been enacted for the protection and improvement of the environment. It stipulates that no person carrying on any industry, operation or process shall discharge or emit or permit to be discharged or emitted any environmental pollutant in excess of such standards as may be prescribed. Further, no person shall handle or cause to be handled any hazardous substance except in accordance with such procedure and after complying with such safeguards as may be prescribed. EPA empowers the Central Government to take all measures necessary to protect and improve the environment such as laying down standards for emission or discharge of pollutants, providing for restrictions regarding areas where industries may operate and generally to curb environmental pollution. Pollution control boards have been constituted in all states in India to exercise the powers and perform the functions provided for under these statutes for the purpose of preventing and controlling pollution. Companies are required to obtain consents of the relevant state pollution control boards for emissions and discharge of effluents into the environment.

LAWS RELATING TO INTELLECTUAL PROPERTY

Trademarks Act, 1999

Under the Trademarks Act, 1999 (“Trademarks Act”), a trademark is a mark capable of being represented graphically and which is capable of distinguishing the goods or services of one person from those of others used in relation to goods and services to indicate a connection in the course of trade between the goods and some person having the right as proprietor to use the mark. A ‘mark’ may consist of a device, brand, heading, label, ticket, name signature, word, letter, numeral, shape of goods, packaging or combination of colors or any combination thereof.

LAWS RELATED TO EMPLOYMENT OF MANPOWER:

Employees Provident Fund and Miscellaneous Provisions Act, 1952

Under the Employees’ Provident Funds and Miscellaneous Provisions Act, 1952 (EPF Act), compulsory provident fund, family pension fund and deposit linked insurance are payable to employees in factories and other establishments. The legislation provides that an establishment employing more than 20 (twenty) persons, either directly or indirectly, in any capacity whatsoever, is either required to constitute its own provident fund or subscribe to the statutory employee’s provident fund. The employer of such establishment is required to make a monthly contribution to the provident fund equivalent to the amount of the employee’s contribution to the provident fund. There is also a requirement to maintain prescribed records and registers and filing of forms with the concerned authorities. The EPF Act also prescribes penalties for avoiding payments required to be made under the abovementioned schemes.

Employees State Insurance Act, 1948, as amended (the “ESIC Act”)

The ESI Act, provides for certain benefits to employees in case of sickness, maternity and employment injury. All employees in establishments covered by the ESI Act are required to be insured, with an obligation imposed on the employer to make certain contributions in relation thereto. In addition, the employer is also required to register itself under the ESI Act and maintain prescribed records and registers.

Employees Deposit Linked Insurance Scheme (EDLI)

The Employees Deposit Linked Insurance Scheme or EDLI is an insurance cover provided by the EPFO (Employees Provident Fund Organisation) for private sector salaried employees who are members of EPFO. The EDLI scheme was launched in 1976. The registered nominee receives a lump-sum payment in the event of the death of the person insured (employee) during the period of the service

Payment of Gratuity Act, 1972, as amended (the “Gratuity Act”)

The Gratuity Act establishes a scheme for the payment of gratuity to employees engaged in every factory, mine, oil field, plantation, port and railway company, every shop or establishment in which ten or more persons are employed or were employed on any day of the preceding twelve months and in such other establishments in which ten or more employees are employed or were employed on any day of the preceding twelve months, as notified by the Central Government from time to time. Penalties are prescribed for non-compliance with statutory provisions.

Under the Gratuity Act, an employee who has been in continuous service for a period of five years will be eligible for gratuity upon his retirement, resignation, superannuation, death or disablement due to accident or disease. However, the entitlement to gratuity in the event of death or disablement will not be contingent upon an employee having completed five years of continuous service. The maximum amount of gratuity payable may not exceed 1 million.

Certain other laws and regulations that may be applicable to our Company in India include the following:

- Minimum Wages Act, 1948 and Maharashtra Minimum Wages Rules, 1963 (“MWA Rules”)
- Industrial (Development and Regulation) Act, 1951 (“IDRA”)
- Industrial Disputes Act, 1947 (“ID Act”)
- Payment of Bonus Act, 1965 (“POB Act”)
- Child Labour (Prohibition and Regulation) Act, 1986
- Inter-State Migrant Workers (Regulation of Employment and Conditions of Service) Act, 1979
- Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“SHWW Act”)
- Equal Remuneration Act, 1976 (“ER Act”)
- Contract Labour (Regulation and Abolition) Act, 1970 (CLRA) and Contract Labour (Regulation and Abolition) Central Rules, 1971 (Contract Labour Rules)
- Workmen Compensation Act, 1923 (“WCA”)

- Maternity Benefit Act, 1961 ("Maternity Act")
- Industrial Employment Standing Orders Act, 1946
- Apprentices Act, 1961

To rationalize and reform labour laws in India, the Government has enacted the following codes:

Code on Wages, 2019, which regulates and amalgamates wage and bonus payments and subsumes four existing laws namely – the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965, and the Equal Remuneration Act, 1976. It regulates, inter alia, the minimum wages payable to employees, the manner of payment and calculation of wages and the payment of bonus to employees.

Industrial Relations Code, 2020, which consolidates and amends laws relating to trade unions, the conditions of employment in industrial establishments and undertakings, and the investigation and settlement of industrial disputes. It subsumes and simplifies the Trade Unions Act, 1926, the Industrial Employment (Standing Orders) Act, 1946 and the Industrial Disputes Act, 1947.

Code on Social Security, 2020, which amends and consolidates laws relating to social security, and subsumes various social security related legislations, inter alia including the Employee's State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961 and the Payment of Gratuity Act, 1972. It governs the constitution and functioning of social security organisations such as the employee's provident fund and the employee's state insurance corporation, regulates the payment of gratuity, the provision of maternity benefits and compensation in the event of accidents that employees suffer, among others.

Occupational Safety, Health and Working Conditions Code, 2020, which amends and consolidates laws regarding the occupational safety, health and working conditions of persons employed in an establishment. It subsumes various enactments including, among others, the Factories Act, 1948 and the Contract Labour (Regulation and Abolition) Act, 1970.

While certain portions of the Code on Wages, 2019, have now been enforced by the Ministry of Labour and Employment, the remainder of these codes shall become effective on the day that the Government shall notify for this purpose.

OTHER GENERAL REGULATIONS

The Competition Act, 2002

ANNEXURE - 4 TO RESTATED FINANCIAL STATEMENTS

SIGNIFICANT ACCOUNTING POLICY AND NOTES TO THE RESTATED FINANCIAL STATEMENTS

I. BACKGROUND

The Company was originally incorporated as “Msafe Equipments Private Limited” on 19th August, 2019 under companies Act 2013 with the Registrar of Companies, Delhi with CIN U29309DL2019PTC353936, Subsequently, the name of the company was changed from “Msafe Equipments Private Limited” to “Msafe Equipments Limited” 26th May 2025 Thereafter, the Company was converted into a Public Limited Company and consequently the name of the Company was changed from “Msafe Equipments Private Limited” to “Msafe Equipments Limited” vide a fresh certificate of incorporation consequent upon conversion from private company to public company dated 26th May 2025 issued by the Registrar of Companies, Delhi bearing CIN U29309DL2019PLC353936.

Our company is primarily engaged in the manufacturing, sale, and rental of a comprehensive range of access and height-safety solutions, including aluminum scaffoldings, aluminum and FRP (Fiber Reinforced Plastic) ladders, and MS (Mild steel) scaffoldings designed to meet the diverse operational and safety requirements of various industries.

II. SIGNIFICANT ACCOUNTING POLICIES

A. Basis of preparation of Financial Statements:

The Restated Statement of Assets and Liabilities as at September 30,2025, March 31, 2025, March 31, 2024 and March 31, 2023, the Restated Statements of Profit and Loss for the period ended September 30,2025, March 31, 2025, March 31, 2024 and March 31, 2023, the Restated Cash Flow Statement for the period ended September 30,2025, March 31, 2025, March 31, 2024 and March 31, 2023, the Summary Statement of Material Accounting Policies, the Notes and Annexures as forming part of these Restated Financial Statements (collectively, the “Restated Financial Information”), as approved by the Board of Directors of the company.

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 (‘the Act’) read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act.

The accounting policies adopted in the preparation of financial statements have been consistently applied. All assets and liabilities have been classified as current or non-current as per the company’s normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of operations and time difference between the provision of services and realization of cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

B. Use of Estimates

The preparation of financial statements is in conformity with Indian GAAP requires judgments, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known / materialized.

C. Accounting Convention

The Company follows the mercantile system of accounting, recognizing income and expenditure on accrual basis. The accounts are prepared on historical cost basis and as a going concern. Accounting policies not referred to specifically otherwise, are consistent with the generally accepted accounting principles. The following significant accounting policies are adopted in the preparation and presentation of these financial statements:

1 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Revenue from sale of goods is recognized when the significant risk and rewards are transferred as per the terms of sale. Revenues are recorded at invoice value

Income from Services in form of rental of scaffolding and ladders is recognized as and when the service is performed and the right to ultimate collection is reasonably assured.

Income in respect of interest, insurance claims, export benefits, subsidy etc. is recognized to the extent the company is reasonably certain of its ultimate realization.

The revenue is recognized net of Goods and service tax.

2 Property, Plant and Equipment and Intangible Assets

i. Property, Plant & Equipments :

a) Property, Plant and Equipment are stated as per Cost Model i.e., at cost less accumulated depreciation and impairment, if any; Costs directly attributable to acquisition are capitalized until the Property, Plant and Equipment are ready for use, as intended by the management;

b) Subsequent expenditures relating to Property, Plant and Equipment are capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs & maintenance costs are recognized in the Statement of profit & Loss when incurred;

c) The Company is involved into sale and rental services of aluminum scaffolding, ladders, FRP ladders, and MS scaffolding (The Assets). The Assets which were used for rental services are manufactured by the Company itself by using Raw material purchased.

Accordingly, the relevant finished goods have been capitalized as fixed assets under Property, Plant and Equipment, as they are intended for long-term use in the rental business.

As of 30th September 2025, there is no pending capitalization of any finished goods related to rental use. All applicable transfers to capital assets have been duly recognized and depreciated as per the applicable accounting policy.

d) The cost and related accumulated depreciated are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit or Loss. Assets to be disposed of are reported at the lower of the carrying value or the fair value less cost to sell;

e) Depreciation on fixed assets will be calculated using the Written Down Value (WDV) method, which involves applying depreciation rates prescribed under Schedule II to the Companies Act 2013. to the carrying amount of the asset. The carrying amount is reduced each year by the amount of depreciation charged.

f) Depreciation methods, useful lives, and residual values are reviewed periodically, including at each financial year end;

ii. Intangible assets :

Intangible assets are stated at cost of acquisition net of recoverable taxes less accumulated amortisation and Impairment. All costs, including financing costs till commencement of commercial production, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the intangible assets are capitalised. Depreciation on Intangible assets is calculated on Written down value method.

3 Impairment

The Management periodically assesses, using external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if, and only if, the reversal can be related objectively to an event occurring after the impairment loss was recognized. The carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

4 Inventories

Raw material, Work in Progress and finished goods :

Raw Materials -Lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on First in First out (FIFO) basis.

Finished goods and Work in progress are valued at the lower of cost and net realisable value. Cost is determined on First in First out (FIFO) basis.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.

Work in Progress at various level is valued at lower of cost or net realizable value. The Management estimates the work in progress according to stage of completion. Cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads incurred in bringing them to their respective present location and condition

5 Foreign Exchange Transactions

All transactions in foreign currency are recorded at the rates of exchange prevailing at the date of transaction. Any gain/ loss on account of the fluctuation in the rate of exchange is recognized in the statement of Profit and Loss.

Monetary items in the form of Loans, Current Assets and Current Liabilities in foreign currencies outstanding at the close of the year are converted in Indian currency at the appropriate rates of exchange prevailing on the date of Balance Sheet. Resultant gain or loss on account of the fluctuation in the rate of exchange is recognized in the statement of Profit and Loss.

6 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non- cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

7 Borrowing Costs

Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of that asset till such time the asset is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. Costs incurred in raising funds are amortized equally over the period for which the funds are acquired. All other borrowing costs are charged to profit and loss account.

8 Income Tax

The accounting treatment for the Income Tax in respect of the Company's income is based on the Accounting Standard on 'Accounting for Taxes on Income' (AS-22). The provision made for Income Tax in Accounts comprises

both, the current tax and deferred tax. Provision for Current Tax is made on the assessable Income Tax rate applicable to the relevant assessment year after considering various deductions available under the Income Tax Act, 1961.

Deferred tax is recognized for all timing differences; being the differences between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Such deferred tax is quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date. The carrying amount of deferred tax asset/liability is reviewed at each Balance Sheet date and consequential adjustments are carried out.

9 Earnings Per Share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

10. Provisions and Contingent Liabilities

Provisions are recognized only when there is a present obligation as a result of past events and when a reliable estimate of the amount of obligation can be made.

Contingent Liability is disclosed for:-

- a) Possible obligation which will be confirmed only by future events not wholly within the control of the Company or
- b) Present obligations arising from the past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.
- c) Contingent Assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

11. Cash and Cash Equivalents

Cash and cash equivalents comprise cash and cash on deposit with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

12. Investments

Investment which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as non-current investments. On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

13. Government Grants and Subsidies

Government grants and subsidies are recognized when there is reasonable assurance that the Company will comply with the conditions attached to them and the grants / subsidy will be received. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire capital assets are presented by deducting them from the carrying value of the assets. The grant is recognised as income over the life of a depreciable asset by way of a reduced depreciation charge.

When the grant or subsidy relates to an expense item, it is recognized as income over the periods necessary to match them on a systematic basis to the costs, which it is intended to compensate.

14. Contingencies and events occurring after the Balance Sheet date

Events that occur between balance sheet date and date on which these are approved, might suggest the requirement for an adjustment(s) to the assets and the liabilities as at balance sheet date or might need disclosure. Adjustments are required to assets and liabilities for events which occur after balance sheet date which offer added information substantially affecting the determination of the amounts which relates to the conditions that existed at balance sheet date.

15. Related Party Transactions

Related parties as defined under Accounting Standard - 18 'Related Party Disclosures' have been identified based on representations made by management and information available with the Company. All transactions with related parties are in the ordinary course of business and on arms' length basis.

16 Segment Reporting**Business Segment:**

- (a) The business segment has been considered as the primary segment.

- (b) The Company's primary business segments are reflected based on principal business activities, the nature of service, the differing risks and returns, the organization structure and the internal financial reporting system.

- (c) The Company's primary business includes manufacturing of aluminum and steel scaffolding & ladders. Further the manufactured Goods are sold as well as used for providing rental services. The Board of Directors review the operating results as a whole. For purposes of making decisions about resources to be allocated and assess its

performance, the entire operations are to be classified as a single business segment as envisaged in Accounting Standard 17 'Segment Reporting' therefore disclosure for Segment Reporting is not applicable.

Geographical Segment:

For the purpose of geographical segments the Company is operating its business activity in India only and for disclosure India is considered as Single geographical segment. Accordingly, there is no Geographical reportable segment as per Accounting Standard 17 Segments Reporting.

17 Employee Benefits

Short term Employee Benefits:

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, performance incentives and compensated absences which are expected to occur in next twelve months. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

Defined-contribution plans:

Retirement benefit in the form of Provident Fund and Employee State Insurance Corporation Fund (ESIC) are defined contribution schemes. The Company is statutorily required to contribute a specified portion of the basic salary of an employee to a provident fund and ESIC as a part of retirement benefits to its employees. The contributions during the period are charged to statement of profit and loss. The Company recognizes contribution payable to the Provident Fund and ESIC scheme as an expenditure when an employee renders related service.

Defined Benefit Plans:

The Company provides for Gratuity, a defined benefit retirement plan ('The Gratuity Plan') covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment of an amount based on the respective employee's salary and the tenure of employment with the Company.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet Date using the projected unit credit method. The Company recognizes the net obligation of the Gratuity Plan in the Balance Sheet as an asset or liability, respectively in accordance with Accounting Standard (AS-15) 'Employee Benefits'. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the Statement of Profit and Loss in the period in which they arise. The company's gratuity plan is unfunded.

Explanatory notes to the above restatements made in the audited financial statements of the Company for the respective years.

Note 1 - Adjustments having impact on Profit:

Amounts relating to the prior period have been adjusted in the year to which the same relates to and the same amount is arrived on account of change in Opening Balance of Reserve and Surplus due to the restated effect on the profit / (loss) of prior period.

From 2022-23 to 2023-24 Adjustment in Equity and Reserve difference due to change in P&L : Value of Employee benefit expense & Deferred Tax expense has been considered for the respective change.

For the period ended September 30, 2025, the difference in equity and reserves arises from changes in the Statement of Profit and Loss on account of deferred tax expense & provision for income tax, and further in Statement of Assets and Liabilities the classification of preliminary expenses relating to the Initial Public Offer as short-term loans and advances instead of adjustment against reserves and surplus.

Note - To give Explanatory Notes regarding Adjustments

Appropriate adjustments have been made in the restated financial statements, wherever required, by reclassification of the corresponding items of Income, expenses, assets and liabilities, in order to bring them in line with the groupings as per the audited financial of the company for all the years and requirements of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2018.

Delta Effect of +1% Change in Rate of Employee Turnover	-1.74%	-1.58%	-2.17%	-3.52%
Delta Effect of -1% Change in Rate of Employee Turnover	1.83%	1.66%	2.24%	3.65%

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the defined benefit obligation as recognised in the balance sheet.

There is no change in the methods and assumptions used in preparing the sensitivity analysis from previous year.

Method of Valuation:

Projected Unit Credit (PUC) Method: Projected Unit Credit (PUC) Method: is used to assess the plan liabilities, including those related to death-in-service and incapacity benefits. Under this method a projected accrued benefit is calculated at the beginning of the year and again at the end of the year for each benefit that will accrue for all active members of the plan. The projected accrued benefit is based on the plans accrual formula and service as of the beginning or end of the year, but using final compensation, projected to the age at which the employee is assumed to exit. The plan liability is actuarial present value of the projected accrued benefits as on date of valuation.

Actuarial Gains/ Losses are accounted for in the period of occurrence in the Statement of Profit or Loss.

Salary escalation & attrition rate are considered as advised by the entity; they appear to be in line with the industry practice considering promotion and demand & supply of the employees

During the year, there were no plan amendments, curtailments and settlements.

Basis of Valuation:

1. Mortality is used as per Published rates under Indian Assured Lives Mortality.
2. The figures disclosed above are based on the restated summary statement of assets and liabilities of the Company
3. The above statement should be read with the significant accounting policies and notes to restated summary statements of assets and liabilities, profits and losses and cash flows appearing in Annexures IV, I, II and III.

2. The above statement should be read with the significant accounting policies and notes to restated summary statements of assets and liabilities, profits and losses and cash flows appearing in Annexures IV, I, II and III.

3. Our business is engaged in the manufacturing of aluminium scaffolding and ladders, which are offered for both sale and rental purposes. We procure raw materials and consumable items, which are then processed into finished products through our in-house manufacturing operations. These finished goods—aluminium scaffolding and ladders—are either sold to customers or deployed for generating rental income.

4. The Company is involved into sale and rental services of aluminium scaffolding, ladders, FRP ladders, and MS scaffolding (the Assets). The Assets which were used for rental services are manufactured by the Company itself by using Raw material purchased.

Accordingly, the relevant finished goods have been capitalized as fixed assets under Property, Plant and Equipment, as they are intended for long-term use in the rental business.

As of 30th September 2025, there is no pending capitalization of any finished goods related to rental use. All applicable transfers to capital assets have been duly recognized and depreciated as per the applicable accounting policy.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion is intended to convey management's perspective on our financial condition and results of operations for the period ended September '25 and for the Fiscals 2025, 2024 and 2023. You should read the following discussion and analysis of our financial condition and results of operations in conjunction with our Restated Financial Information as of and for the period ended September '25 and for the Fiscals 2025, 2024 and 2023, including the related annexures.

Unless otherwise indicated or context otherwise requires, the financial information for the period ended September '25 and for the Fiscals 2025, 2024 and 2023, included herein is derived from the Restated Financial Information, included in this Prospectus. For further information, see "Restated Financial Information" and "Summary of Financial Statement" on pages 221 and 60.

Our Fiscal year ends on March 31 of each year. Accordingly, all references to a particular Fiscal are to the 12-month period ended March 31 of that year.

This discussion contains forward-looking statements that involve risks and uncertainties and reflects our current view with respect to future events and financial performance. Actual results may differ from those anticipated in these forward-looking statements as a result of factors such as those set forth under "Forward Looking Statements" and "Risk Factors" on pages 18 and 29, respectively.

Industry Overview

The India Scaffolding Market studied was valued at INR 7208.97 crores in 2024 and is expected to reach INR 12811.78 crores in 2030, registering a CAGR of 10.06% for the forecast period (2024-2030). This market expansion is anticipated to be driven by a new wave of highway expansions, metro-rail corridors, and industrial-park developments. The integration of digital technologies—like IoT-enabled load monitoring and QR-based asset tracking—coupled with a stricter enforcement of Bureau of Indian Standards/Indian Standards (BIS/IS) safety standards, is likely to steer demand more towards premium modular scaffolding systems and all-encompassing servitization contracts. Despite challenges from raw-material cost swings and a shortage of skilled labor, the market is poised for robust growth through 2030. This optimism is bolstered by government incentives, new urban infrastructure projects, and a rising focus on eco-friendly scaffolding solutions aligned with ESG principles. (Source: Mordor Report)

The India Ladders Market studied was valued at INR 1358.27 crores in 2024 and is expected to reach INR 2233.90 crores in 2030, registering a CAGR of 8.65% for the forecast period (2024-2030). From 2019 to 2024, demand for ladders surged in India, driven by sectors like construction, manufacturing, and facilities maintenance. This uptick was largely a response to the nation's swift urbanization and ongoing infrastructure projects. (Source: Mordor Report)

Business Overview

Incorporated in 2019, we are engaged in the business of manufacturing, sales and rental of access and height-safety equipments, primarily used to facilitate safe working at heights. Our product portfolio includes aluminium scaffoldings, mild steel (MS) scaffoldings, aluminium ladders and fibre reinforced plastic (FRP) ladders, which are designed to meet varied operational and safety requirements across construction, maintenance, installation, repair and infrastructure development activities. These products provide safe and stable access for vertical and elevated operations, enabling workers to undertake a wide range of activities such as building exterior works (including facade and cladding installation), painting and plastering, HVAC and MEP works, electrical cabling and fittings, ceiling and interior finishing, fire-fighting works and warehouse stacking and retrieval, among others, while significantly reducing the risk of workplace accidents.

SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation of Financial Statements:

The Restated Statement of Assets and Liabilities as at September 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, the Restated Statements of Profit and Loss for the period ended September 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, the Restated Cash Flow Statement for the period ended September 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, the Summary Statement of Material Accounting Policies, the Notes and Annexures as forming part of these Restated Financial Statements (collectively, the "Restated Financial Information"), as approved by the Board of Directors of the company.

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis. GAAP comprises mandatory accounting standards as prescribed under Section

133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act.

The accounting policies adopted in the preparation of financial statements have been consistently applied. All assets and liabilities have been classified as current or non-current as per the company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of operations and time difference between the provision of services and realization of cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

Use of Estimates

The preparation of financial statements is in conformity with Indian GAAP requires judgments, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known / materialized.

Accounting Convention

The Company follows the mercantile system of accounting, recognizing income and expenditure on accrual basis. The accounts are prepared on historical cost basis and as a going concern. Accounting policies not referred to specifically otherwise, are consistent with the generally accepted accounting principles.

The following significant accounting policies are adopted in the preparation and presentation of these financial statements:

1. Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue from sale of goods is recognized when the significant risk and rewards are transferred as per the terms of sale. Revenues are recorded at invoice value. Income from Services in form of rental of scaffolding and ladders is recognized as and when the service is performed and the right to ultimate collection is reasonably assured. Income in respect of interest, insurance claims, export benefits, subsidy etc. is recognized to the extent the company is reasonably certain of its ultimate realization. The revenue is recognized net of Goods and service tax.

2. Property, Plant and Equipment and Intangible Assets

i. Property, Plant & Equipments :

a) Property, Plant and Equipment are stated as per Cost Model i.e., at cost less accumulated depreciation and impairment, if any; Costs directly attributable to acquisition are capitalized until the Property, Plant and Equipment are ready for use, as intended by the management.

b) Subsequent expenditures relating to Property, Plant and Equipment are capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs & maintenance costs are recognized in the Statement of profit & Loss when incurred.

c) The Company is involved into sale and rental services of aluminium scaffolding, ladders, FRP ladders, and MS scaffolding (The Assets). The Assets which were used for rental services are manufactured by the Company itself by using Raw material purchased.

Accordingly, the relevant finished goods have been capitalized as fixed assets under Property, Plant and Equipment, as they are intended for long-term use in the rental business.

As of 30th September 2025, there is no pending capitalization of any finished goods related to rental use. All applicable transfers to capital assets have been duly recognized and depreciated as per the applicable accounting policy.

d) The cost and related accumulated depreciated are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit or Loss. Assets to be disposed of are reported at the lower of the carrying value or the fair value less cost to sell;

e) Depreciation on fixed assets will be calculated using the Written Down Value (WDV) method, which involves applying depreciation rates prescribed under Schedule II to the Companies Act 2013. to the carrying amount of the asset. The carrying amount is reduced each year by the amount of depreciation charged.

f) Depreciation methods, useful lives, and residual values are reviewed periodically, including at each financial year end;

ii. Intangible assets:

Intangible assets are stated at cost of acquisition net of recoverable taxes less accumulated amortization and Impairment. All costs, including financing costs till commencement of commercial production, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the intangible assets are capitalized. Depreciation on Intangible assets is calculated on Written down value method.

3. Impairment

The Management periodically assesses, using external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if, and only if, the reversal can be related objectively to an event occurring after the impairment loss was recognized. The carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

4. Inventories

Raw material, Work in Progress and finished goods :

Raw Materials -Lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on First in First out (FIFO) basis.

Finished goods and Work in progress are valued at the lower of cost and net realizable value. Cost is determined on First in First out (FIFO) basis.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.

Work in Progress at various level is valued at lower of cost or net realizable value. The Management estimates the work in progress according to stage of completion. Cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads incurred in bringing them to their respective present location and condition

5. Foreign Exchange Transactions

All transactions in foreign currency are recorded at the rates of exchange prevailing at the date of transaction. Any gain/ loss on account of the fluctuation in the rate of exchange is recognized in the statement of Profit and Loss.

Monetary items in the form of Loans, Current Assets and Current Liabilities in foreign currencies outstanding at the close of the year are converted in Indian currency at the appropriate rates of exchange prevailing on the date of Balance Sheet. Resultant gain or loss on account of the fluctuation in the rate of exchange is recognized in the statement of Profit and Loss.

6. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

7. Borrowing Costs

Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of that asset till such time the asset is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. Costs incurred in raising funds are amortized equally over the period for which the funds are acquired. All other borrowing costs are charged to profit and loss account.

8. Income Tax

The accounting treatment for the Income Tax in respect of the Company's income is based on the Accounting Standard on 'Accounting for Taxes on Income' (AS-22). The provision made for Income Tax in Accounts comprises both, the current tax and deferred tax. Provision for Current Tax is made on the assessable Income Tax rate applicable to the relevant assessment year after considering various deductions available under the Income Tax Act, 1961.

Deferred tax is recognized for all timing differences; being the differences between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Such deferred tax is quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date. The carrying amount of deferred tax asset/liability is reviewed at each Balance Sheet date and consequential adjustments are carried out.

9. Earnings Per Share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

10. Provisions and Contingent Liabilities

Provisions are recognized only when there is a present obligation as a result of past events and when a reliable estimate of the amount of obligation can be made.

Contingent Liability is disclosed for:-

- Possible obligation which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from the past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

c) Contingent Assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

11. Cash and Cash Equivalents

Cash and cash equivalents comprise cash and cash on deposit with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents

12. Investments

Investment which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as non-current investments. On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

13. Government Grants and Subsidies

Government grants and subsidies are recognised when there is reasonable assurance that the Company will comply with the conditions attached to them and the grants / subsidy will be received. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire capital assets are presented by deducting them from the carrying value of the assets. The grant is recognised as income over the life of a depreciable asset by way of a reduced depreciation charge.

When the grant or subsidy relates to an expense item, it is recognized as income over the periods necessary to match them on a systematic basis to the costs, which it is intended to compensate.

14. Contingencies and events occurring after the Balance Sheet date

Events that occur between balance sheet date and date on which these are approved, might suggest the requirement for an adjustment(s) to the assets and the liabilities as at balance sheet date or might need disclosure. Adjustments are required to assets and liabilities for events which occur after balance sheet date which offer added information substantially affecting the determination of the amounts which relates to the conditions that existed at balance sheet date.

15. Related Party Transactions

Related parties as defined under Accounting Standard - 18 'Related Party Disclosures' have been identified based on representations made by management and information available with the Company. All transactions with related parties are in the ordinary course of business and on arms' length basis.

16. Segment Reporting

Business Segment:

(a) The business segment has been considered as the primary Segment.

(b) The Company's primary business segments are reflected based on principal business activities, the nature of service, the differing risks and returns, the organization structure and the internal financial reporting system.

(c) The Company's primary business includes manufacturing of Aluminium and steel scaffolding & ladders. Further the manufactured Goods are sold as well as used for providing rental services. The Board of Directors review the operating results as a whole. For purposes of making decisions about resources to be allocated and assess its performance, the entire operations are to be classified as a single business segment as envisaged in Accounting Standard 17 'Segment Reporting' therefore disclosure for Segment Reporting is not applicable.

Geographical Segment:

For the purpose of geographical segments the Company is operating its business activity in India only and for disclosure India is considered as Single geographical segment. Accordingly, there is no Geographical reportable segment as per Accounting Standard 17 Segments Reporting.

17. Employee Benefits

Short term Employee Benefits:

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, performance incentives and compensated absences which are expected to occur in next twelve months. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognized as an expense as the related service is rendered by employees.

Defined-contribution plans:

Retirement benefit in the form of Provident Fund and Employee State Insurance Corporation Fund (ESIC) are defined contribution schemes. The Company is statutorily required to contribute a specified portion of the basic salary of an employee to a provident fund and ESIC as a part of retirement benefits to its employees. The contributions during the period are charged to statement of profit and loss. The Company recognizes contribution payable to the Provident Fund and ESIC scheme as an expenditure when an employee renders related service.

Defined Benefit Plans:

The Company provides for Gratuity, a defined benefit retirement plan ('The Gratuity Plan') covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment of an amount based on the respective employee's salary and the tenure of employment with the Company.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet Date using the projected unit credit method. The Company recognizes the net obligation of the Gratuity Plan in the Balance Sheet as an asset or liability, respectively in accordance with Accounting Standard (AS-15) 'Employee Benefits'. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the Statement of Profit and Loss in the period in which they arise. The company's gratuity plan is unfunded.

Rationale for increase/ decrease in Revenue, EBITDA and PAT from F.Y 2022-23 to F.Y 2023-24 to F.Y 2024- 25:

- The reasons for the increase/decrease in revenue have been discussed in detail in the section ‘Comparative Financial Performance’ for each of the respective years.
- EBITDA increased by 72.53% from ₹1,511.50 lakhs in FY 2023-24 to ₹2,607.75 lakhs in FY 2024-25, primarily on account of growth in revenue, driven mainly by higher rental income, which contributed to margin improvement. Further, commencement of full-fledged manufacturing operations during FY 2024-25 also supported the increase in EBITDA.
- EBITDA rose by 64.49%, from ₹918.89 lakhs in FY 2022-23 to ₹1,511.50 lakhs in FY 2023-24, primarily due to a substantial increase in aluminium scaffolding sales. The improvement was also supported by the commencement of manufacturing operations in FY 2023-24, whereas in FY 2022-23 the Company’s operations were largely dependent on trading activities.
- PAT margin improved to 18.24% in FY 2024-25 as compared to 13.61% in FY 2023-24 and 12.28% in FY 2022-23. The increase in FY 2024-25 was primarily attributable to the commencement of full-fledged manufacturing operations and a significant rise in revenue from the rental business.

Change in Inventories(b)	(153.99)	(190.55)	(26.42)
Total Cost (a+b)	1,863.83	1,342.35	627.16
Revenue from Operations	7,134.07	4,813.09	2,969.77
Cost as a % of Revenue from Operations	26.13%	27.89%	21.12%

Rationale for changes in Cost of Material Consumed as a percentage of Revenue from Operations from FY 2022-23 to FY 2023-24 and FY 2024-25:

- The increase in cost of material consumed corresponds to the commencement of manufacturing operations in FY 2023-24 and their full-scale operation in FY 2024-25. The material cost has increased in absolute terms with the expansion of manufacturing activity and has remained consistent as a proportion of revenue in FY 2024-25.

Balance sheet Line Items

1. Long Term Borrowings

As on September 30, 2025, the company's net long-term borrowings (after current maturities) stood at ₹1073.21 lakhs, comprising secured loans of ₹1073.21 lakhs. The increase in borrowings as compared to ₹456.43 lakhs as at March 31, 2025 was primarily on account of avilment of new loan during the period. Current maturities of long-term borrowings also increased to ₹616.53 lakhs as at September 30, 2025 from ₹222.03 lakhs as at March 31, 2025, avilment of new loans.

As on March 31, 2025, the Company's net long-term borrowings (after current maturities) stood at ₹456.43 lakhs, compared to ₹370.71 lakhs in FY 2023-24, an increase of 23.12%. However, the total secured loans reduced to ₹678.46 lakhs in FY 2024-25 from ₹746.34 lakhs in FY 2023-24. The shift is attributable to the repayment of NBFC borrowings amounting to ₹707.23 lakhs in FY 2023-24, resulting in secured borrowings in FY 2024-25 being entirely sourced from banks. Accordingly, while the proportion of long-term borrowings increased, the overall gross loan exposure of the Company declined.

Current maturities of long-term borrowings decreased substantially to ₹222.03 Lakhs in FY 2024-25 from ₹375.63 Lakhs in FY 2023-24, indicating repayment of loan obligations.

As on March 31, 2024, net long-term borrowings (after current maturities) stood at ₹370.71 lakhs as against ₹390.62 lakhs in the FY 2022-23, a decrease of (5.10%). Total secured loans increased to ₹746.34 lakhs in FY 2023-24 from ₹710.75 lakhs in FY 2022-23, primarily on account of higher borrowings from NBFCs (₹707.23 lakhs in FY 2023-24 as compared to ₹656.40 lakhs in FY 2022-23). Current maturities of long-term borrowings increased to ₹375.63 lakhs in FY 2023-24 from ₹320.12 lakhs in FY 2022-23.

2. Short Term Borrowings

As on September 30, 2025, short-term borrowings after the current maturities of long-term borrowings stood at ₹2,693.57 lakhs, reflecting a reduction from ₹2,799.42 lakhs as at March 31, 2025, mainly due to scheduled repayments during the period.

In FY 2024-25 the total short-term borrowings increased to ₹2,799.42 Lakhs from ₹2,216.23 Lakhs in FY 2023-24, reflecting a 26.31% increase. Secured loans from banks rose to ₹639.41 Lakhs, increase from ₹395.46 Lakh, Unsecured loans from related parties increased to ₹1,460.30 Lakhs from ₹1,217.77 Lakhs. Unsecured loans from other parties also rise to ₹475.00 Lakhs from ₹225.00 Lakhs.

Current maturities of long-term borrowings decreased to ₹222.03 Lakhs from ₹375.63 Lakhs.

In FY 2023-24 the total short-term borrowings increased to ₹2,216.23 Lakhs from ₹1,646.80 Lakhs in FY 2022-23, a 34.58% increase. Bank borrowings (secured loans) rose to ₹395.46 Lakhs from ₹296.82 Lakhs. Loans from related parties increased to ₹1,217.77 Lakhs from ₹899.77 Lakhs. Loans from other parties rose to ₹225.00 Lakhs from ₹130.00 Lakhs. Current maturities of long-term borrowings increased to ₹375.63 Lakhs from ₹320.12 Lakhs.

3. Trade Receivables

Our trade receivables have shown a consistent year-on-year increase, rising from ₹709.91 Lakhs in FY 2022-23 to ₹1,189.44 Lakhs in FY 2023-24, and further to ₹1,623.33 Lakhs in FY 2024-25 and during six month period ended September'25 amounted to Rs.2024.82 lakhs. This growth is primarily attributable to the significant rise in revenue from operations, which increased from ₹2,969.77 Lakhs in FY 2022-23 to ₹4,813.09 Lakhs in FY 2023-24, and further to ₹7,134.07 Lakhs in FY 2024-25 and ₹4901.08 for the period ended September 2025.

4. Trade Payables

Our Trade Payables (Outstanding dues to micro and small enterprises) increased from 358.63 lakhs in FY 2023-2024 to ₹547.89 lakhs in FY 2024-25, showing a growth of approximately 52.78% and from ₹327.07 lakhs in FY 2022-23 to ₹358.63 lakhs in FY 2023-24, showing rise by 9.65%.

Similarly, (Dues other than micro and small enterprises) rose from ₹89.77 lakhs in FY 2023-24 to ₹102.07 lakhs in FY 2024-25, showing an increase of about 13.70% and in FY 2022-23 decreased from ₹96.16 lakhs to ₹89.77 lakhs in FY 2023-24 showing down by approximately 6.65%.

As on September 30, 2025 Trade Payables stood as ₹375.53 lakhs out of which Outstanding dues to micro and small enterprises are ₹183.31 lakhs and other than MSMEs are ₹192.22 lakhs.

5. Inventories

Our Inventories increased from ₹78.92 Lakhs in FY 2022–23 to ₹347.28 Lakhs in FY 2023–24, and further to ₹911.59 Lakhs in FY 2024–25 and as at September 30, 2025 stood at ₹1552.84 lakhs. This growth is primarily attributable to our manufacturing operations commenced in FY 2023-24 and became fully operational in FY 2024-25, which reflects higher stocking levels in line with the expansion of operations and the requirement to maintain adequate inventory to support sales.

6. Investments

The company held non-current investments in mutual funds amounting to ₹60.00 lakhs as of March 31, 2023, and March 31, 2024. These investments were fully divested by FY 2024-25.

7. Short term Loans and Advances

Short-term loans and advances increased significantly from ₹28.47 lakhs in FY 2022–23 to ₹38.00 lakhs in FY 2023–24. This rise was primarily due to an increase in advances to suppliers from Rs.9.05 lakhs in FY 2022-23 to Rs.14.66 lakhs in FY 2023-24, increase in security deposits from Rs.11.19 lakhs in FY 2022-23 to Rs.15.28 lakhs in FY 2023-24 and prepaid expenses increased from Rs.3.11 lakhs in FY 2022-23 to Rs.6.77 lakhs in FY 2023-24.

Similarly in FY 2024-25, short term loans and advances increased to ₹99.35 lakhs from Rs.38.00 lakhs in FY 2023-24. This rise was primarily due to an increase in advances to suppliers from Rs.14.66 lakhs in FY 2023-24 to Rs.64.09 lakhs in FY 2024-25, increase in security deposits from Rs.15.28 lakhs in FY 2023-24 to Rs.27.47 lakhs in FY 2024-25 and Advance to Employees increased from Rs.1.30 lakhs in FY 2023-24 to Rs.2.49 lakhs in FY 2024-25.

As on September 30, 2025, short term loans and advances increased to ₹102.49 lakhs due to increase in advances to employees to ₹16.50 lakhs, preliminary expenses for IPO to Rs.29.72 lakhs and security deposits- Rent to ₹ 30.32 lakhs.

Common pursuits

The Company has three group companies, namely MGRV Enterprises Private Limited, Mdeck Equipments Private Limited, and Msafe Construction Equipment Trading L.L.C.

1. MGRV Enterprises Private Limited was engaged in the manufacturing of aluminium scaffoldings until March 2023, operating in a similar line of business as the Company. With effect from April 2023, the manufacturing operations were transitioned from MGRV Enterprises Private Limited to Msafe Equipments Limited with the objective of achieving operational efficiency and business consolidation within the group. Post such transition, MGRV has discontinued the manufacturing of scaffoldings.

2. Mdeck Equipments Private Limited, although having similar objects under its Memorandum of Association, is not presently engaged in the manufacturing or trading of scaffoldings. The company is currently involved in the production of ancillary and supporting items which are supplied to Msafe Equipments Limited as part of its manufacturing process. Accordingly, Mdeck's operations are complementary in nature and do not compete with the business of the Company.

3. MSAFE Construction Equipment Trading L.L.C, incorporated in Dubai, is primarily engaged in the trading of aluminium and steel scaffoldings. The entity does not undertake any manufacturing activities and caters exclusively to overseas markets, particularly in Dubai and the Middle East region. Given its geographical focus and distinct operational nature, Msafe LLC does not compete or overlap with the business activities of the Company in India.

Accordingly, presently, there exists no conflict of interest or competing business activity among the group entities, and each entity operates within clearly defined business parameters and geographical boundaries to ensure independence of operations and effective segregation of business interests.

In view of the above, there exists a possibility of conflict of interest in respect of allocation of business opportunities amongst our Companies in circumstances where their respective interests diverge. Our Company will adopt and follow necessary procedures and practices, as permitted under applicable laws and regulatory guidelines, to address and resolve any such conflict of interest, as and when it may arise.

Nature and extent of interest of our Group Companies

a) Interest in the promotion of our Company

None of our Group Companies has any interest in the promotion of our Company.

b) Interest in the property acquired or proposed to be acquired by the Company

Jurisdiction

Exclusive jurisdiction for the purpose of this Offer is with the competent courts / authorities in Delhi, India.

The Equity Shares have not been and will not be registered under the Securities Act or any state securities laws in the United States, and may not be offered or sold within the United States, except pursuant to an exemption from or in a transaction not subject to, registration requirements of the Securities Act. Accordingly, the Equity Shares are only being offered or sold outside the United States in compliance with Regulation S under the Securities Act and the applicable laws of the jurisdictions where those offers and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Joint Holders

Where 2 (two) or more persons are registered as the holders of any Equity Shares, they will be deemed to hold such Equity Shares as joint-holders with benefits of survivorship.

Nomination Facility to Investor

In accordance with Section 72 of the Companies Act, 2013 the sole or first applicant, along with other joint applicant, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicant, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72 of the Companies Act, 2013 be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Registered Office of our Company or to the Registrar and Transfer Agents of our Company.

In accordance with Section 72 of the Companies Act, 2013 any Person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- (a) to register himself or herself as the holder of the Equity Shares; or
(b) to make such transfer of the Equity Shares, as the deceased holder could have made.

Phased implementation of Unified Payments Interface

SEBI has issued the UPI Circulars in relation to streamlining the process of public Offer of inter alia, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIBs through Designated Intermediaries with the objective to reduce the time duration from public Offer closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase has become applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a individual investors who applies for minimum application size had the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public Offer closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. Subsequently, it was decided to extend the timeline for implementation of Phase II until March 31, 2020. Further, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount is continued till further notice. Under this phase, submission of the ASBA Form by a individual investors who applies for minimum application size through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI payment mechanism. However, the time duration from public Offer closure to listing continues to be six Working Days during this phase.

Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). In this phase, the time duration from public Offer closure to listing has been reduced to three Working Days. The Offer shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The Offer is being made under Phase III of the UPI (on a mandatory basis).

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Individual investors who applies for minimum application size into the UPI mechanism.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the Book Running Lead Manager.

BIDS BY ELIGIBLE NRI'S:

Eligible NRIs may obtain copies of Bid cum Application Form from the offices of the BRLM and the Designated Intermediaries. Eligible NRI Bidders bidding on a repatriation basis by using the Non- Resident Forms should authorize their SCSB to block their Non-Resident External ("NRE") accounts, or Foreign Currency Non-Resident ("FCNR") ASBA Accounts, and eligible NRI Bidders bidding on a non-repatriation basis by using Resident Forms should authorize their SCSB to block their Non- Resident Ordinary ("NRO") accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form.

Eligible NRIs bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents (white in colour).

Eligible NRIs bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents (blue in colour).

In accordance with the FEMA Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the members of the Indian company in a general meeting.

NRIs will be permitted to apply in the Issue through Channel I or Channel II (as specified in the UPI Circulars). Further, subject to applicable law, NRIs may use Channel IV (as specified in the UPI Circulars) to apply in the Issue, provided the UPI facility is enabled for their NRE/ NRO accounts.

For details of restrictions on investment by NRIs, see "*Restrictions on Foreign Ownership of Indian Securities*" beginning on page 403 of this Prospectus.

Participation of Eligible NRIs in the Issue shall be subject to the FEMA Rules. Only Bids accompanied by payment in Indian rupees or fully converted foreign exchange will be considered for Allotment.

BIDS BY FPI INCLUDING FII'S:

In terms of the SEBI FPI Regulations, any qualified foreign investor or FII who holds a valid certificate of registration from SEBI shall be deemed to be an FPI until the expiry of the block of three years for which fees have been paid as per the SEBI FII Regulations. An FII or a sub-account may participate in this Offer, in accordance with Schedule 2 of the FEMA Regulations, until the expiry of its registration with SEBI as an FII or a sub-account. An FII shall not be eligible to invest as an FII after registering as an FPI under the SEBI FPI Regulations.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued by the designated depository participant under the FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. An FII or subaccount may, subject to payment of conversion fees under the SEBI FPI Regulations, participate in the Offer, until the expiry of its registration as a FII or sub-account, or until it obtains a certificate of registration as FPI, whichever is earlier. Further, in case of Bids made by SEBI-registered FIIs or sub-accounts, which are not registered as FPIs, a certified copy of the certificate of registration as an FII issued by SEBI is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason.

In terms of the SEBI FPI Regulations, the Offer of Equity Shares to a single FPI or an investor group (which means the same set of ultimate beneficial owner(s) investing through multiple entities) must be below 10% of our post-Offer Equity Share capital. Further, in terms of the FEMA Regulations, the total holding by each FPI shall be below 10% of the total paid-up

Equity Share capital of our Company and the total holdings of all FPIs put together shall not exceed 24% of the paid-up Equity Share capital of our Company. The aggregate limit of 24% may be increased up to the sectorial cap by way of a resolution passed by the Board of Directors followed by a special resolution passed by the Shareholders of our Company and subject to prior intimation to RBI. In terms of the FEMA Regulations, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs as well as holding of FIIs (being deemed FPIs) shall be included. The existing individual and aggregate investment limits an FII or sub account in our Company is 10% and 24% of the total paid-up Equity Share capital of our Company, respectively.

FPIs are permitted to participate in the Offer subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 22 of the SEBI FPI Regulations, an FPI, other than Category III foreign portfolio and unregulated broad based funds, which are classified as Category II foreign portfolio investor by virtue of their investment manager being appropriately regulated, may Offer or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by an FPI against securities held by it that are listed or proposed to be listed on any recognized stock exchange in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with know your client norms. An FPI is also required to ensure that no further Offer or transfer of any offshore derivative instrument is made by or on behalf of it to any persons that are not regulated by an appropriate foreign regulatory authority.

FPIs who wish to participate in the Offer are advised to use the Bid cum Application Form for Non- Residents (blue in colour).

BIDS BY SEBI REGISTERED VCF'S, AIF'S AND FVCI'S:

BASIS OF ALLOCATION

- a) The SEBI (ICDR) Regulations specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Offer size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the Prospectus. For details in relation to allocation, the Bidder may refer to the Prospectus.
- b) Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer and in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI (ICDR) Regulations, Unsubscribed portion in QIB Category is not available for subscription to other categories.
- c) In case of under subscription in the Offer, spill-over to the extent of such under- subscription may be permitted from the Reserved Portion to the Offer. For allocation in the event of an under-subscription applicable to the Issuer, Bidders may refer to the Prospectus.

ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The Allotment of Equity Shares to Bidders other than individual investors who applies for minimum application size and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to Prospectus. No individual investors who applies for minimum application size will be Allotted less than the minimum Bid Lot subject to availability of shares in Individual investors who applies for minimum application size Category and the remaining available shares, if any will be Allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Offer. However, in case the Offer is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

Flow of Events from the closure of Bidding period (T DAY) Till Allotment:

- On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details .
- RTA identifies cases with mismatch of account number as per bid file / FC and as per applicant's bank account linked to depository demat account and seek clarification from SCSB to identify the applications with third party account for rejection.
- Third party confirmation of applications to be completed by SCSBs on T+1 day.
- RTA prepares the list of final rejections and circulate the rejections list with BRLM(s)/ Company for their review/ comments.
- Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange (DSE).
- The DSE, post verification approves the basis and generates drawal of lots wherever applicable, through a random number generation software.
- The RTA uploads the drawal numbers in their system and generates the final list of allottees as per process mentioned below.

Process for generating list of Allottees: -

- Instruction is given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket /batch as per the allotment ratio. For example, if the application number is 78654321 then system reverses it to 12345687 and if the ratio of allottees to applicants in a category is 2:7 then the system will create lots of 7. If the drawal of lots provided by Designated Stock Exchange (DSE) is 3 and 5 then the system will pick every 3rd and 5th application in each of the lot of the category and these applications will be allotted the shares in that category.
- In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the oversubscription times.
- In categories where there is undersubscription, the Registrar will do full allotment for all valid applications.

- On the basis of the above, the RTA will work out the allottees, partial allottees and non- allottees, prepare the fund transfer letters and advice the SCSBs to debit or unblock the respective accounts.

MODIFICATION IN THE ALLOCATION TO THE NET OFFER

The SEBI ICDR Regulation, 2018 read along with SEBI ICDR (Amendment) Regulations, 2025, permits the offer of securities to the public through the Book Building Process, which states that not less than 35% of the Net Offer shall be available for allocation to Individual Investors who applies for minimum application size. Not less than 15% of the Net Offer shall be available for allocation to Non-Institutional Investors of which one-third of the Non-Institutional Portion will be available for allocation to Bidders with an application size of more than two lots and up to such lots as equivalent to not more than ₹ 10.00 Lakhs and two-thirds of the Non Institutional Portion will be available for allocation to Bidders with an application size of more than ₹10.00 Lakhs and undersubscription in either of these two sub-categories of Non-Institutional Portion may be allocated to Bidders in the other sub-category of Non-Institutional Portion. Subject to the availability of Equity Shares in the Non – Institutional investors category, the allotment to each Non-Institutional Investors shall not be less than the minimum application size in Non-Institutional Category and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis in accordance with the conditions specified in this regard in Schedule XIII of the SEBI (ICDR) (Amendment) Regulations, 2025. Not more than 50% of the Net Offer shall be allotted to QIBs, subject to valid Bids being received at or above the Offer Price.

BASIS OF ALLOTMENT

a. For individual investors who applies for minimum application size

Bids received from the individual investors who applies for minimum application size at or above the Offer Price shall be grouped together to determine the total demand under this category. The Allotment to all the successful Individual investors who applies for minimum application size Bidders will be made at the Offer Price.

The Offer size less Allotment to Non-Institutional and QIB Bidders shall be available for Allotment to Individual investors who applies for minimum application size Bidders who have Bid in the Offer at a price that is equal to or greater than the Offer Price. If the aggregate demand in this category is less than or equal to 17,86,000 Equity Shares at or above the Offer Price, full Allotment shall be made to the Individual investors who applies for minimum application size Bidders to the extent of their valid Bids.

If the aggregate demand in this category is greater than 17,86,000 Equity Shares at or above the Offer Price, the Allotment shall be made on a proportionate basis up to a minimum of 2000 Equity Shares and in multiples of 1000 Equity Shares thereafter. For the method of proportionate Basis of Allotment, refer below.

b. For Non-Institutional Bidders

Bids received from Non-Institutional Bidders at or above the Offer Price shall be grouped together to determine the total demand under this category. The Allotment to all successful Non- Institutional Bidders will be made at the Offer Price.

The Offer size less Allotment to QIBs and Individual investors who applies for minimum application size shall be available for Allotment to Non- Institutional Bidders who have Bid in the Offer at a price that is equal to or greater than the Offer Price. If the aggregate demand in this category is less than or equal to 7,74,000 Equity Shares at or above the Offer Price, full Allotment shall be made to Non-Institutional Bidders to the extent of their demand.

In case the aggregate demand in this category is greater than 7,74,000 Equity Shares at or above the Offer Price, Allotment shall be made on a proportionate basis up to a minimum of 2000 Equity Shares and in multiples of 1000 Equity Shares thereafter.

The Allocation to non-institutional investors' category shall be as follows:-

- (a) one third of the portion available to non-institutional investors shall be reserved for applicants with application size of more than two lots and up to such lots equivalent to not more than ₹10 lakhs;
- (b) two third of the portion available to non-institutional investors shall be reserved for applicants with application size of more than ₹10 lakhs:

Provided that the unsubscribed portion in either of the sub-categories specified in clauses (a) or (b), may be allocated to applicants in the other sub-category of non-institutional investors.”

For the method of proportionate Basis of Allotment refer below

c. For QIBs

Not more than 50% of the Net Issue shall be allocated on a proportionate basis to QIBs, provided that our Company may, in consultation with the Book Running Lead Manager, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price.

In the event of under-subscription, or non-allotment in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price.

Bids received from QIBs Bidding in the QIB Category (net of Anchor Portion) at or above the Issue Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Issue Price. Allotment may be undertaken in the following manner: Allotment shall be undertaken in the following manner:

- a) In the first instance allocation to Mutual Funds for 5% of the Net QIB Portion shall be determined as follows:
- In the event that Bids by Mutual Fund exceeds 5% of the Net QIB Portion, allocation to Mutual Funds shall be done on a proportionate basis for 5% of the QIB Portion.
 - In the event that the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion then all Mutual Funds shall get full Allotment to the extent of valid Bids received above the Issue Price.

Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available for Allotment to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Issue Price;

d. ALLOTMENT TO ANCHOR INVESTOR (IF APPLICABLE)

a) Allocation of Equity Shares to Anchor Investors at the Anchor Investor Allocation Price will be at the discretion of the Issuer, in consultation with the BRLM, subject to compliance with the following requirements:

- i) not more than 60% of the QIB Portion will be allocated to Anchor Investors;
- ii) one-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors; and
- iii) allocation to Anchor Investors shall be on a discretionary basis and subject to:
 - a maximum number of two Anchor Investors for allocation up to ₹ 2 crores;
 - a minimum number of two Anchor Investors and maximum number of 15 Anchor Investors for allocation of more than ₹ 2 crores and up to ₹ 25 crores subject to minimum allotment of ₹ 1 crores per such Anchor Investor; and
 - in case of allocation above twenty five crore rupees; a minimum of 5 such investors and a maximum of 15 such investors for allocation up to twenty five crore rupees and an additional 10 such investors for every additional twenty five crore rupees or part thereof, shall be permitted, subject to a minimum allotment of one crore rupees per such investor.

- b) A physical book is prepared by the Registrar on the basis of the Anchor Investor Application Forms received from Anchor Investors. Based on the physical book and at the discretion of the Issuer, in consultation with the BRLM, selected Anchor Investors will be sent a CAN and if required, a revised CAN.
- c) 50% of the Equity Shares Allotted to the Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 90 days from the date of Allotment, while the remaining 50% of the Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 30 days from the date of Allotment.
- d) In the event that the Offer Price is higher than the Anchor Investor Allocation Price:

Anchor Investors will be sent a revised CAN within one day of the Pricing Date indicating the number of Equity Shares allocated to such Anchor Investor and the pay-in date for payment of the balance amount. Anchor Investors are then required to pay any additional amounts, being the difference between the Offer Price and the Anchor Investor Allocation Price, as indicated in the revised CAN within the pay-in date referred to in the revised CAN. Thereafter, the Allotment Advice will be issued to such Anchor Investors

- e) In the event the Offer Price is lower than the Anchor Investor Allocation Price:

Anchor Investors who have been Allotted Equity Shares will directly receive Allotment Advice.

- f) Basis of Allotment for QIBs (other than Anchor Investors) and NIIs in case of Over Subscribed Offer:

In the event of the Offer being Over-Subscribed, the Issuer may finalise the Basis of Allotment in consultation with the BSE SME (The Designated Stock Exchange). The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

- a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by number of Shares applied for).
- b) The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- c) For Bids where the proportionate allotment works out to less than 4,74,000 equity shares the allotment will be made as follows:
 - Each successful Bidder shall be allotted 3000 equity shares; and
 - The successful Bidder out of the total bidders for that category shall be determined by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.
- d) If the proportionate allotment to a Bidder works out to a number that is not a multiple of 1000 equity shares, the Bidder would be allotted Shares by rounding off to the nearest multiple of 1000 equity shares subject to a minimum allotment of 1000 equity shares.

- e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 1000 Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Offer specified under the Capital Structure mentioned in this Prospectus.

Individual investors who applies for minimum application size means an investor who applies for two lots. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with BSE.

The Executive Director/ Managing Director of BSE - the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Public Offer shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 ("FEMA"). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India ("RBI") and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("DIPP").

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the "FDI Policy"), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

In terms of the FEMA NDI Rules, a person resident outside India may make investments into India, subject to certain terms and conditions, and provided that an entity of a country, which shares land border with India or the beneficial owner of an investment into India who is situated in or is a citizen of any such country, shall invest only with government approval.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country ("Restricted Investors"), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Offer Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2020, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Foreign Exchange Management. (Non-debt Instruments) Rules, 2019. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment upto aggregate foreign investment level of 49% or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

Investment by FPIs under Portfolio Investment Scheme (PIS)

With regards to purchase/sale of capital instruments of an Indian company by an FPI under PIS the total holding by each FPI or an investor group as referred in SEBI (FPI) Regulations, 2014 shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24% of paid-up equity capital on fully diluted basis or paidup value of each series of debentures or preference shares or share warrants. The said limit of 10% and 24% will be called the individual and aggregate limit, respectively. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

Investment by NRI or OCI on repatriation basis:

The purchase/sale of equity shares, debentures, preference shares and share warrants issued by an Indian company (hereinafter referred to as "Capital Instruments") of a listed Indian company on a recognised stock exchange in India by Non-Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is allowed subject to certain conditions under Foreign Exchange Management (Non-debt Instruments) Rules, 2019.

The total holding by any individual NRI or OCI shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or should not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Investment by NRI or OCI on non-repatriation basis

As per current FDI Policy 2020, Foreign Exchange Management (Non-debt Instruments) Rules, 2019, Purchase/ sale of Capital Instruments or convertible notes or units or contribution to the capital of an LLP by a NRI or OCI on non- repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended ("US Securities Act") or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of "US Persons" as defined in Regulation S of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur.

Further, no offer to the public (as defined under Directive 2003/71/EC, together with any amendments) and implementing measures thereto, (the "Prospectus Directive") has been or will be made in respect of the Offer in any member State of the European Economic Area which has implemented the Prospectus Directive except for any such offer made under exemptions available under the Prospectus Directive, provided that no such offer shall result in a requirement to publish or supplement a prospectus pursuant to the Prospectus Directive, in respect of the Offer.

Any forwarding, distribution or reproduction of this document in whole or in part may be unauthorized. Failure to comply with this directive may result in a violation of the Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions and the information contained in this Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Book Running Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations.

SECTION IX - MAIN PROVISIONS OF ARTICLES OF ASSOCIATION OF OUR COMPANY

The following regulations comprised in the Articles of Association were adopted pursuant to the member's special resolution passed at the Extra Ordinary General Meeting held on July 23, 2025 In substitution for, and to the entire exclusion of, the earlier regulation comprised in the extant Articles of Association of the Company.

1.	The regulations contained in the Table marked 'F' in Schedule I to the Companies Act, 2013 shall not apply to the Company, except in so far as the same are repeated, contained or expressly made applicable in these Articles or by the said Act, which shall be the regulations for the management of the company.

	Share Capital
3.	<i>The Authorized Share Capital of the Company shall be such amount and be divided into such shares as may from time to time, be provided in clause V of Memorandum of Association with power to Board of Directors to reclassify, subdivide, consolidate and increase and with power from time to time, to issue any shares of the original capital or any new capital with and subject to any preferential, qualified or special rights, privileges, or conditions may be, thought fit and upon the sub-division of shares to apportion the right to participate in profits, in any manner as between the shares resulting from sub-division.</i>
4.	<i>The Board may issue and allot shares in the Capital of the Company for consideration other than cash.</i>
	Kinds of Share Capital
5.	The Company may issue the following kinds of shares in accordance with these Articles, the Act, the Rules and other applicable laws: (a) Equity share capital: - with voting rights; and / or - with differential rights as to dividend, voting or otherwise in accordance with the Rules; and (b) Preference share capital
	Certificate of Shares
6.	(1) Every person whose name is entered as a member in the register of members shall be entitled to receive within two months after allotment or within one month from the date of receipt by the Company of the application for the registration of transfer or transmission or within such other period as the conditions of

	issue shall provide: (a) one certificate for all his shares without payment of any charges; or (b) Several certificates, each for one or more of his shares, upon payment of such charges as may be fixed by the Board for each certificate after the first. (2) In respect of any share or shares held jointly by several persons, the Company shall not be bound to issue more than one certificate, and delivery of a certificate for a share to one of several joint holders shall be sufficient delivery to all such holders.
7.	A person opts to hold any shares with the depository, the Company shall intimate such depository the details of allotment of the shares to enable the depository to enter in its records the name of such person as the beneficial owner of that shares
8.	If any share certificate be worn out, defaced, mutilated or torn or if there be no further space on the back for endorsement of transfer, then upon production and surrender thereof to the Company, a new certificate may be issued in lieu thereof, and if any certificate is lost or destroyed then upon proof thereof to the satisfaction of the Company and on execution of such indemnity as the Board deems adequate, a new certificate in lieu thereof shall be given. Every certificate under this Article shall be issued on payment of fees for each certificate as may be fixed by the Board.
9.	The provisions of the foregoing Articles relating to issue of certificates shall mutatis mutandis apply to issue of certificates for any other securities including debentures (except where the Act otherwise requires) of the Company
10.	The Board may allow for sub-division/consolidation of share certificates
	Commission for placing of Shares
11.	(1) Subject to the provisions of the Act, the Company may at any time pay a commission to any person for subscribing or agreeing to subscribe (whether absolutely or conditionally) for any shares, debentures or debenture-stock or other securities of the Company or procuring or agreeing to procure subscriptions (whether absolute or conditional) for shares, debentures or debenture-stock or other securities of the Company but so that the statutory conditions and requirements shall be observed and complied with. The amount of rate of commission shall not exceed the rate as may be fixed under the Companies Act, 2013, the Rules and SEBI guidelines wherever applicable. (2) The commission may be paid or satisfied (subject to the provisions of the Act and these Articles) in cash or in share, debentures or debenture stock of the Company, (whether fully paid or otherwise) or in any combination thereof.
	Variation of members' rights
12.	(1) If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms or issue of the shares of that class) may, subject to the provisions of the Act, and whether or not the Company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that class, or with the sanction of a special resolution passed at a separate general meeting of the holders of the shares of that class and all the provisions of these Articles relating to general meetings shall mutatis mutandis apply, but so that the necessary quorum shall be two persons at least holding or representing by proxy one-third of the issued shares of the class in question. (2) The rights conferred upon the holders of the shares of any class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the creation or issue of further shares ranking pari passu therewith.
	Issue and redemption of preference shares
13.	Subject to the provisions of the Act and Rules made in this behalf, the Board shall have the power to issue or re-issue preference shares of one or more classes which are liable to be redeemed, or converted to equity shares, on such terms and conditions and in such manner as determined by the Board in accordance with the Act.
	Further issue of capital
14.	(1) The Board or the Company, as the case may be, may, in accordance with the Act and the Rules, issue further shares to – (a) persons who, at the date of offer, are holders of equity shares of the Company; such offer shall be deemed to include a right exercisable by the person concerned to renounce the shares offered to him or any

	of them in favour of any other person; or (b) employees under any scheme of employees' stock option; or (c) any persons, whether or not those persons include the persons referred to in clause (a) or clause (b) above. (2) A further issue of shares may be made in any manner whatsoever as the Board may determine including by way of preferential offer or private placement, subject to and in accordance with the Act and the Rules and SEBI guidelines.
	Issue of Securities at a Premium
15.	The Company shall have power to issue Securities at a premium and shall duly comply with the provision of Sections 52 of the said Act.
	LIEN
16.	(1) The Company shall have a first and paramount lien - (a) on every share (not being a fully paid share), for all monies (whether presently payable or not) called, or payable at a fixed time, in respect of that share; and (b) on all shares (not being fully paid shares) standing registered in the name of a member, for all monies presently payable by him or his estate to the Company: <i>Provided that the Board may at any time declare any share to be wholly or in part exempt from the provisions of this clause.</i> The Company's lien, if any, on a share shall extend to all dividends payable and bonuses declared from time to time in respect of such shares.
17.	The Company may sell, in such manner as the Board thinks fit, any shares on which the Company has a lien: <i>Provided that no sale shall be made—</i> (a) unless a sum in respect of which the lien exists is presently payable; or (b) until the expiration of fourteen days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the share or to the person entitled thereto by reason of his death or insolvency.
18.	To give effect to such sale, the Board of Directors may authorize some person to transfer the shares sold to the purchaser thereof and the purchaser shall be registered as the holder of the shares comprised in any such transfer. The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.
19.	The net proceeds of the sale after payment of the costs of the sale shall be received by the Company and applied or towards payment or such part of the amount in respect of which the lien exists as is presently payable and the residue, if any, shall (subject to a like lien for debts or liabilities not presently payable as existed upon the shares before the sale) be paid to the person entitled to the shares at the date of the sale.
20.	In exercising its lien, the Company shall be entitled to treat the registered holder of any share as the absolute owner thereof and accordingly shall not (except as ordered by a court of competent jurisdiction or unless required by any statute) be bound to recognize any equitable or other claim to, or interest in, such share on the part of any other person, whether a creditor of the registered holder or otherwise. The Company's lien shall prevail notwithstanding that it has received notice of any such claim.
21.	The provisions of these Articles relating to lien shall mutatis mutandis apply to any other securities including debentures of the Company.
	SHARE WARRANTS
22.	<i>The Company may issue Share warrants subject to, and in accordance with, the provisions of the Act and the applicable rules/ regulations/ guidelines. The Board may in its discretion, with respect to any Share which is fully paid-up, on application in writing signed by the person registered as holder of the Share, and authenticated by such evidence (if any) as the Board may from time to time, require as to the identity of the person signing the application, and on receiving the certificate (if any) with respect to the Share, and the amount of the stamp duty on the warrant and such fee as the Board may from time to time require, issue a Share warrant.</i>
23.	a) The bearer of a Share warrant may at any time deposit the warrant at the office of the Company, and so long as the warrant remains so deposited, the depositor shall have the same right of signing a requisition for calling a meeting of the Company, and of attending, and voting and exercising the other privileges of a

	Shareholder at any meeting held after the expiry of two (2) clear days from the time of deposit, as if the depositor's name were inserted in the Register of Members as the holder of the Shares included in the deposited warrant. b) Not more than one person shall be recognized as the depositor of the Share warrant. c) <u>The Company shall, on two (2) days' written notice, return the deposited Share warrant to the depositor.</u>
24.	1) Except as herein otherwise expressly provided, no person shall, as bearer of a Share warrant, sign a requisition for calling a meeting of the Shareholders of the Company, or attend, or vote or exercise any other privilege of a Shareholder at a meeting of the Shareholders, or be entitled to receive any notices from the Company. (2) The bearer of a Share warrant shall be entitled in all other respects to the same privileges and advantages as if such person were named in the Register of Members as the holder of the Shares included in the warrant, and such person shall be a Shareholder.
25.	The Board may, from time to time, make rules as to the terms on which (if it deems fit) a new Share warrant or coupon may be issued by way of renewal in case of defacement, loss or destruction.
	POWER TO BORROW
26.	The Board may, from time to time, and at its discretion, subject to the provisions of the Act and these Articles, accept deposits from Shareholders either in advance of calls or otherwise and generally raise or borrow moneys, either from the Directors, their friends and relatives or from others for the purposes of the Company and/or secure the payment of any such sum or sums of money, provided however, where the moneys to be borrowed together with the moneys already borrowed by the Company (apart from the temporary loans obtained from the Company's bankers in ordinary course of business) and remaining outstanding and undischarged at that time exceed the aggregate of the paid-up capital of the Company and its free reserves (not being reserves set apart for any specific purpose), the Board shall not borrow such money without the consent of the Company in a General Meeting by an ordinary resolution. The Board may raise and secure the payment of such sum or sums in such manner and upon such terms and conditions as it thinks fit, and in particular by receiving deposits, issue of bonds, debentures perpetual, redeemable, debenture stock, or any security of the Company or by mortgage or charge or other security upon all or any part of the property or undertaking of the Company (both present and future), including its uncalled capital for the time being; provided that the Board shall not give any option or right to any person for making calls on the Shareholders in respect of the amount unpaid for the time being on the Shares held by them, without the previous sanction of the Company in a General Meeting.
	CALLS ON SHARES
27.	(1) The Board may, from time to time, make calls upon the members in respect of any monies unpaid on their shares (whether on account of the nominal value of the shares or by way of premium) and not by the conditions of allotment thereof made payable at fixed times. (2) Each member shall, subject to receiving at least fourteen days' notice specifying the time or times and place of payment, pay to the Company, at the time or times and place so specified, the amount called on his shares. (3) A call may be revoked or postponed at the discretion of the Board.
28.	(1) A call shall be deemed to have been made at the time when the resolution of the Board authorizing the call was passed and may be required to be paid by installments. <i>(2) The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof.</i>
29.	If a sum called in respect of the shares is not paid before or on the day appointed for payment thereof the person from whom the sum is due shall pay interest upon the sum at such rate not exceeding 10% per annum or at such lower rate, if any, as the Board may determine, but the Board of Directors shall be at liberty to waive payment of that interest wholly or in part.
30.	(1) Any sum which by the terms of issue of a share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the share or by way of premium, shall, for the purposes of these Articles, be deemed to be a call duly made and payable on the date on which by the terms of issue such sum becomes payable.

	(2) In case of non-payment of such sum, all the relevant provisions of these Articles as to payment of interest and expenses, forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.
31.	The Board (a) may, if it thinks fit, receive from any member willing to advance the same, all or any part of the monies uncalled and unpaid upon any shares held by him; and (b) upon all or any of the monies so advanced, may (until the same would, but for such advance, become presently payable) pay interest at such rate as may be fixed by the Board. Nothing contained in this clause shall confer on the member (a) any right to participate in profits or dividends or (b) any voting rights in respect of the moneys so paid by him until the same would, but for such payment, become presently payable by him. (c) That option or right to call of shares shall not be given to any person except with the sanction of the Issuer in general meetings
32.	Neither a judgment nor a decree in favor of Company for calls or other moneys due in respect of any share, nor any part payment or satisfaction there under, nor the receipt by the Company of a portion of any money which shall, from time to time, be due from any member in respect of any share, either by way of principal or interest, nor any indulgence granted by the Company in respect of the payment of any such money, shall preclude the Company from thereafter proceeding to enforce a forfeiture of such shares as hereinafter provided
33.	The provisions of these Articles relating to calls shall mutatis mutandis apply to any other securities including debentures of the Company
TRANSFER OF SHARES	
34.	(1) The instrument of transfer shall be in writing and all provisions of the Companies Act, 2013 and of any statutory modification thereof for the time being shall be duly complied within respect of all transfer of shares and the registration thereof. <i>(2) The instrument of transfer of any share shall be signed by or on behalf of both the transferor and the transferee and the transferor shall be deemed to remain the holder of such share until the name of the transferee is entered in the Register in respect thereof.</i>
35.	The Board may, subject to the right of appeal conferred by Section 58 of the Act, decline to register any transfer of shares (not being fully paid shares) to a person of whom they shall not approve and they may also decline to register any transfer of shares on which the Company has a lien
36.	The Board of Directors may also decline to recognize any instrument of transfer unless: a. the instrument of transfer is duly executed and is in the form as prescribed in the Rules made under the Act; b. the instrument of transfer is accompanied by the certificate of shares to which it relates and such other evidence as the Board of Directors may reasonably require to show the right of transferor to make the transfer; and c. the instrument of transfer is in respect of only one class of shares.
37.	On giving not less than seven days' previous notice or such lesser period in accordance with the Act and Rules made thereunder, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine. Provided that such registration shall not be suspended for more than thirty days at any one time or for more than forty five days in the aggregate in any year. The provisions of these Articles relating to transfer of shares shall mutatis mutandis apply to any other securities including debentures of the Company
38.	The registration of transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Issuer on any account whatsoever, except when the company has a lien on the shares
39.	That a common form of transfer shall be used
TRANSMISSION OF SHARES	
40.	On the death of a member, the survivor or survivors where the member was a joint holder, and his nominee or nominees or legal representatives where he was a sole holder, shall be the only persons recognized by the Company as having any title to his interest in the shares but nothing in this Article shall release the estate of a

	deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons
41.	(1) Any person becoming entitled to a share in consequence of the death or insolvency of member may, upon such evidence being produced as may from time to time, be required by the Board and subject as hereinafter provided, elect either: a. to be registered himself as holder of the shares; or b. to make such transfer of the shares as the deceased or insolvent member could have made. (2) The Board shall, in either case, have the same right to decline or suspend registration as they would have had, if the deceased or insolvent member had transferred the shares before his death or insolvency.
42.	(1) If the person so becoming entitled shall elect to be registered as holder of the shares himself, he shall deliver or send to the Company a notice in writing by him stating that he so elects. If the person aforesaid shall elect to transfer the share, he shall testify his election by executing a transfer of the share. (2) All the limitations, restrictions and provisions or these regulations to the rights to transfer and the registration of transfer of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice of transfer were a transfer signed by that member. (3) A person becoming entitled to a share by reason of the death or insolvency of the holder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the share except that he shall not before being registered as a member in respect of the share be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the Company. Provided that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or transfer the share and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the share, until the requirements of the notice have been complied with
43.	The provisions of these Articles relating to transmission by operation of law shall mutatis mutandis apply to any other securities including debentures of the Company.
	FORFEITURE OF SHARES
44.	If a member fails to pay any call or installment of a call, on the day appointed for payment thereof, the Board may at any time thereafter, during such time as the call or installment remains unpaid, serve a notice on him requiring to pay such call or installment together with interest which may have accrued.
45.	The notice shall name a further day (not earlier than the expiry of fourteen days from the date of service thereof) on or before which and the place where the payment required by the notice is to be made, and shall state that in the event of non- payment on or before the day and at the place appointed the shares in respect of which the call was made shall be liable to be forfeited.
46.	If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may at any time thereafter before the payment required by the notice has been made, be forfeited by a Resolution of the Board of Directors to that effect.
47.	Neither the receipt by the Company for a portion of any money which may from time to time be due from any member in respect of his shares, nor any indulgence that may be granted by the Company in respect of payment of any such money, shall preclude the Company from thereafter proceeding to enforce a forfeiture in respect of such shares as herein provided. Such forfeiture shall include all dividends declared or any other moneys payable in respect of the forfeited shares and not actually paid before the forfeiture
48.	When any share shall have been so forfeited, notice of the forfeiture shall be given to the defaulting member and an entry of the forfeiture with the date thereof, shall forthwith be made in the register of members but no forfeiture shall be invalidated by any omission or neglect or any failure to give such notice or make such entry as aforesaid.
49.	The forfeiture of a share shall involve extinction at the time of forfeiture, of all interest in and all claims and demands against the Company, in respect of the share and all other rights incidental to the share
50.	A forfeited share shall become the property of the Company and may be sold, re-allotted or otherwise disposed of, either to the person who was before forfeiture the holder thereof or entitled thereof or entitled thereto, or to any other person, upon such terms and in such manner as the Board thinks fit, and at any time

	before a sale, re-allotment or disposition the forfeiture may be cancelled on such terms as it thinks fit.
51.	A member whose shares have been forfeited shall cease to be a Member in respect of the forfeited shares, but shall not withstanding the forfeiture remain liable to pay to the Company all moneys which at the date of forfeiture were presently payable by him to the Company in respect of the shares, with interest thereon at such rate as the Board may determine
52.	A duly verified declaration in writing that the declarant is a Director, the Manager or the Secretary of the Company, and that a share has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share
53.	Upon any sale after forfeiture or for enforcing a lien in exercise of the powers hereinabove given, the Board may, if necessary, appoint some person to execute an instrument for transfer of the shares sold and cause the purchaser's name to be entered in the Register of Members in respect of the shares sold and after his name has been entered in the Register of Members in respect of such shares the validity of the sale shall not be impeached by any person
54.	Upon any sale, re-allotment or other disposal under the provisions of the preceding Articles, the certificate(s), if any, originally issued in respect of the relative shares shall (unless the same shall on demand by the Company has been previously surrendered to it by the defaulting member) stand cancelled and become null and void and be of no effect, and the Board shall be entitled to issue a duplicate certificate(s) in respect of the said shares to the person(s) entitled thereto
55.	The Board may, subject to the provisions of the Act, accept a surrender of any share from or by any member desirous of surrendering them on such terms as they think fit
56.	The provisions of these Articles as to forfeiture shall apply in the case of non-payment of any sum which by the terms of issue of a share, becomes payable at a fixed time whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified
57.	The provisions of these Articles relating to forfeiture of shares shall mutatis mutandis apply to any other securities including debentures of the Company
	ALTERATION OF CAPITAL
58.	Subject to the provisions of the Act , the Company may – (a) increase the share capital by such sum, to be divided into shares of such amount as it thinks expedient; (b) consolidate and divide all or any of its share capital into shares of larger amount than its existing shares; Provided that any consolidation and division which results in changes in the voting percentage of members shall require applicable approvals under the Act; (c) convert all or any of its fully paid-up shares into stock, and reconvert that stock into fully paid-up shares of any denomination; (d) sub-divide its existing shares or any of them into shares of smaller amount than is fixed by the memorandum; (e) cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person
59.	Where any shares have been converted into stock: a. the holders of such stock may transfer the same, or any part thereof, in the same manner and subject to the same regulations as and subject to which the shares from which the stock arose might previously to conversion have been transferred or as near thereto as circumstances admit, but the Board may from time to time, if it thinks fit, fix the minimum amount of stock transferable, with power nevertheless at its discretion to waive the observance of such rules in any particular case, provided that such minimum shall not exceed the nominal amount of the shares from which the stock arose. b. the holders of stock shall, according to the amount of stock held by them, have the same rights, privileges and advantages as regards dividends, voting at meetings of the Company, and other matters, as if they held the shares from which the stock arose; but no such privilege or advantage (except participation in the dividends and profits of the Company and in the assets on winding up) shall be conferred by an amount of stock which would not, if existing in shares, have conferred that privilege or advantage. c. such of these Articles of the Company as are applicable to paid-up shares shall apply to stock and

	the words “share” and “shareholder”/“member” shall include “stock” and “stock-holder” respectively.
60.	<i>The Company may, by resolution as prescribed by the Act, reduce in any manner and in accordance with the provisions of the Act and the Rules, —</i> (a) its share capital; and/or (b) any capital redemption reserve account; and/or (c) any securities premium account; and/or (d) any other reserve in the nature of share capital.
	JOINT HOLDERS
